# General Principles of Astrology

Aleister Crowley , Hymenaeus Beta (Editor) , Evangeline Adams

**General Principles of Astrology** Aleister Crowley , Hymenaeus Beta (Editor) , Evangeline Adams  
Long before there was Linda Goodman, long before astrology bestsellers turned up in supermarkets, there was Aleister Crowley, the most important astrological scholar and authority of the early 20th century. Ghostwriting for Evangeline Adams, it was Crowley who wrote the vast majority of her classic textbooks, *Astrology: Your Place in the Sun* (1927) and *Astrology: Your Place Among the Stars* (1930). *General Principles of Astrology* finally acknowledges Crowley's authorship.

Crowley's goal was to abandon traditional assumptions, so he based his findings on actual charts and how they were expressed in people's lives. In his characteristically clear and elegant prose, Crowley discusses each planet from a scientific and mythological point of view. He provides an exhaustive analysis of astrological types, drawing conclusions for over 180 astrological nativities of wellknown artists, poets, musicians, philosophers, politicians, and business leaders from the 18th to the 20th century.

This new book is composed of painstakingly gathered work, primarily ghostwritten by Crowley, and published in various early twentiethcentury texts. It is published here in one volume for the first time, in an undertaking endorsed by both the Adams and Crowley estates.

## **From Reader Review General Principles of Astrology for online ebook**

### **Melissa says**

Alister Crowley has a bad rep  
but this book is GREAT!!!  
His interpretation on Mercury - in Pisces is the best I've ever read.

---

### **A. says**

Not the average astrology book.

---

### **Michael Smith says**

An amazing book! I personally struggle with astrology but after peering into the mind of a master it floors me how creative and totally brilliant the associations between planet, sign and houses are. Crowley spares no expense in chalking this book full of vital information. I would recommend tackling it after you have done research on your own, so that you go into this with your own work in hand. :)
