Great photos accompany easy to read text. Perfect intro to research and non-fiction for beginning readers.

3.5 stars Thought my niece would like this one since her brother was such a fan of the show. Each two-page spread highlights a different animal and shares an interesting fact or two. The book includes quiz cards with animal pictures on one side, and a fact on the other that follows up on the content. There wasn't too much text, and though some of the animal names may be tricky for a new reader (orangutan), the picture will certainly help!

Good info, but not as much fun as the TV show Wild Kratts.

Another great Wild Kratts book!
