## From Reader Review Onboard for Love for online ebook

### Alisa says

Alicia Noir has spent the past 8 years raising her son, establishing a successful law practice, and running a ranch with her brother and mom... and trying to forget her ex-husband. She has successfully avoided him for the past 8 years until she finds herself on a family cruise with him and their 8-year-old son.

Trav Poulsen has spent 8 years praying and hoping that Alicia would forgive him for something he never even did. She has refused to talk to him these past 8 years, but now that he has her attention for 7 days, he's going to take every chance he has to clear up any misunderstandings between them.

I love second chance stories, and this was a fun one!

### H says

This was a really quick read, but at the same time, it felt slow, like it didn't really go anywhere until the end. 80% of the book is the cruise, and it's the same back-and-forth the whole time--Alicia and Trav are still in love with each other, are super attracted to each other, etc., super fun excursion, Trav wants to move ahead as a family, Alicia sort of wants to but mostly wants to protect herself and consequently pulls away, and rinse and repeat. Then you've got about 15% for the conflict/serious situation, 4% for some more waffling post-cruise, and then a really, really quick happily ever after without a lot of closure, despite the fact that everything is neatly wrapped up by the end. It was a cute story, and I appreciated the inclusion of OCD as a serious mental illness rather than an I'm-so-OCD kind of thing, but I was a little disappointed overall.

### Debra says

This was a second chance at love that I enjoy reading. It was betrayal that separated Alicia and Trav. He was a NASCAR racer, but not when they first met. They met in college and went on together to law school. But so much happened from him missing her father, his mentor, funeral to being caught with another woman thru the media. When she left she was pregnant with their son. Now eight years later they finally meet again when she was to have a "family" vacation on a cruise ship. It is the first time she has seen him in the flesh. I enjoyed the angst that came with the story line. Just didn't like how the OW his assistant didn't get caught out by him. If the story was longer...I will be reading another book by Cami Checketts.

Sigh I loved this one. Swoon worthy for sure! Trav and Ally has a rocky past but for the sake of their son they take a 'family vacation'. It's hard for anyone with boxed up emotions to try to face each other especially

stuck on a cruise ship for 7 days. I absolutely loved this one. I loved the chemistry between them and I loved that they were trying to hard to be civil for their child. After a few days their memories of the good times start to come back and its earthed fight it or give In To feelings that are still there. You'll fall in love with this book and these characters just like you always do in Cami's books. I was beat today and procrastinating house work it was a great distraction for the day. Amazing as always!

#### **Not her best**

I really wanted to love this book because I love everything Cami Checketts writes but I feel like this book just didn't quite make me love it like her books usually do. I would love to be able to analyze why but I don't seem to be able to. The writing didn't flow as well as her books usually do but that won't keep me from looking forward to the next book in the series and I will still read any book Cami writes. It was a clean read and the characters were fun so I can recommend the book. It was definitely not a waste of time reading it.

#### **Great story**

This was an awesome love story. I loved how they worked through their hard times to work for a solution. The little boy was really sweet!

### **Aimee (Getting Your Read On) says**

Cami Checketts specializes in sweet, romantic stories. I feel like she writes them just for me- because if I am in the mood for some feel good romance, Cami is an author I look to. She makes reading effortless and easy- the perfect diversion.

I think this book is my favorite of Cami's most recent. I loved Trav, his kindness, his sincerity and his persistence. He really wants to understand Alicia and fix whatever went wrong. Did I mention he is kind? Kindness is really so sexy. I really just loved Trav.

When you add in an energetic eight year old boy, a cruise through the Caribbean and all kinds of misunderstandings- well, it's the perfect set up for romance with a side of frustrating hair pulling! But all's well that ends well and this one ended SO well. It made me happy!

You can pick this on up on Kindle Unlimited if you have that. I LOVE Kindle Unlimited!

Alicia, Alicia, how frustrating you are! Now that I have finished the book, I realize I have spent ALL those pages in FRUSTRATION and one page of (\*this shouldn't be a spoiler in romance\*) HEA. Good grief, woman! Talk to people. Eight years of silent treatment. Such frustrating interpersonal habits. Such a frustrating story. I think I have read one too many "boy and girl love each other, split up for nearly a decade, and through intense...what...dysfunction and attempted reconciliation come back together." Too many in a row! Deliver me. Rating 2.5.

### **Real Love**

When you really love someone you would give up anything for them and if they really love you they would never ask you to do that for them and with amazing characters and breathtaking storyline you enjoy the ride.

### **Cute, cute, cute**

What a feel good story! The settings sound wonderful. Add an adorable little guy and romance to tell a good tale. Sometimes wishes come true. I liked the book.

Oh my! Such a sweet story. What a fantastic cruise! Loved the excursions and the interactions of the characters. The helicopter story felt very real. Great storytelling!

## **Cathy says**

This book was a perfect escape! I loved the whole premise ex-husband and ex-wife thrown together on a cruise ship for the sake of their young son! It makes for a fun story, especially since neither is actually over the other yet.

I really liked Alicia. I liked the way she was willing to do pretty much anything for her son. Including go on a cruise with someone she didn't really want to. There's a scene near the end that was pretty gut wrenching for me to read. I can't even imagine how a mother or a father would go through that experience and not be dying inside.

Then there's Trav. He comes across as kind of a fun loving flirt, but what you don't see is just how much he was torn up by Alicia leaving him, and the reason she left him was false to begin with, but she didn't know that. So many misunderstandings between these two. It was really fun to see them fall back in love and go through the things they did together.

And I really loved their son Preston. He really was a master at throwing the two together any chance he had! That made the plot so much fun. I really loved this one! If you're needing a cruise like I do about now, go read it, it'll help!

### **Julie Jobe says**

I liked this okay, but had some serious frustrations with the characters at times. Ally ran from facing her troubles and spent years too long away from a man who loved her because she refused to talk to him or listen. And Travis should have fired Holly the second it was apparent she was causing his wife uncertainty in his fidelity, sob story or not. His marriage should have come first. Those frustrations with the characters kept me annoyed for a good portion of the book rather than making me enjoy the read. Just my thoughts. Others may have loved it.
