## **Descent Into Darkness H.A. Kotys**

Monotony in a town full of bitter memories can lead to a roll of the dice, taking a risk. Chance chooses Kat and she does just that, she had to or be left forever wondering, 'what if?'

High hopes and the twin horses of pride and vanity gallop her headlong into something completely unexpected and shocking, plunging her into a world of money and power, subjugation and punishment, pain and depravity.

Can the benevolence she discovers help her? The only thing she can be certain of is that her life would be changed forever.

Themes - F/F, M/F, Dark, Abduction, Enslavement, Revenge, Domination, Forced Submission, Latex.

# From Reader Review Descent Into Darkness for online ebook

## Karbear says

A page turner. This book kept me on the edge of my seat. Wickedly sadistic. Decadently dark. A book worth reading, if you dare. Excited to see the next works by Kotys.

---

## Rebecca says

wow..... if you're a sensitive person maybe this book isn't for you. it has some graphic and intense scenes!

this is my simple review;

it has all that a good novel promises. a gripping intense start. a deeper view into all the characters so the reader can empathise how each has become who they are now (in the story) as a middle. and it builds up to a frenzied explosive ending.

The first few chapters i got lost in the book, 'jumped into its pages, i could easily imagine myself as the character or it happening/happened to someone in 'real life' but as the story progressed i was shoved back out, in to the reality that it is fiction, which it is. but still an amazing read

i look forward to the next novels :)

---

## lil' princess says

Review to come. Well Done H.A. Kotys

---

## Toni Gray says

I can't put this book down. It's well written, exciting and racy. In my opinion it blows 50 Shades Of Grey out the water! already looking forward to the next one! highly recommend.

---

## Tanager Leigh says

This started out as a situational bondage sex fantasy. By that, I mean that it could have been lifted from one of the amateur BDSM erotica sites. There was very little character development at first. Everything was

driven by the extreme bondage being applied to a lightly sketched victim. Granted, the writing and storyline is likely better than most of the amateur erotica. I actually enjoyed this part of the novel most.

After our protagonist, Katarina, had been adequately abducted, the author(s?) began to deliver backgrounds on the various characters. This was done in a very expository / info-dump kind of way which I really did not care much for. I feel it stripped any mystique from the characters. The facts were definitely "Tell, don't show" which seems a little backwards. Also, the depths of the info-dumps caused me to have a bit of compassion for the broken bad people in the story. Harsh realities drained the eroticism from the story. All the characters seem to have gravitated towards BDSM lifestyles due to traumatic events in their lives. No one seemed to just be there because that-is-who-they-are.

After the info-dump portion of the novel, the story shifts genres from being a dark bondage erotica fantasy to the sad tale of a sadism spree in lawless-land. Certainly, the peril mounts, but the suspense feels a bit contrived. Finally, the denouement, I felt lasted too long and was disappointing in nature (which is likely the opposite of the intended result).

I feel like there was an enjoyable story wrapped in here somewhere. It was OK. However I do not feel compelled to move on to book two. I have just received Amazon's free month of Kindle Unlimited, so I will not complain about having the opportunity of reading this book for free. This book contains Ff, extreme bondage, sadism, torture, slave training, harsh destinies...

---

### **Cathy Collinson says**

Following the journey of a young woman as her life unwittingly spirals into horror is not for the squeamish. The fast-paced story line is gritty, intense and at times, quite graphic. The characters are diverse and authentic and I found myself having compassion for even the most sinister characters in the story, almost against my will. With exciting twists and turns and fast-paced action, this seductive thriller pulled me in from the first page. I am definitely looking forward to the next in the series

---

### **Scott Roberts says**

To find this book go to <http://www.amazon.com.au/Descent-Into...> and it has an interesting story plot.

---

### **H.A. Kotys says**

As the author, I think it's rather good but then I may be biased ;)

---

### **lynn♥?lynn says**

I don't really know how to rate this book. It's is a dark read about a young aspiring woman who is taken whilst on a photo shoot. She believes she's the next infamous model and is duped into doing more riske shoots. Her taking is very intriguing and kept me captivated. I loved this book till half way, then I found the

book stalled for me. This poor captive is subjected to cruel practises in an attempt to make her the perfect slave. Her male master is only heard of occasionally, but she is mistreated by a psychopathic Domme (Raven), who to be frank just wants to take on the world.

Other females are involved in the training of the captive..Katerina , and a young easily impressed girl..Red is in total awe of Raven and also wants to become like her, helping to manipulate the captive. Other Females Amber and another realise that it is so wrong to force someone into slavery if this is not what they want, and they seek to help the captive.

There is retribution, there is death and a lot of FF...I don't normally read FF, and this for me was too heavy in this regard, but that did not make it a bad book, and I would read more from this author.

It is a very well written book, but at times had too many descriptives which I found confusing.I did over all enjoy this read, and look forward to see what happens in the series, but I would have liked more passion and sex.

If I could rate halves, I would rate it more toward 4 rather than 3, but for me it wasn't quite there.

---

### **Kim BookJunkie says**

Books with a synopsis like this one typically get 5 stars for me and end up on my, "favorite" shelf. Unfortunately, that was not the case with this complex story. I had a difficult time getting through this book, meeting to take breaks to read other stores in between and almost not finishing it several times. It has amazing potential with a creative story line and characters experiencing very unique situations. However, there was something about the writing style that threw me off and prevented me from engaging in the story. Unlike the majority of the books I have read, I could not mentally picture much of what I read. I wish I could pinpoint exactly what it was about the writing style that was problematic for me but I just can't. I can honestly say that I wanted to like this book and did read it all. Basically, this book was not horrible, yet it wasn't as good as the synopsis made it sound.

---

### **Donna says**

So this was a very intense, very dark and very sadistic thriller. Definitely not for everyone. I was anxious and held my breath for most of the book. This was erotica unlike anything I've ever read. There was so much more to this story than you're typical BDSM scenes and not a whole lot of romance. Going into it, I half expected this to be "smut" ...it was far from it. Very well written and will absolutely be reading next book in series.

---

### **Amber Maye says**

This book is an amazing read, really does get your mind racing with images through the description and words used through out. Found myself holding my breath many times through out so caught up in the whole scene, exciting story thrilling plot and characters can not wait to catch up with them end of this month...brilliant

---

## Dee says

This is a very intense book, sometimes you feel yourself holding your breath. I was just thinking when is the Katerina going to be able to have a hot bath and a glass of champagne! It was relentless. Personally for me it was too dark and not enough romance which is why it got 4 and not 5 stars, however I don't think that is the intention of this book. It challenges perceptions and allows an insight into a dark world which tests each of the characters limits.

Chapter 3 is the defining chapter of this book, Reading through the dark bits was worth it in the end because the last few chapters really show a lot of skill. Loved the action and thrill in these chapters.

---

## 'Q' aka CoCo says

[ a girl abducted and put through the wringer, beat down and passed off to a Domme to be trained for her Master. (hide spoiler)]

---

## Flow says

I must say that I LOVED the beginning of the book. I've never read anything about latex suits before, this was highly interesting (any more recommendations?).

It was when I got to 50% of the book, that I realised there was hardly no talking. No one spoke. It was the way the book was written, that you were inside the characters heads. Some speaking was there, of course, but majority of it, no. This is why I struggled with the reading the rest.

But the ending, Ohh I loved it! Revenge is sweet sometimes!! haha

The POV in the book did switch to many characters.
