**On the Line** P.S. Power

**On the Line:**

Kaitlyn is a succubus. A martial arts expert. An all around great girl, and now, for some reason, a freshman college student. Of course nothing ever gets to go that smoothly for someone like her, does it? Instead of spending her days and nights seducing cute young co-eds and campus hotties, Kate finds her life, and new friends, imperiled by a string of murders on campus.

At the same time, she finds new allies, new powers, and that her childhood is at an end.

Because there is an enemy out there, pulling the strings.

One that would very much like her, and all of her people, dead.

The first three books of the series are being released on September 17th, 2014.

\* These books contain sex, violence and adult themes. Not recommended for children under 14 years old, or people with delicate sensibilities.

**Book One: Mr. Hartley**

**Book Two: Between**

### **Excellent story**

a perfect story for someone to get lost in. the story has interesting characters, multiple story lines and a lot of fun. Hope there's more!

## **Vincent Atd says**

I find it hard to believe when they're tracking the location of Don, when Zack could just walk to where he was.

3rd book in an outstanding series....now moving to a slightly younger set of characters than the first two. more complex. very action oriented. Zach finds out he has 3 young proteges who can walk the lines between time and space and function in the rift...Hope the next in the series comes soon.

What can I say about it that I haven't already said about its predecessors, it a great read indeed, I love how the world keeps expanding along with the cast. Now if something there has been bothering me, is that a lot of venues were opened but never closed or concluded, like for example the relationship between Don and the twins, things never got to be truly clarified there, yes we know that somehow they are 'something' but what that is? no one knows, and Brit stated that she loves him for someone like her that has to mean for something important right?? I would have liked we got more involved into that. And maybe I am being a douch here but the thing with Merri so easily sleeping with other men beside Zack felt weird if you ask me, it doesn't feel like she is the type to go for that type of thing. Even so great book I hope the next one clears out all my doubts.

### **It makes my head swim!**

This novel kept me wishing for more. Three volumes and what a story line. I have to admit I thought the second one was necessary for character development, but this is quite world class stuff.

I hope the next one comes soon.

**Nice build up to a 'big finale' book.**

I'm very happy with my purchase of On the Line. I'll definitely be buying the follow up novels for this series!
