This book surprised me I enjoyed it way more than I expected to.

Why would I be reading a book I didn't expect to like?

It's not exactly that I didn't expect to like it I just figured it would be a typical 3\* read. Absolutely nothing wrong with that most of the books I read fall into this category but this was more or at least it was for me.

Emmy Reed is an American art-history graduate in London and she's trying for the impossible an interview with the reclusive artist J.J. Harrison.

Emmy has some hang ups about alpha males and rich entitled playboys so when she catches sight of the gorgeous and obviously incredibly rich Jase Beckett on the underground she looks because she can but knows it's not going anywhere.

But circumstances put them together and Jase suggests a deal. Emmy accompanies Jase to a family wedding and Emmy gets her meeting with J.J. Harrison who happens to be Jase's grandfather.

Emmy is natural and refreshing and nothing like the women Jase is used to and the more time he spends with her the more intrigued and attracted he becomes.

Jase is so much more than Emmy expected and she realises she was way off base with her assumptions.

As the weekend progresses the attraction and sexual chemistry intensifies leaving us to wonder what will happen when the weekend is over?

Emmy and Jase are both fabulous characters, I really enjoyed this and I can't wait for the next part.

Now there's nothing new here, it's like so many books before it (reminded me of Bared to You in places) but I liked it, held my attention from the first page to the last and that's what I want from a book

I'm not a fan of cliffhangers and I don't like it when what is essentially one book is broken down and released in parts. Yet I couldn't stay away from this something about the blurb appealed to me enough for me to want to read it and I'm so glad I did plus there's only a week between books which isn't too bad.

The Weekend - 17th October  
The Chase - 24th October  
The Confession - 31st October

I voluntarily read a review copy kindly provided by NetGalley and Headline Eternal.

Ms. Bird is a skilful romance writer than can make sweet work well with hot sex and intense emotions. This is a story of two strangers who has more than an attraction connecting them to each other. This connection is what the hero, Jase Beckett used to entice the heroine, Emmy to spend the weekend with him at his cousin's wedding in his family home. At the wedding, Emmy realised that Jase is the odd one out in his family who are basically awful and toxic people. In short, Jase is a good guy raised in a rich, unloving environment. I enjoyed this first instalment very much and I cannot wait for Part 2.

This is the first part of a three part series, and even though it's a quick read it's a very enjoyable read.

Emmy Reed is an American art-history graduate in London looking for an interview with J.J.Harrison an reclusive artist. When she is attacked on the London Underground the last person she expects to come to her rescue is a stranger called Jase, who not only is very hot he also happens to be the grandson of J.J Harrison is this Fate !

Jase a alpha male who has had his fair share of women but none have had the effect Emmy has had on him, so when he needs a partner for the weekend to attend a family wedding he uses his grandfathers name and a promise of a tour of the artwork to get her to agree to be his fake girlfriend.

Jase's family ate nothing like Emmy's and she finds herself wanting to protect and rescue him when things get tough but sometimes you just have to walk away.....

I will be honest and say I'm not normally a fan of cliffhangers but I understand book 2 The Chase will be released on Oct 24 so not long to wait. I really liked the characters and the chemistry was sizzling and I do believe this will become into an amazing love story, if book one is anything to go by.

Looking forward to reading The Chase.

I really love these characters but I wish there could be more about them outside of their romance. I know...I know...this is a romance, but these characters have the potential to be so much more. This is the first of three stories, so I guess we'll see where it goes from here.

Don't be deceived by the title of this book, the characters are in London for a hot second and it doesn't feel much like London. I guess it's fair to say that's the other thing that I wanted more of is a sense of place both in London and the countryside.

All of that grumbling aside, I like both of these characters and I really like them together. I give it 2 1/2 stars out of five.

I received this book as an advanced reader copy in return for an honest review.

I was nervous going in to this. I've read a lot of books like this - hot, sexy, alpha millionaire and the down to earth girl who tries to stay away but in the end inevitably gives in, and not all Authors can get it right, but Rhiannon Byrd has done just that!

Loved every minute of it, which is why I'm keeping this review short so I can devour book 2!

The first part of a three part series. This is a quick read and a great start to what I believe will become a beautiful love story.

Emmy Reed is an American art-history graduate, she visits London in the hopes of getting an interview with reclusive artist J.J. Harrison but after a surprise altercation with some would-be thieves she finds herself in the office of the Mr Dreamy she had been eyeing off on the train with a nasty knock on her head.

Jase Beckett has an offer Emmy can't refuse, the opportunity to see Harrison's private art collection, only catch is Emmy has to pretend she is Jase's girlfriend at a family Wedding at the weekend.

Thanks to Netgalley and Hachette Australia for the opportunity to read and give an honest review and look forward to reading part 2 - The Chase.

3.5 Stars.

This book sounded right up my street so I couldn't wait to get started. Although it didn't quite grip me in the way that I'd hoped, it was still a good read and I was left wanting more. I can't wait for book two to see what happens next for Emmy and Jase.

The premise of this story is one that I've read hundreds of times, but it's one that can never grow old with me. Rich, alpha and stunning hero with a down to earth heroine that is easy to relate to. I will always want to read these kind of romance novels so in the story department it did not let me down. Jase was the hot single guy with a bit of a mysterious past and crappy family issues that I was curious of. Emmy was a sweet and sassy girl who gave Jase a bit more of a fight than what he was used to, which of course made Emmy even more attractive.

This quick read continued with a steamy romance between Jase and Emmy that I enjoyed and left me with a bit of a cliffhanger ending. I'm looking forward to seeing what happens next and also getting a bit more into Jase's past. I'm pretty certain there is a lot more to discover about him and his family.

3.5

Steamy and deliciously short and smutty tale of a rich alpha male and an ordinary gal who catches his eye.

It was a little slow at the start, there wasn't as much anticipation as I'd like before they're lusting all over one another, but once we got to the smut we were on solid ground.

Ends on a cliffie, second part of three out 24 Oct then part three 31 Oct so not too long to wait.

2.5/3 stars - Review Taken from The Pewter Wolf

Emmy Reed, an American art history graduate, can't stop staring at a hot guy on the London Underground. And when he saves her from a dangerous situation at her stop, she's grateful. Until she discovers he's a millionaire playboy - the type of boy who breaks hearts without a moment's second thought. So when he asks her to be his plus one at an upcoming wedding that weekend, she's determined to turn it down... until he offers her a deal. If she comes, he will try and arrange a meeting with a sought-after artist - who happens to be his grandfather.

As the weekend goes on, Emmy starts to see the man who's her "boyfriend" - Jase - isn't the man she thought he was and with the chemistry between them, they won't want the weekend to end. But the weekend will end... but what does that mean for them?

This is the first of a three novella series - London Affair. Both the second - The Chase - and the third - The Confession - follow in weekly instalments (at the time most of you are reading this, all three should be out).

This was fun. I read this on holiday and it was a light, fun, easy read. I read in short, quick moments and was finished before the holiday was over (though I know if I had more time, would have read it sooner).

But, this isn't anything new, though. At times, it felt very trope - with hints of Twilight and 50 Shades of Grey. Plus, there were times I was reading going "You have got to be kidding me". There were events that happened that I wanted to read but we changed character POV so we heard it secondhand plus the main male leads family - I find it impossible to believe that everyone he is related to is THAT unlikeable.

Now, it was fun, light, sexy read, and if I was offered to read the rest of the series, I would happily do so, as curious to see where this story goes. But am not sure if romance/erotica are the genres for me...
