**Will They, Won't They?** V.C. Archerly

Book # 2 in the Summerhouse Series

When Kian walked into that summerhouse, and consequently, into Amiira's life, the immediate pull towards him threw her off kilter. Their instant connection was the last thing she had expected and she knows she isn't in the correct place emotionally to pursue anything with her gorgeous housemate.

Wounds that her ex left her with are still fresh and weekend getaways had been planned as a method of solace. But will the newfound chemistry between her and the enthralling man whom she shares a house with be too much to ignore? Will the drama that her ex brought into their relationship haunt her? Will the residual feelings that still linger blind her? Or will the newness of Kian serve as a worthwhile distraction?

This is the continuation of "An Involuntary Spark" which follows Amiira Barnes on her whirlwind of a summer and everything that it entails.

## **From Reader Review Will They, Won't They? for online ebook**

### **Bennita says**

This book picks up right where the first left off. Amiira is faced with an inevitable confrontation with her cheating ex's wife all the while dealing with her mixed emotions for Kian. She would like nothing more than to fall into his arms, but her past relationship brings too much drama to the table and she's not sure she's ready for anything Kian is ready to dish out.

Kian showed a slightly more aggressive side in this installment and I liked it. God knows he needed to be more aggressive because Amiira was way too sensible. I would have stripped that poor man down within 30 seconds of their kiss, but Amiira had amazing willpower. Kian forced her to admit her attraction, but every time I thought she was going to act on it, she pulled back. I wanted to shake her, yet praise her for keeping a level head.

I enjoyed the slow buildup of their relationship. I liked the fact that they really got to know each other, but I would have liked to see more happen between them because there was a lot of teasing, but no true pursuit of a commitment.

### **Lindsey Michelle says**

I can't wait to see if they did it or not! This is such a refreshing series, I enjoy that the books are so short. I look forward to saving myself an hour to read this book in it's entirety.

I'm enjoying Amiira and Kian's chemistry. I wish she would just get over Eli already and just jump Kian's bones!

---

### **Mkittysamom says**

It was basically Amirra and Kian fighting their attraction to each other until they gave in.. But I don't think they "did" it.

I'd rather do it rather than read about it, I am not a big erotic romance fan. So this didn't do much for me as a reader.

I was given a copy by the author and all opinions are my own.
