2.5/5 ~ mmmh nope, really didn't feel this one at all. Zero characters building, odd and random story... Very nice finale though, but of course 50 pages are not enough!

Storm says

I have only read Blue, White and Silver, but I thought this was the best one so far. I thought I could follow the story better. It was more mystery than drama and magical. The story was a little unbelievable and I HATED the end. The story gives a lot leading up to what happens and then it just falls off and the book ends. I guess it just leaves you hanging and now I have to go read Red is for Remembrance.

Barbi Faye (The Book Fae) says

I have been enjoying this YA paranormal series lately; it has been on my TBR list for awhile and I thought it would be cute to read it on Remembrance Day for NO REASON other than the title, Red is for Remembrance. I really love that it is representing Stacy as a young, psychic Wiccan, which really is no more than a natural talent for herbs, healing and respect for the earth. In this book we find Stacey and her closest friends from her boarding school, like Drea and Amber, and their boyfriends, all looking forward to a perfect vacation before they start college.

Friends, a cottage on the beach, and no parents... It all goes perfectly until her nightmares return, this time about Clara, a girl in another cottage, and it's about her death. Stacey can't figure out her dreams in time, and with horrific consequences; a tragedy that will forever haunt her.

This was surprisingly good.

I remember reading the previous sequel back in the 8th grade or something like that.

I remember being thrilled and obsessed, but somehow ended up not continuing with the series. Not saying I gave up on them, simply never got a chance/time to read the two books left.

Until now.

One thing you need to know about me: I never reread books.

Means: I picked this one up without even remembering characters' names, who they were and their stories. I picked it up expecting this is going to be a lame teenage book I liked before only because I didn't know better.

So glad I was wrong.

Silver is for Secrets is a quick, intense read I don't regret spending time on.

Can't imagine how much more would I like it if I actually remembered a thing or two about characters from the previous books.

One thing that bothered me, though:

Chad is Drea's boyfriend -> Chad is Stacy's boyfriend -> Chad is Drea's boyfriend again

And Drea and Stacy kept being best friends through it all.

Like, what?

Seriously?

Alley Kat says

After absolutely loving the second book in this series, I figured the third one would be at least somewhat good. Nope. I feel like all of the characters were way less mature than in the previous books, and Clara was just a mess. The twist at the end made literally no sense, and the actual ending was really infuriating. I also felt that Jacob was really out of character from what we saw in the last book.

...

What the hell just happened here?

I honestly don't even know how I feel about this book. Literally every character in this book pissed me off at one point. Actually, the only one who I could stand at the end was Jacob. Everything about this plot had me frustrated. How - after 2 years of this - Stacey's friends still question her nightmares. It's like, wake the fuck up! She saved your asses before, have some god damn faith!

And Stacey, come on! Grow a god damn backbone and speak up. For a main character, there's just not enough presence - nothing that comes from her. I find her extremely weak. But weirdly, I don't blame the character, I blame the writer. Stolarz, to me, seems like she's writing what she thinks teenagers/young adults are like and then taking it twelve steps farther and writing that down. Nothing about these friendships is believable. Nothing about their day-to-day lives are believable. And if you want me to care about your characters, don't make them so god damn stupid and annoying. Case in point: Clara.

Clara has to be the worst written character ever in a book. This is a combination of character and writing. If we were supposed to care that she was in danger - well, epic fail there. I cringed every time she came around.

I will say that the epilogue was my favorite part. The fact that it was an entire chapter written from journals, transcripts, and news articles was interesting and actually good. Too bad the entire book wasn't written like this.

I will go onto the next one and I will hold on to the bright light that is Jacob.

This is my favorite one. Alright, spoiler. Okay, when Jacob 'died'...I through the book at the wall. Not cool. I cried. And I wouldn't even read anymore for like...a week. It sucked. I loved him so much. Ohhh that made me so mad. I didn't even want to read anymore. It was so bad. I couldn't believe it. And that stupid girl, I forgot her name...but the one that killed him...ohhh man, if she was real...and I knew her. She would be dead. No joke. I hated her from the begging. Claire?? Was it?? I dont know. I dont even care. But, she sucked. And that was horrible, what happened to Jacob. I cried for the longest time. And I talked about it at school all the time. Until finally my friends yelled at me, and told me to shut-up. Haha. Fun stuff. Great book. My favorite one. =]

When Stacey starts having nightmares again , she isn't happy . She wanted to have a normal summer with her friends and just relax at the beach house they all rented for the summer . Stacey and her boyfriend , Jacob , are more alike . As Stacey starts dreaming about the death of a girl , Clara , Jacob seems to be a little more distant .

Stacey is feeling very stressed between trying to figure out her nightmares and everything going on with Jacob she doesn't know what to do . Stacey needs to stay by Clara as much as possible , but is it worth not being around Jacob ?

As the day of Clara's death draws near , there is talk of everyone going on a cruise . Clara is going so that means Stacey has to go , even though Jacob penly refuses to go . She reluctantly get's set and Chad , Drea , Amber , Pj , Clara and Stacey head off .

While on the ship and looking for Clara , Stacey sees the last person she thought she would , Jacob . She doesn't understand what made him change his mind but she is glad he does . That night , Stacey tells Clara that she will be watching her from 11:30 on due that it is the day everything is supposed to happen . She spend the hours before that with Jacob and she is finally able to tell him how she really feels in three little words --- I Love You .

When she awakes amnd Jacob is gone , Stacey looks at the clock and it reads 11:28 . While getting dressed , she finds a note addressed to Jacob telling him to meet someone on the deck at 11:30 or she , Stacey , will pay the price .

As she goes to the deck , she sees Clara and confronts her . Clara tells her that she was one stupid girl for thinking that she was introuble . Clara tells Stacey to look at her , and then she tells her the story of how he beloved , Donovan , was sent to prison because of her and this is his revenge . As Clara tried to hurt Stacey , they are interrupted momentarilly by Jacob . Clara tells him to back up or she will hurt Stacey .

The end will leave you heartbroken and crying , I know it was like that for me .

Last 20 pages: 4 stars. Rest of the book: 2.5 stars. My main complaint: WHY ARE THERE NO LIKABLE CHARACTERS IN THIS SERIES?! Seriously. There is one like-able character, and he was barely in this book.

Our protagonist, Stacey, is spineless and has no personality - hasn't throughout the entire series. I think that has been what is missing from this book series, and why I can't give any of these books a higher rating than 2.5 stars.

And this book in particular was difficult because the innocent that Stacey was trying to save was SO unlikable (though we understand why later). All in all, it's hard to relate to anyone in this series.

I appreciated that this book was a *tad* less predictable than its predecessors. Like I said, last 20 pages = 4 stars. I appreciated the way that the epilogue was put together, too.

Don't get me wrong - the series is entertaining, and it's easy to zip through the books. I'm just enjoying them less than I did when I was 16.

Alex says

This book was not as amazing as the first two, but it was still an enjoyable read. The entire legacy of "blue is for nightmares" is just plain amazing, the storyline and the information it gives just makes me so happy. It's good to know that there are at least a few pieces of literature that don't completely demean the wiccan religion.

Erika Schoeps says

I wrote an entire review and then Goodreads erased it.

Future Erika: Don't reread this series. It was lame, and all the girls were slut and fat shaming each other. You predicted the ending 75% through. All the characters were indistinguishable or a caricature of what the author thought was a "cool teenager".

Out of Nowhere Ending

Whoa!!! It was getting towards the end and I was beginning to wonder how in the world all of this was going to get this all wrapped up and that's what comes out!!!

The whole thing was a complete mystery till the end. But Jacob was so so so stupid. And I am heartbroken still. Might need some recovery time before reading the next one.

Lindsay says

This book took me forever to finish. It just didn't grab me at first. However, it got pretty decent about 75% into it... and then the ending had me wanting to start the next book right away....

Carrie says

Where to begin?? Clara's character: from the very beginning I was kind of wishing that maybe Stacey would see all the damage she was doing and just pack up and leave town. I don't think she is a character ANYONE could sympathize with. But you have to admit that Donovan was right...she can't keep her nose out of everyone's business and it eventually turns around to bite you on the rear! HOWEVER, I CANNOT believe that Jacob is gone!!!! I bawled my eyes out over that one. He was having nightmares of his own death and withheld that information because of his love for Stacey and wanting to help her and protect her. So sad. I have a love/hate for books that are like this.

Leah says

This is my favorite book out of the whole series. I love that they are heading off to college and are leaving all of the bad stuff that happened at her boarding school last year behind. I also love that because they aren't in school anymore they have more freedom in that book to go places and to do things outside of school. The only thing that I don't like is what happens at the end of the book.
