## Transnational Law and Practice Childress

This unique new casebook emphasizes the knowledge and skills that students need to solve the real-world transnational legal problems they are likely to encounter as lawyers in today's globalized world regardless of their field of practice and regardless of whether they are interested in international law as such. The casebook covers public international law and international courts; but unlike traditional international law casebooks, it urges students not to be international law-centric or international court-centric and gives them the resources to learn how to use national law and national courts, and private norms and alternative dispute resolution methods, to solve transnational legal problems on behalf of their clients.
