## **Every Part of You: Tempts Me** Megan Hart

She likes to watch. He likes to keep hidden. Total opposites on a collision course to a relationship neither can deny.

Simone Kahan's been watching Elliott Anderson through her office window for months. He likes to bring women back to his office for late-night trysts, and Simone enjoys her voyeurism until one night, Elliott appears to go too far with his date. The other woman might not be into spanking, but Simone is, and when she meets Elliott in the elevator later that night, she makes sure he's intrigued enough by her to ask her to go with him to the party he no longer has a date for.

Thrown together by circumstances he'd never have imagined, Elliott isn't sure what to think about Simone. She's nothing like the women he normally dates, but something about her draws him in until he can't stop himself from wanting her...until their goodnight kiss becomes something harder. Harsher. Simone responds to his rough hands as no woman ever has, and Elliott's not ready to pursue what he's always told himself is wrong.

## From Reader Review Every Part of You: Tempts Me for online ebook

### Crazy for Books (Stephanie) says

SEXY ARC provided through NetGalley for an honest review 3 - 3.5 PINCH ME STARSSimone Cooper has been watching Lawyer, Elliot Anderson through their office windows for quite a while. She knows she's not his type, but when a chance meeting in the elevator presents itself, Simone takes the opportunity to turn Elliot's world on its ear. He doesn't usually go for women who look like Simone, but looks can be deceiving. She's not what he expects and he just can't get her out of his mind.I liked the build up. Thought it was hot. (view spoiler) But, being a novella, there's so much more I want to know about these characters and especially why Elliot is denying what and who it is.Diving into the next installment!

---

### Regina says

This is short but very enticing. The main character Simone is likable and Megan Hart's writing is really good in this short story. It is sexy and really, the story is a tease. I want the next one right now.

Megan Hart writes about sex with well developed characters in real situation. She even used one of my most disliked stereotypes - the sexy, rich and powerful lawyer (I promise you he doesn't exist as written in most romances) - and I still enjoyed it.

Love what she is doing with this series and I want more.

---

### Geri Reads says

I quite liked this one. Simone is crazy fun and she knows what she wants and goes after it. She wants Elliot except that he doesn't like to be caught just yet, especially by Simone. She confuses him a little bit, plus she's not his type, or is she?

Really enjoyable. I liked the banter between the two characters. This is a first part of a serial though, so we might have to wait a little bit more to get an HEA. :)

*ARC provided the publisher in exchange for an honest review.*

---

### AH says

A nice little sexy read about a woman who has been watching the lawyer in her building get it on in his office with various girls. Simone gets turned on watching Elliot and when they meet in the elevator, she accompanies him to a party....

Simone is quite likable - she knows what she wants (even though she takes a while to get it). Elliot is a little

OCD and very set in his ways.

This is part 1 of 5 very short books (about 40 pages). It's a quick and enjoyable read. Personally, I would love to see this as a full novel rather than a serial.

On to the next one...

---

### **Stacia (the 2010 club) says**

Let's consider *Tempts Me* a few short chapters in a larger story. Installment writing seems to be a growing trend as of lately. In most instances, I'd rather not get my story in bits and pieces. This time, I decided to give it a go, since I'd thought this might be a safe way to try Megan Hart again and see if I might have been too iffy about her in the past.

So far, so good? Yes, that's a question mark. It's really hard to know what to think, when not a whole lot has happened yet. Basically, this chick has been watching this guy hook up with other people. The guy hasn't had the best luck with his hookups because he wants to possibly get a little more frisky than the women are going to let him (BDSM leanings). The chick who's been watching from the shadows (okay, from across the way in her office) ends up having a run-in with the guy and something is on the way to getting started.

I don't know how to really give feedback on that, other than to mention that I think where this is going could be interesting. It appears that the woman might be the one to get the man branching out with his sexual fantasies. I'll have to go ahead and check out part 2, since Hart managed to deliver on the "wouldn't you like to know more?" front.

*This short story provided from the publisher in exchange for an honest review.*

### **Exina says**

Simone has been watching Elliott Anderson through her office window for months. He likes to bring women back to his office for late-night trysts, and Simone enjoys her voyeurism until one night, Elliott appears to go too far with his date.

*Every Part of You Tempts Me* is the first part of the erotic serial novel, *Every Part of You*.

**Elliott** is brusque, reserved, allowing no one close to him.

*He was, as far as she was concerned, perfection. Just over six feet tall. Lean swimmer's body he liked to clothe in tailored suits — nothing ostentatious. Always classic. Professional. Subdued. Appropriate.*

*The man dressed like a master of industry and fucked like a jackhammer. Simone wanted him.*

**Simone** is open, outspoken, boldly witty, and perceptive.

*His terse attitude intrigued her more than it made her mad. She was having a helluva time figuring him out. She liked that.*

**They mutually find each other intriguing, and the sexual tension is palpable and delicious between them.**

It's all about physical attraction for now, but I didn't mind it at all, and I'm sure there will be much more between them.

*“More,” Simone whispered.*

*Elliott pulled away.*

*“What?” she asked.*

*“This is ... “*

*“Delicious,” Simone murmured. “Delightful.”*

*She curled his fingers, urging him again to pinch and squeeze her.*

*“More,” she said.*

*With a low, helpless groan, he bit again into the curve of her shoulder.*

*“More,” she said, and he wanted to give her more.*

**A promising and thrilling start of the story of Simone and Elliott.**

**Lady Heather says**

I really liked this short story.

I liked Simone's take charge, go-get-what-she-wants character, and I was intrigued with Elliott's rather 'anal' characteristics.

I'm looking forward to reading the next installment in this series, but it better not end with another cliff-hanger!

If it does, I won't be continuing with the third.

---

**? BookAddict ↗ La Crimson Femme says**

Simone seduces me at first glance because she is a voyeur. Watching a handsome man fucking women across his office's desk is a Peeping Tom's fantasy come true. When the sexually naughty participants are good looking, it's even more exciting. Seeing it kink up with a light spanking increase the allure.

Ms. Hart is one of my favourite authors. Her writing is polished and so easy to read. It's like gliding on silk, luxurious and erotic. This is the first serial of hers I've read. I'm hooked. Mostly it is because of the hint of kinky BDSM which I can't wait to read more.

Simone lusts after Elliot. Elliot is a bit of a stick in the mud with some "deviant" desires. He thinks women won't be able to accept it because he's been cavorting with the wrong ones and totally misreads their body language. Some people have radars for the kinky. Elliot is woefully without this handy intuition. Simone on the other hand seems to be someone who will lure a person into the lifestyle with a curl of her lip and slant of her eyes.

Ms. Hart does a good job of describing the environment and setting the characters up for the next part in the series. She's good at leaving a reader yearning for a bit more. This tantalizing tidbit whets my appetite to read all the installments for Every Part of You. Recommended for erotic readers who enjoy a bit of cat and mouse.

### **Michele says**

I am usually a huge Megan Hart fan, but this novella just didn't work for me. It can't compete with Hart's earlier works.

I was about to give this book three stars, but then this quote happened: "... a series of brutal yeast infections during college had taught her to hate pantyhose."

Good god. Hear that? It was a star going poof. I don't need to know about Simone's yeasties unless they are central to the story. I assure you, her scorching crotch problems have nothing to do with the plot in this novella.

I still love Megan Hart and will continue with this series and her other new releases. I think this is a rare misfire for Hart.

---

### **Laura says**

I am a huge Megan Hart fan, so her new series was an auto-buy for me.

From the comfort and security of her corner office, Simone has been secretly watching Elliot entertain women for months. Each woman resembles the other, and Simone is fascinated watching Elliot do wicked delicious things to them.

After an evening of entertaining goes south for Elliot, he meets Simone in the elevator by chance. Although Simone is not his typical type of woman, he cannot deny that there is something about her that he's attracted to and that makes him nervous. Simone ends up accompanying him to a party, and after taking her home for the evening, he discovers that Simone may be exactly the type of woman he's looking for.

Let's be honest; voyeurism can be hot. Watching other people have sex, especially when they don't know

you're watching is extremely sexy, and that sexiness set the tone for this story.

Simone has only the ability to see Elliot in action, not actually hear what he's saying, which has set up many a fantasy for her. The night Simone meets Elliot in the elevator, she sees him spank a woman and it sets her on fire. Simone secretly desires to be dominated, and not just be tied up. Simone likes pain, and it's very obvious early on that she wants Elliot to deliver that pain. Just like that John Cougar Mellencamp song, "Come on baby, make is hurt so good..."

Elliot controls his desires. He's frightened and pissed off many women with only showing them a hint of what he's capable of. When Simone responds to his desires willingly and wanting more, it scares him, but also leaves him craving more.

Even though this was a short read, maybe 45 pages, it packed a lot of information and grabbed my attention. It's obvious there are some issues that will come up and need to be worked out/resolved, but, Megan Hart does such a beautiful job of making her characters come to life as though they are real people. When I am reading one of her books, I feel the emotions the characters do, and I also like that her characters are not "perfect", they're perfectly flawed, which is one of the many reasons why she's an auto-buy for me.

The ending is abrupt; definitely leaving you wanting more. Good thing I only have to wait two weeks for #2. Four stars.

### **\*P\*u\*r\*p\*l\*e\* Masochist says**

This review is posted on Way Too Hot Books.

*"What it would be like, Simone wondered, to have him focus that look on her? To feel his hand on her wrist?*

*Gripping hard, maybe grinding the bones together, just a little?  
It would be delicious."*

It's Megan Hart again, baby! When I saw that she's writing a romance mixed with a little BDSM my hands were aching to get it, even though bdsm isn't on top of my list when reading, but as I said- it's Megan Hart whose books rarely, if ever disappoint me, and neither did this one, even if it didn't have the usual "tear you apart" Megan Hart formula.

*Every Part Of You* is a story divided into 5 parts, every each of them featuring not more than 30-50 pages long. The 1st part was only around 36 pages long, but nevertheless the story was **engaging, fun & sexy**. It focuses on a couple **Simone & Elliot** who meet at the beginning of the story after she's been spying on his late, "private shows" in his office for a long time from her own office window. Let's just say that she more than likes what she sees and decides that Elliot might finally be the one who would give it to her the way she craves it.

**Girl crush alert!** Simone was definitely the biggest reason why I liked this story, because she is one of those **fierce, independent, straight-forward & fun heroines** who know what they want and aren't afraid to take it. Elliot still remains a mystery in this part. He seems calm, a bit cold and controlling. He usually goes for women which are totally opposite from Simone, but there's a strong chemistry between them and the way she responds to him is something he can't deny no matter how hard he tries. Like every bad boy- he avoids dating and serious relationships, but Simone might be finally the one who will change it.

What can I say except- **very, very hot introduction** and they didn't even have sex in this part, imagine that! If you want a short, fun & way-too-hot read with no bigger drama- check this out. It will leave you wanting

for more, so better have all parts near!

*"She wanted him to kiss her, hard and bruising, bringing the taste of blood. And in that instant, something in the flash of his gaze told Simone that maybe, just maybe, Elliot wanted the same thing."*

### **Vishous says**

[how will their sex look like (hide spoiler)]

---

### **Dα?1jα says**

**I'm not exactly sure how to review just the beginning of a story - because this is just that: a beginning - but here goes nothing. This is an interesting beginning, I'll give you that, but, honestly, I'm not a fan of this new trend of breaking up books into several parts. And this one has five parts. Five, for crying out loud! I'm half tempted to wait for the whole book to come out next year.**

**My frustration aside, I'm a big fan of Megan Hart's books, and this could turn into a book I like. We'll see. Sooner or more likely later. What I've seen of the main characters does make me want to find out more about them. Simone, the little voyeur, seems quirky and very open. Elliott, the more somber one, seems troubled, and I want to know why. They sure do make an interesting couple.**

**Although I can't say it with absolute certainty, it appears to me that this will be a BDSM romance, but I'll just have to see for myself.**

---

### **Duchess Nicole says**

This is hard to rate or review...I've read some serial novels before but this one is very, very short, and it really has the feeling of just being left open in the middle of something. You don't really get to know the characters really well...barely a hint. Enough to titillate, I suppose. I'm interested in the next installment but it had better be really attention grabbing or I may not continue with the third installment.

Simone is a bit forward for my taste, but I get the sense that this isn't the norm for her. She's sort of at this precipice in life...and she's decided to buck up and go for what she wants. What she wants is some playtime with the buttoned up sex god that she's been spying on for weeks, each time he takes a new even more buttoned up blonde goddess to his office to screw on his desk. Voyeurism...hehe. How can that not be intriguing?

Elliot is a bit stuffy. He's fastidious to a fault, and if he looked at me with those facial expressions he keeps throwing Simone's way, I'd want to throttle him. I sure wouldn't go back for more! However, Simone is quite the glutton for punishment, and Elliot seems to be drawn to her somehow. The end to this part of the story seems promising!

On to the next one. Fingers crossed it grabs me like Megan Hart usually does!

---

## **Jay says**

***This copy kindly provided by NetGalley on behalf of the publishers***

I read all 5 parts of this series in the same day, so I'm reviewing the whole series as one thing, as I didn't pay too much attention to each individual book. I do know that I was extremely happy to have the next one to continue straight onto at the end of each part as they always tend to leave you hanging for more each time...

I really enjoyed this one! it was quick, a bit of fun, hot & sexy, and also quite refreshing from the almost standard hot, rich, BDSM Dominant, male lead character. Yes, Elliot was pretty much that guy, but he wasn't. Rich - yes, hot - yes, BDSM master - absolutely terrified of it & what his preferences in the bedroom make him as a man - a monster who beats women.

The BDSM goddess in this story is Simone. The straight-up, tell it like it is, not afraid to ask for what she wants, pleasure/pain seeker. She too, like Elliot, despises the BDSM lifestyle of doms & subs, masters & slaves. Yes, she's tried it, but her outspoken, take no bullshit personality does not make for a good submissive, but she can take anything dished out to her, especially if that involves a good spanking or even a caning.

These two are a match made in heaven. Able to truly fulfil their fantasies together, & feed their desires to their hearts content. That is, until Simone's openness & Elliott's fears come face to face in a way that very nearly destroys them both.

Simone will not chase after a man. She doesn't need to. But when Elliott runs, she's very tempted to hightail it after him.

Sometimes the best thing that ever happened to you will cost you the highest price. & sometimes the greatest risks reap the highest rewards. But are Elliot & Simone prepared to risk it all for the chance of a scorching hot spankily ever after?
