X-Factor, Volume 16: Together Again For The First Time Peter David

As Havok and Polaris take the reins of X-Factor Investigations, the Isolationist returns! And when Monet calls out Layla, what starts as a catfight rapidly gets ugly. Then, when something begins eviscerating super heroes in Seattle, X-Factor is called in to investigate. But when they encounter the villainous Scattershot, who looks suspiciously like two members of X-Factor Investigations ... Shatterstar goes berserk!

Angela says

The team find out that Jamie has come back from the dead, meanwhile Havok is not too happy about sharing leadership. Someone is killing wannabe superheroes and X Factor investigate. The case storyline is interesting, and has some nice touches. Especially Shatterstar's reaction to the murders. A good read.

Shannon Appelcline says

The first couple of issues, showing the reintegration of the new team, are enjoyable even if they're mostly plotfree or else setup for the future. Nonetheless, the characterization carries them [7/10]. Unfortunately the second two issues, about Scattershot, are pretty dull without a lot going for them. It feels like David wrote the whole thing just to whine about reality TV [5/10]. Finally, the Wolverine issue was totally unnecessary, especially since we saw much the same plot in the last two X-Factor issues, and it wasn't even very good either [4/10]. I guess Marvel included it to try and justify their continuing high price of \$16.99 for these micro volumes.

I definitely love this series and it never disappoints.

The Isolationist is back! And someone's killing fake super heroes! More quirky fun, as the team continues it's quirkiness despite Havoc and Polaris rejoining post Schism. A weak 6 out of 12, despite the great dialogue.

Okay, so Peter David managed to write this series for 90+ issues and everything was working fine without Havok & Polaris, and the series seems to be on its tail end, so **why the hell does he now feel the need to bring these 2 characters in?** **Addendum: It didn't last: Havok leaves the team at the end of X-Factor -

Volume 18: Breaking Points to join the Marvel Now! Avengers team.

Hopefully David's going somewhere with the return of the Isolationist (last volume he brought back Mr. Tryp - albeit briefly). Maybe he'll finally tie up these dangling plot threads. Oh, and Madrox is back from the dead (*that* didn't last - but then again he's arguably the central character of the series).

I did not care at all for the "bonus" issue (Wolverine #54) from 1992. Was the fact that it features Shatterstar the only reason for its inclusion? Looks like.

On a side note, I was disappointed that this went straight to softcover trade paperback format, instead of having the hardcover version come out first. It seems the next volumes to be released will be like that as well. Too bad for me, I guess (I much prefer the hardcovers!).

Christina Nightengale says

Best line by far in this volume was, "I'm your worst nightmare people! I'm a super-strong Muslim Mutant with PMS! So BACK the Hell off!" Oh how I love Monet St. Croix/ M!!! I loved the first half of this volume, but the second half wasn't as good. Havok was doing a good job as team leader. It was cool to see everyone's powers on display. I did like how Polaris decided to take a stroll through Central Park. Jamie's dupe grabbing his butt during the group hug was hilarious! Monet and Layla's talk was well done. Jamie and Shatterstar's undercover costumes were great, but that was one of the few good parts of the wannabe Seattle Mutants storyline. Havok and Jamie's fighting got old fast. Guido's soulless film criticizing was great!

Emmett Spain says

A short volume that was a little more scattershot than previous volumes, but still very readable. Not the most memorable arc in an otherwise excellent run.

Alan says

So Madrox is back, but so is Alec Summers and Lorna Dane. The result? Madrox gives up a little bit of his leadership of X-Factor investigations, and maybe the team is working better as a team under Alec.

An well executed and somewhat sad story is Shatterstar and Madrox investigate the murders of super heroes in a story that appears to be inspired by those who in real life have taken to patrolling their city's streets trying to do good deeds without super powers or training. A story that shows why people shouldn't do this.

Paul E. Morph says

I'm having an absolute blast re-reading all these X-Factor books. It's making me quite sad that there's no PAD-written X-Factor book on the shelves at the moment, to be honest. Best line in the book?

'Zip up yer damned uniform; even *I'm* sicka lookin' at'cher rack!'
- Pip the Troll, to Monet St. Croix

Craig says

Continuing the great x-read of 2017/18...

Another enjoyable volume in David's run of one of the best x-book. This one is a little more scattered (and short, filling it up with an old Shatterstar/Wolverine tale...) but still a great read. I'm happy to see more information on Layla and this one has a lot of great humor.

Philip says

Marvel continues to collect this enjoyable series in too-small chunks. Only four issues this time, with a vaguely related issue of "Wolverine" thrown in to pad out the page count and (sort of) justify the \$16.99 price. I like the story and art but am just as glad I got this from the library.
