I don't want this series to end.

### **Jenn says**

I have read other reviews, where people have said they list interest with this story, quite quickly. But so far it still grabs my attention.

The following is a review of the entire City of the Lost collection, as I waited for it to be released in its entirety before reading...

Kelley Armstrong is one of those authors to have quickly worked her way onto my favourite authors list, doing so after just a couple of books. As it stands, I've been working my way through her Women of the Otherworld books at a snail's pace. I adore the series, but it is taking me a while. When I saw City of the Lost on sale, I knew it was time for me to jump into something else, something different. Taking a step away from the paranormal romance I knew and loved, I was eager to dive into a Kelley Armstrong thriller.

Thrillers and mysteries are actually some of my favourite books, even if I haven't read all that many as of late. I've been in one of those moods where I've been picking up contemporary romance or paranormal romances. There was a time where such a thing would have horrified me, I never imagined I would reach the point where romance was my choice of read, yet such is where I've been at recently. However, when I was looking at my bookshelf and trying to decide what I was to pick up next, I knew I would be taking a break from that mood. City of the Lost was calling out to me, begging me to return to my mystery and thriller mindset.

Whilst there is romance within this story, as I've come to expect from Kelley Armstrong, it does not take over the entire story. It is there simmering in the background, slowly building, wiggling into your heart at a leisurely pace. You are aware of it, you ship it, you enjoy it, but it does not take over the entire story. There are scenes focusing solely upon the romance factor, but it is not the main element of the story. As I've said, this has more of a mystery and thriller kind of vibe.

At first, the story is a bit slow. It takes a few chapters before you're completely pulled in. At the start, I

believe people will fall into one of two categories. They will either be extremely intrigued, or they will be bored of waiting for the story to start. Whatever category you fall into, hold on. It does take a while for things to get moving, but once the story is moving we have quite a few different elements going on. Each time you think you've reached the bottom of the secrets to be uncovered, something more is added. There are some predictable elements and some surprising elements, and all work to bring the story together in a wonderful way.

As my first introduction to Kelley Armstrong's thrillers, it was a wonderful read. I'm so glad there are more Casey Duncan books to come, as I'm going to be grabbing them up. I fell in love with the characters, the story, and the town. Without a doubt, I'll be returning for more.

The Women of the Otherworld books were enough to cement Kelley Armstrong as a favourite author, but City of the Lost has shown she has more up her sleeve than I'd initially thought.

what a place to leave me hanging!? when does the next one come out? i suggest waiting until all 6 books are out so you can read them straight through. each one takes less than 2 hours and each leaves you wanting a bit more.

### **Claire (Cem) says**

That is a properly brutal place to end this part. I am screaming for more. I must know the truth!!

So far, this is proving a truly fantastic serial. Excellently drawn characters, gripping plot and leaving me each time desperate for more. I can't wait to read the final two parts, but equally, I'm looking forward to rereading the whole book once it's complete.

### **Lisa says**

I think I should have read this as a single entity. I've been reading it in parts but waiting months in between on hold at the e-library. It does not make for a cohesive read. Although finally this part really threw a wrench in the story with an unexpected twist.

---

### **Christina says**

Ahh, the plot thickens. This book is throwing a big ole monkey wrench into the mix. I'm not sure I believe the rabbit hole it is intending to send us down, but this section of the book was a good one.

## **Aaron Advani says**

continues to grow

---

## **Didi says**

Holy crap! That new development! This is such a great serial, I'm loving it! Suspense, intrigue and some blossoming romance. On to the next!

---

## **JoJo says**

This would be so good to read all at once. I am not sure if I am liking waiting each week.

---

## **Terah says**

The story finally goes somewhere. Yay. I laugh though when northern Albertans have an accent like there is a different accent from Calgary to Grande Prairie. I kind of live at both. Trust me there is no northern Alberta accent hahaha

---

## **Suzan says**

Loved this episode in the series! I think there's more to the story Casey was told at the end than she thinks, I think it's been misinterpreted and hopefully she'll talk to Dalton about it to get the truth about what happened, I've got my suspicions and theories but I'll have to wait for the next part of the story to find out!

## **Lesley says**

I kind of like these shorts to keep you reading the series

BOOK FOUR OF THIS excellent introduction to the Worldwide Kelley Armstrong Phenomenon is easily the strongest in the series so far. The hunt for a killer (or killers) continues inside the tiny community town of Rockton, but this time the reader finds themselves blessed by both the terror and beauty of nature, often simultaneously by the same thing, at the same time. I won't go into details here (SPOILERS) but the story acts as a tribute to the quality of the writer and their imagination when a simple stroll through the nearby countryside leaves the reader with such a strong stirring of emotions. Not to mention the classic sense of

Wonder you normally only find in speculative fiction.

The daily battle for the soul of Casey's BFF Diana continues, and it appears that the evil corrupting the town has also set it's sights on her. Other issues which are confronting the people are also raised for optional consideration of the book's devourer but if you want to just stick to the facts of the case and keep the politics for your second or third read, that is up to you.

So this one is easily the series highlight so far. Alert readers may well be able to pick the killer (or killers) but at this stage all i want to do is sit back, relax and stare out of the metaphorical window that is my kindle screen. That's if Ms Armstrong will stop overwhelming my emotions long enough for me to do it!
