*Protecting Their Mate, Part Four (39 Pages)*

The alpha, concerned with the growing attachment between Blake and Ashley, sends his second out on a mission. Meanwhile, Ashley meets the elusive last member of her new pack--enigmatic Connor, a hacker who, like her, was raised among humans.

For Connor, sex is volatile, dangerous, and being near Ashley draws out the feral edge of the wolf inside him. When her fever builds, he's more than ready to taste her passion and her pleasure--but he'll have to rely on his packmate Mac to help him keep his own savage needs at bay.

*This is the fourth installment in PROTECTING THEIR MATE, an erotic BBW paranormal romance serial set in the world of The Last Pack. It contains strong language and explicit sex with multiple partners. For adult readers.*

#### **Part 4 of Wolf Shifter Series - Cliffhanger!**

Kindle Unlimited shifter series. This is part four in series and takes things to the next level. She finally has every man in the pack except the Alpha. You get to know each man and what they want from the female but no mate has been chosen by her wolf. Wild MFM parts that aren't for the faint of heart. Who will she chose? Cliffhanger so no answers yet.

This is a serial, so you will need to read the books in order to understand what's going on.

This is currently the latest book in the series, so now I've got to wait for the next instalment. As predicted each books herald's a new lover for Ashley as she discovers more about her werewolf wants and needs, as opposed to what was expected of her when her werewolf parents tried to raise her as human.

This one is a little different, yet again, raising the heat to volcanic temperatures, with a hint of male on male action throw in. The writing is very explicit, so be warned.

Really looking forward to book 5, as I want to know what's going to happen when Ashley has an encounter with Lucas the Alpha, although I bet we all secretly hope she ends up with Blake.

Book four, yet another shot of hot!

#### **Connor and Mac**

I am still enthralled by this ongoing quest for Ashley's mate. I am not liking the 99 cent per chapter part though. I don't think i spent \$8 on my last Toni Morrison novel, but i have purchased part five.

#### **PRISONER OF THE HEART !!!**

OMG! Protecting Their Mate Is an amazing new serial by Mia Thorne and it totally rocks! I loved it! This is my first time reading Thorne's work and I must say, I am now a fan! Thorne demonstrates exceptional talent, imagination and skill in the debut of this series. She grabbed me on page one and held me tight until the very last line. I was totally enthralled. Her imagination and style just blow my mind! Exciting! Well Written! Addictive! Captivating! Compelling! Thrilling! Powerful! Arousing! Sensual! Sexy! And oh my goodness....so HOT! And did I say Sexy-yeah I did! Great characters that jump off the pages. Wolf shifter, Blake has been sent by his pack alpha, Lucas to find a young woman, Ashley Todd taken years ago to live in the human world by her parents. His mission now becomes an urgent rescue when he finds the beautiful young she-wolf imprisoned in a basement, starving, half mad and in full blown heat. Huh? Someone has to help relieve her heat or she could become feral so it looks like the job falls to Blake and it's a job he doesn't want. He never wanted this mission. Lucas should have sent someone else. And to make matters worse, the beautiful young woman has never had sex - she's a virgin! What? But what Blake experiences with the luscious Asley turns his world upside down and for the first time in his life, he experiences an unknown feeling - love. But Blake knows that he must take her to his pack and Ashley must be free to choose the man she wants for her mate. Who will Ashley choose! Will she choose Blake or will it be another? Oh my! I can hardly wait to meet the other wolves in the pack! Imaginative and very well written story that draws you in from page one and keeps your engine revved, all the way to the end. Sexy wolf shifters-check! Hot curvy female heroine-check! Great hot sex-check and check! Be still my heart! Several times, I even forgot to breathe. I don't mind at all, but just so you know, it's the first in a series. Fantastic entertainment and an awesome read!

I really liked the addition of Connor and how he and Mac interact as a team. I'm starting to wonder if Ashley will be choosing them all to keep the family dynamics.

#### **Wow**

2 out of the running I wonder if it will be Blake????? I wonder if maybe after having Lucas it will change

### **Monica says**

So, Lucas feels Blake is getting too close to Ashley and sends him on an errand which pisses him off. Lucas doesn't do it out of spite. She hasn't picked a mate and isn't ready and plus Connor hasn't met her yet. Connor is kinda feral and uncontrollable at times. Mac and Connor are always together. I dont know if they swing that way but Mac takes care of him so he stays in control. Things have happened with Connor similar to Ashley. So, this part is Connor and Mac with Ashley. Connor handles it great and it helps him immensely.

Makes Ashley happy to help him. We find Mac really likes to tease...lol. Mac and Connor always have women together so this made sense. I think on some level they ALL want her as a mate, but her wolf still hasn't chosen then there is the matter of Lucas. He hasn't so much as touched her except the first day when he held her.

Love the ménage in this one but I miss Blake. I'm a romantic at heart. I want her first one to be her only one.

---

### **Kathy Harrington says**

Blake was sent out to bring her stuff back leaving her with Connor and Mac. And...hot DP sex was to follow. Holy butt plugs batman, can that get any better?

### **Patti Ashley says**

#### **Short**

Just getting to see where this is headed. Blake is the new front runner. A man who gets me books is king.

---

### **Daria says**

Lucas is the alpha of the pack for a reason, to protect, to teach, to help and to guide... he knew what he was doing when told Blake he and Jud were going back to Ashleys home to clean it up and bring whatever she wanted back. Blake was around Ashley all the time, he acted as if she was his. But Lucas knew that Ashley need to pick her mate, not be influenced by what or who is always around her. In the back of Blakes mind he knew that as well, sharing Ashley with the others was fine, having her mated to one of the others just the thought was tapping Blakes sanity levels.

Oh.. you will need to read this series in order, and now Im stuck without book 5... cries .... Enjoy the series its fun and hot.
