I haven't read anything by this author before, but it looks like an interesting romantic suspense.

This book was ok. The ending reminded me of Scooby Doo, "Oh, we thought that person died, but they're actually alive." I'm not sure if I will try reading this author again. There were so many cliches and rewriting murders. I have several of her books on Kindle so I might try another one before I give it up.

A busy book to start off with.. We have a woman that has been burned beyond recognition that a plastic surgeon has sworn he can mold into a beautiful woman.. We have a very torched FBI hero Damon that is called to a crime scene by his younger rookie undercover brother Antwaun that turns out to be a hand of a girl Antwaun had been seeing while undercover and then gets accused of her murder..

Excellent thriller!

I read this one after I read Dying to Tell and was really disappointed. I hated the romantic relationship and \*very minor spoiler\* the guy plays the sax shirtless on his deck overlooking the Louisiana swamps??? It's like that scene was written just for cheesy cover art. The romantic angle starts off bad and just gets more ridiculous. I think she tries to capture the dark, magical, sweaty romance of the deep south but fails.

Not bad, but a bit confusing in the beginning with all the scenes jumping around with no apparent order to it.

A little weird and twisted with a lot of unbelievable things happening at the end but not a bad read. I do feel the Graveyard Falls series was a better series, but this book was okay.

It had potential, but fell short.

Was a very long book, full of twists and turns. Held my interest and kept me guessing what the ending would be. Never completely figured it. Was surprised at the end. Overall I liked the book, but not quite ready to say omg you need to read this one.
