## Dark Angel's Obsession I.T. Lucas

**Just keeps getting better and better!!!** This is the 14th book in the series, and every time I finish the newest book I think that the next book to come out can't possibly be any better than the one I just read, and then the new book comes out and it is even better! I have absolutely no idea how IT Lucas does it, it's just amazing. I can't wait for the next book to come out to see how Calypso and Brundar's story progresses, or what happens with Roni, and Jackson and Tessa, and William, etc. It's so good that it could seriously be a tv series! Bring on book 15!!!!

**Mind blown!** I have read all 15 books in this series. In a week! I am obsessed. Out of the the characters Braundar was the one that I was itching to know about! So mysterious! This is by far my favorite in the series! I can't wait to see how his love with Callie progress. She better be a Dormant!! He deserves happiness! Please don't stop writing IT Lucas you are amazing! My favorite writer of all time. I love see the events happen through each characters perspective what they are thinking and feeling. I am addicted. It will make for a great TV series but I don't they can express the emotion that are in the pages to the screen.

**Exceptional masterpiece** Incredible writing, I have not put down the book since I downloaded. Read it in one day.

You make the reader feel like you are there experiencing the emotions of the characters.

I can not get enough, wish you could write the stories faster, I know I am being selfish but you do bring it out of me.

#### **Finally Brundar gets some love!!**

This was a great story of Brundar and Cally. Unfortunately she is human but Brundar just cannot stay away from her. She is in a marriage that is volatile and getting worse by the day so when Brundar steps in and offers to help her escape she lets him help her.

Also in this book we get to find out why Brundar is the way he is. Where the "coldness" in him stems from. I.T. Lucas really does a phenomenal job with Brundar's character development in this one making him come alive for the reader and making you feel for him. Caring about what he had been through, making more real.

I've read a lot of other series and this one is definitely on a realm of being the cream of the crop. The only explanation for that is for how talented I.T.Lucas is. I would absolutely recommend this book and it's series. Mr. Lucas thanks so much for sharing your talent. I really enjoyed this one!! ~ A Faithful Reader

#### **Another winner**

I want to say that this series is awesome and I love that I still see the other characters even when getting to know the new ones. Poor Brundar. That scene just killed me to go through but it explains a lot. I can't wait to see him finally process what he went through.

### **Dmcl says**

By far, this is THE. BEST. VAMPIRE. SERIES. EVER. The enigmatic Brundar's story is finally told. Wounded and betrayed at a young age, he has walled himself off from all feeling and entanglements. It is only when he meets the equally wounded Callie that he finds these walls lowering, whether he wants them to or not. And like the mythological Calypso, she calls to him the way no other woman ever has. Will he allow himself the happiness he has always richly deserved, or will he continue his isolated life and wind up breaking two hearts?

I am behind on this series, but that is not necessarily a bad thing because now I can read the entire trilogy without having to wait. Kudos, I.T. Lucas, for writing another masterpiece in this epic saga. Each one is better than the last.

#### **A bit slow**

This book was slower than the others and just didn't hold me in the same way. That doesn't mean that it wasn't good. To the contrary it is far above similar books in this genre. Brundar is a complex character and it's good to see the ice melting. Caller must be a Dormant for him to react to her this way but the only indication is that her mother either died of disappeared when she was a baby and left her father grieving for years. This seems to be a standard for immortal women who are alone in the world. I like forward to the next book but I hope it has more action.

#### **Oh my!!**

Brundar, sweet, stoic, beautiful Brundar made me cry. Callie is strong and exactly what he needs in his life. I never thought that his story was so horrible and he is a real survivor. Tessa story has nothing on his. He is far worst. You have to read to understand what I'm talking about. Don't missed because you will regret it.

#### **One star knocked off**

Not particularly loving Brundar and Callies story. Just too hard work. I have no affection for him (or her come to that). However as it is interspersed with the continuation of the other characters so I'll plough on

### **Dark Angels Obsession (The Children Of The Gods Book14)**

I loved Brundar and Calypso's story so far, he is so closed off from everyone. Brundar cannot even bare to let someone shake his hand but Calypso's getting under his skin and he cannot stop touching her. I love that as much as he is fighting it, he wants to keep her. This Was A really good one!

### **Love it!**

I've enjoyed every book in The Children of the Gods series. Dark Angel's Obsession is no exception!

I T Lucas is one of my favorite paranormal authors! I equate her series with that of The Black Dagger Brotherhood.

Keep then coming...please!

### **Hanging In but Interest is Fading**

Even though there are parts of this story of the Immortals that I would like to see how the conclusions end, unfortunately I'm starting to feel that other parts of what the author is writing about, I couldn't care less. At some point, most of us will lose interest and seek other tales to read. I'm still rating this pretty good, but I can't promise how much longer I'll be into the Immortals!

## **Candice says**

I'm glad that the author is focusing on Brundar's story. He is the most mysterious Guardian and the darkest. His obsession with Callie is the driving force for this installment. There's light BDSM however there are some scenes that may be disturbing for some readers. This series just gets better.

Review of:

Dark Angel's Obsession #14

Dark Angel's Seduction #15

Dark Angel's Surrender #16

I.T. Lucas' Children of the God's Series

Series catchup:

From the beginning of time there have been near immortal beings who have molded humanity, been the object of worship but who as a race almost destroyed each other and human civilization.

Now only two Gods are left both sworn enemies:

The followers of Morta, the Doomers and the descendants of the Goddess Annani.

The Dark Angel's trilogy is the story of the Guardian Burndar and a human, Calypso. Brundar is not a stranger to readers but he is an enigma and his tragic past, aversion to being touched and need for kinky sex is finally revealed. Calypso (Callie) however is an open book and her openness and adventurous side is just what the dark brooding Brundar needs, even though he'd never admit it.

This series continues to wow me at every turn and Lucas keeps it fresh by adding new twists, new possible dormants both obvious and some readers don't see coming. Her imaginative narrative, inventive continuing world building, fantastic side stories and scenes that are unbelievably believable propel the story. And of course there are her larger than life characters that rule every page.

This series is one that you must read in order.

#### **SUMMARY:**

Ever since the chance meeting when Callie and her husband Shawn tried to get into the sex club he co-owns, Brundar's been obsessed with her and had a bad feeling about her husband. So he takes it upon himself to be her stealthy stalker protector. He can't understand his fixation with this human woman, he only knows he'll move heaven and earth to make sure she's safe even if that means getting to know her personally and breaking a few of his, not getting involved, rules to do it.

Callie knows she made a mistake marrying Shawn, knows she needs to get out of this marriage because even though he's never touched her she senses a darkness in him and she knows he'll never let her go without a fight. She knows she needs help getting away and there just happens to be a tall dark and brooding, sex on a stick guy who may be able to help her.

Meanwhile back at the keep there's a lot going on, the clan is trying to discover who is committing terrible murders, they need to learn if it's a human pretending to be a vampire, or if it's an immortal gone mad. The construction of the clan's new village is under way and members are busy picking homes. Plus the continuing drama of Roni and Sylvia and Tessa and Jackson are unfolding at warp speed

#### **Can't Wait!**

I really enjoyed the particular book of the series. Reading about the mysterious Brundar meeting and rescue of Callie, I was not sure it could live up to other couples in the books of this past series. I became so enthralled in their story, before I knew it I was at the end of this book. I can't wait to read on further to see what happens next with this couple in this somewhat insecure relationship.

The anticipation about what's to become of all the great characters within this, Children of The Gods Paranormal series keeps my expectation up, wanting for more.

**Who knew Brundar was such a pussycat?**

I enjoyed finding out about Brundar in this book and Calypso is a great new character, but something about this book isn't gelling with me. Maybe the next will help fill in what is missing here. Roni is a pain in the proverbial, but I kinda feel sorry for him as everyone just uses him for his big brain. Roll on book 15.
