## From Reader Review Suck On This Year: LYFAO @ 140 Characters or Less for online ebook

### Alexandra says

i would have been SO PISSED if i paid any amount of money for this.

a bunch of years ago i read Why We Suck: A Feel Good Guide to Staying Fat, Loud, Lazy and Stupid and i was ROLLING. i actually read it in class after taking a test, while other people were still working. and i kept laughing (one of those annoying laughs where you are trying to be quiet so you're mainly just breathing through your nose fast and loud. people kept staring and so i had to just walk out of the room :|)

so i picked this one up from the library thinking it would be just as funny as the other and boy was i wrong. to be fair, this one is an entirely different format. it's written as a series of random tweets about a bunch of random stuff that was relevant in 2010. and it's not even the fact that it's slightly dated that bothers me.

it just wasn't funny. and one of them was super creepy and horrible. (page 76: "**experts: best time for sex is 7am.** unless she wakes up." O\_o) whut.

i read this entire book in 10 minutes and the only time i smiled was the introduction.

### Katie Dawn says

It was a little disappointing. I had the whole book read before I even left Chapters. Leary can do better.

### Doobie Howser says

This shouldn't even be considered a book. It is about 100 pages long and about half of them consist of a "tweet" from his Twitter page; It is not funny whatsoever. I think there was a single quip that made me smile, but that's it. I certainly was not "Laughing My Fucking Ass Off".

---

### Amara says

Not hilarious, not not-hilarious. Very dated jokes that don't much hold over to the current state of affairs. I still love Denis Leary's sense of humor, though.

---

### Sarah says

I was curious to read one of his "books", but it wasn't really funny. It doesn't take much to get me to laugh when I read and I didn't do it one time throughout the book. I also wouldn't call it a book. It's very brief running commentary on issues in the media. Don't bother.

### **Ann Keller says**

The humor in Suck On This Year is coarsely funny. This is a short book with humorous lines of 140 characters or less posted on Twitter in the last year.

Definitely not for the younger set! The audience for this book is high school and above. I think I may have smiled once while reading it. Apparently, I'm not in the right market niche for this book.

### **Christine D says**

Leary was right, I did f\*\*king laugh out loud. Or more appropriately, LOL.

---

### **Patrick says**

p.22 Pope is against gay marriage. This coming from a grown man who goes to work dresses like Lady Gaga.

A short, quick, easy read. Mr. Leary's trademark sarcasm is on full display throughout the work. There are plenty of good laughs included within the quick-hitting bits. As usual, nothing is out of bounds for the professional comedian. The topics are full of pop culture references and fun comparisons.

### **Mauojenn ~ \*Mouthy Jenn\* ~ says**

There were a couple of hysterical laughing moments for me. This book is a good read for someone on the go as it's not much to read. Small book, 1/2 of the pages are pictures (funny) and smart witty humor twists on the rest. Denis Leary is a funny man no doubt.

---

### **Justin says**

Not side splitting hilarious or anything, but pretty funny. Considering you only invested 10 minutes to read this 'book' cover to cover it seems like a good trade. DO NOT PAY FULL PRICE! It would be better to just read it in the store- like all other short comedy books.

## **Myckyee says**

Denis Leary is a very funny man and his new book, *Suck On This Year*, shows just how funny. It is full of tweets - short bon mots at 140 characters or less - that take a headline and continue it with very funny lines. Example:

Doctors: attention deficit disorder can destroy a marriage.

(Denis Leary): I think I speak for all husbands when I say: 'You seen my keys?'

This little book is chock full of classic Denis Leary humour - sarcastic wit amid true observations that only he could think of. To see more examples of his twitter humour, you can follow him on his twitter page. One of his latest tweets:

TSA conducting groin checks. Sen. Larry Craig's been thru 19 times already.

*Suck On This Year* would make a great holiday gift for a Denis Leary fan. A portion of the proceeds from sales go to the Leary Firefighters Foundation.

## **David Shirley says**

Typical Dennis Leary. If you know his humor, you know to expect a blunt, sarcastic and put it all out there kinda book! Easily offended then don't read it punk!

---

## **Robert J. Sullivan says**

This is 104 pages of funny snark from Leary, usually commenting on current events. The format is a picture, a news note about an event and Leary's shot at it, for each of a pair of pages.

“Larry King puts his divorce on hold”, to which Denis adds “And another one marriage forwarding.”

Acerbic and witty, you can read this in half an hour, including the introduction. And you should. 3 stars

## **Donna says**

I'm probably going to break my "your review needs to be longer than the book blurb" credo. Why? Because the book blurb is longer than the book itself. I kid you not. The "book" is 104 pages long. Roughly half of those are pictures. Each remaining page contains 1 twit each, 140 characters or less. There's nothing to judge here. No plot structure or character development. No use of proper grammar or cliches. You either think the guy's funny or you don't.

Considering I think Denis Leary is nothing short of a god, I find him, and his most recent book, quite hilarious. I'd already seen 1/3 of the snarks since I follow him on Facebook and Twitter but that's okay. I don't mind helping his kids through college despite my own heinous student loan debt.

Really, all this is book is is another piece of Denis Leary fun added to your growing pile of Denis Leary stuff. You will get through it, literally, in about 5 minutes. 10 if you keep getting pulled away. Any longer and I might start to question your reading competence. So if you're a fan of Denis Leary, you're going to want to nab this one up. It's nowhere near as good as Why We Suck but it'll make you laugh all the same. That is if you have a rather self-deprecating and un-politically correct sense of humor.

Vapid fun. Very fast read. I mean very fast, like under 10 minutes! Good stocking filler perhaps. Maybe I'm missing the point.....
