The Accent: Exploring the Path to a Rejuvenating Life Binu Edathumparambil

"

Life is beautiful and yet immensely hard. As individuals and communities, we are amazed at what we have accomplished, and we surge on with an indomitable spirit. However, we experience enormous difficulties in our personal and communal living. We long for a happy and fulfilling life, but more often than not, we fall far short of that ideal. Our personal development and interpersonal relationships are often far from what is satisfactory.

The Accent provides an interesting look into our functioning as human beings and suggests ways to overcome our difficulties and live fuller and happier lives. Tying together psychology and spirituality in an informative and engaging manner, Edathumparambil takes us through the different contours and corners of our lives and tells us some hard truths.

The Accent invites us to look at our life from a new perspective. Without jargons or triviality, Edathumparambil presents eloquent reflections on some of the most important dynamics in our journey of life.

Lorna McCluskey says

This book is very interesting.

Some sections are obvious and annoying with being repetitive. Other sections are not so obvious and you think, "I hadn't thought of it that way before. Why didn't I see it that way before?"

The most interesting section was the final section.

Not a "How to" book, but an interesting way of looking at reconciling differences (accents) between individual and societal DTS (Drive to Survive) and DTT (Drive To Thrive) using science and religion. I'll be keeping this book, which I received for free from Goodreads Giveaways, for future reference.

LINDA says

Intense. Sincere. A spiritual challenge.

Ricki says

A very in depth look at the reasons behind personal conflict, including biblical examples that stay away from being preachy.
