## **Building Competence in School Consultation: A Developmental Approach** Sylvia Rosenfield

School psychologists consistently indicate that consultation is a crucial component of their duties but that they lack sufficient opportunities to develop their corresponding knowledge, skills, and confidence during graduate training. *Building Competence in School Consultation* directly addresses the need for practical, comprehensive consultation training, including support materials, for school psychologists, counselors, and other professionals working in schools. Drawing from evidence-based approaches as well as experienced instructors' real-world toolkits, these essential perspectives and activities approach the standard and less common challenges of the school consultant role. Written by two leading experts in consultation, this book brings school psychology research directly to graduate students and both novice and experienced practitioners, providing invaluable context, reflection activities, videos from fellow consultation experts, and resources that translate academic findings into skills ready for immediate use.
