Lavish Loving Zuri Day

Only one man can claim this Drake beauty's heart

After dazzling the fashion capitals of the world, London Drake comes home to Southern California for a well-earned rest at her family's resort spa. But a chance sighting of her former lover, international playboy and trending fashion designer Ace Montgomery, sends the headline-making supermodel into seductress mode. Only this time London wants more than a hot fling.

Eight years, and Ace still isn't over the sensual London. Reconnecting with her in West Coast wine country is fraught with risk, and not only to Ace's heart. She is the ideal candidate to be the face of his upcoming women's clothing line. As New York Fashion Week draws near and a rekindled passion leads to an intimate affair, is London finally ready to commit to Ace? Or will a dangerously obsessed stalker sabotage their precious second chance?

I just loved Lavish Loving by Zuri Day!! I loved the chemistry and London and Ace love story!! I would recommend this book and the series to anyone!

Leigh-Anne Ford Lyons says

Captivating

Another great book. The Drakes of California series is a must read. I did not want to put it down. I cannot wait for the next book.

Juanita Samms says

Great book! If you like romance, drama and suspense all in one book, this is the book for you! This book take you from Lust to Love with some suspense and drama mixed in the middle. Good quick read.

Toni says

The Drake family is fabulous, but none do much as London. She's an international model and daredevil. After a chance reunion with Ace Montgomery, former model and now a designer, she becomes the face of his new line. A passion is rekindled but an obsessive stalker is after London.

Miniseries: The Drakes of California

CaroMommie says

It was fun and cute, steamy as heck. London's story was very interesting, and Ace was amazing.

The Drake's supporting cast did not disappoint. I recommend.

Ms. Day did a good job weaving London's story. London never expected to run into Ace Montgomery at her family resort and the attraction was still strong. Ace is at the resort for much needed mini-vacation and when he sees London he knows she is the one to model his clothing line. He realizes London is still not ready to commit but as the event draws near, they cannot help but reunite. Ace and London have a few bumps in the road and with a stalker on the loose, added to London's fear of commitment, Ace must find a way to protect her and conquer her fear. This makes for a good story and quick read. Enjoyed the story.

I am a fan of this authors work. But this particular book I found difficult to finish. It just was not one of my favorites.

Connie says

Absolutely love the Drake Family! Really happy that London and Ace found their way back together through his fashion design company and her modeling. But after what London suffered as a young child, why didn't she listen when Ace warned her about Max, her sleazy ex-boyfriend? Lots of shocking surprises in this one.

Joyce Hudson says

Great love story between London and Ace.

If you have not read about The Drakes Of California you do not know what you're missing.
Truly hate that Harlequin is dropping this line books from productions. I truly wish all of the writers and hope and want them to continue writing.

Pick up previous books in The Drakes of California you will enjoy them.

There is one remaining book left.

Zuri Day is one of my favorite authors. I have faithfully followed The Drakes of California series which has included some of her best work. However, this last installment in the series, is a disappointment to me. This novel didn't have the "Zuri touch" -- almost as if it was written by someone else. The ninth installment in this series, LAVISH LOVING, is the story of London Drake and Ace Montgomery. Both are international models with "history" who meet years later to pick up where they left off. There is an underlying subplot that

adds an element of suspense, but that only serves to prolong the story. Although not the best addition to the series, I encourage you to read it because it provides an update on the Drake family. Day says the next installment in this series is the finale. She is a gifted writer and I hope the next novel is a truer reflection of her wonderful talent .

The age gap thing in the beginning made me super uncomfortable. Pretty disappointing because I loved the premise. Oh well.

Karen says

Ace and London's chemistry was off the charts! I absolutely loved the mystery, the fashion, and both of them trying to fight the obvious that they were madly in love with one another! The romance between them sizzled and the ending had me in tears because Ace was such a smooth dude! Awesome read!!!

Slow to begin with, but once it started for me it was a very good read

Carmen Blalock says

Love. One of the most powerful words used but also the one word that can make you your weakest. Many people throw the word around without truly understanding its meaning but once they understand it seems to quit flowing so freely. What do you do when you want to love but you feel like you are broken? Do you make the attempt or do you just live life without risks?

London Drake is amazing in her own right. While London is quite the spitfire when it comes to her family life she is still a young woman with dreams of continued success. What should London do when a ghost from her past comes back to haunt her? Is this something that she would like to revisit or should she just forget leaving the past in the past and keep moving forward with her life?

Ace Montgomery has always been a special guy but just didn't know it. From a young boy who some didn't think he was heading anywhere to the successful man that he has grown into today. Life has a funny way of changing your perspective on what you think is important and for Ace he is trying to figure out which way is the right way. How do you continue with your current lifestyle when your life is about to be turned upside down? Will Ace be a willing participant or will he turn the other way?

Lavish Loving is the 9th installment in the Drakes Of California series and it does not disappoint. If you have

read the previous books you know how powerful and family oriented this series is. There is regular family drama and excitement but the one thing that is never lost is love. Day has given us another chance to be entertained and engrossed in lives other than our own. You feel like you are a part of the book, like you are right there in the story and that is the sign of a great writer. If you haven't started on this series, you need to! I applaud Day for continuing to bring us Love and Light!
