## **Everything I Need (Everything #2) A.C. Taylor**

Imauni Scott knows exactly what she wants...Jordan Miles. She's never been shy about her feelings for him, and she's always felt like he was the man she would spend the rest of her life with. But when things got rough, Jordan did the one thing she never expected. The man she thought had her back through anything, simply walked away from her like she meant nothing.

Jordan knows his decision to break things off with Imauni hurt her deeply, but he had his reasons—reasons that she struggles to understand. Still, it's a decision that he's determined to stand by. But, even after choosing to walk away, Jordan refuses to let go of her completely. Knowing all of Imauni's weaknesses, he uses them to his advantage. But when the tables turn, he finds himself regretting his past decisions.

What happens when Jordan is forced to face the consequences of his actions? Will he come to his senses and fight for the woman he truly loves? Or will he fold, and convince himself that it's not even worth the risk?

#### **Alright**

So... I am not sure how to exactly feel about this book. I do that Jordan was stubborn and maybe scared. But I don't care how Imauni did him. For someone in love she sure didn't acrlt like 2 days later with Adonis. So I didn't care too much for the characters or how it all went down. I think that they both should have moved on and maybe tried again later. But hey... I didn't write this story.

#### **Jordan! ??**

I loved this story. The fact that the situation wasn't perfect or ideal but they made it work. Jordan out here setting all kind of book bae goals. I love the subtle mentioning of Domestic Violence with Blake's storyline. Adonis has never extremely intrigued. As always, thank you for your dopeness AC!

#### **Enjoyed**

I enjoyed this installment in this series much better than the first one. The characters, even Melania who was in the first book, were written with more depth than before. I was able to feel the struggle between Imauni and Jordan to find the place where they are comfortable in their relationship.

## Everything To Lose

In the beginning I had so much faith in Dominic and Haze relationship. They had the one thing that 90% of relationship don't have today. They had a true friendship. As time went on, I begin to lose faith in what they had, I didn't think they would hold up. I begin to see Haze giving into so much for Dominic happiness. Now don't get me wrong, Dominic is that nihh! It's just... It seems like that could cause problems further down the line.

Jordan love Imauni with everything in him, he just didn't have the patience to compete against her lifestyle. Well... He basically refused to try and make it work.

Imauni, tired of Jordan excuses of why they couldn't be couple finally threw the towel in. If she couldn't have Jordan the way she deserved to have him, she rather not have him at all.

Jordan is no fool and when he saw another man putting a smile on Imauni's face, that was something he couldn't see himself living through. Deciding to go with his heart, Jordan went and got his lady.

The last thing in Melaina and Darien's mind was what people thought of them as a couple. Yeah Melaina's didn't give her the best bragging right, but her past didn't matter to Darien. Yet when a tragedy hit, Darien left Melaina to deal with it on her own. True he was also hurting, but his ways in trying to deal with it was selfish. Now he realizes the wrong he has done to Melaina and will do anything to get her back. He has one problem, no matter what he tries, Melaina can't seem to forgive him for the way he betrayed her.

I really love the simplicity in this author's work. I love the life - like characters and the real conversations between them. I love the light touch of humor. I love how her characters find love. This author just gained a new reader. I will definitely be following this author because I fell in love with her work.

## Charron says

There was just too much going on for me, a lot of drama with secondary characters. I thought the main characters were both immature. I found myself rooting for Adonis more than anyone because he was the most mature out of anyone but he just happened to be into Imauni. I started skimming the book after awhile just to see what would happen with Melaina, I wasn't into Jordan and Imauni as a couple at all. Of course the book ended right when Melaina and her ex saw each other and we do not know what happened, I'm guessing it'll be the next book. I'm also not a fan of established couples which is another reason why I probably didn't enjoy it.

### Love conquers all

Imauni and Jordan were giving me the blues with all their back and forth but one thing is for sure, they truly loved each other. I'm so glad they came to their senses before it was too late. Now we need a book on Darien and Melaina, who I wanted to hate but came around to understand in this book. We also need one on Blake.

Okay,okay, This was Fabs,!

I was ready for this story, and not ready at the same time. Jordan and his hardhead had me wanting to snap his neck. Adonis was just doing what a single man does. He goes after what he wants. Then Imauni's bad decisions had me in my feelings. I wanted them to stop playing.... Now I need Melaina and Darien to have some act-right.... 5 stars...

#### **Good Love Story??**

I Really enjoyed reading Jordan and Imauni's love story. Jordan didn't want to accept Imauni's dancing career to be in a relationship with her but still wanted the benefits of being in a relationship. Imauni got tired of that and ended everything and even moved out ceasing all communication. Jordan went ballistic when it seemed like Imauni was moving on with Adonis and manned up real quick. I love how Dominic and Haze was woven in the book as Dominic and Jordan being best friends and Melaina and Imauni being best friends. I knew eventually Darien, who is Dominic's brother, was going to come to Melaina because he actually has feelings for her regardless of his mom being against their relationship. I wonder who actually released their sex tape and lied about her having an abortion rather than having a miscarriage. I can't wait to see what happens next.

#### **Good Stuff**

This was an enjoyable read and we get to see a little bit more of the characters lives.I loved that you get to see into the insecurities that fall upon couples.The writer handles this with quite a bit of style.I love this Adonis character just totally sexy,I would love a story for him.Now the ending I wasn't so happy with ,it was like someone just hit the stop button.But overall this was just such a good story and a really good next installment in what I hope turns into a series.

#### **Nice Read....**

Definitely enjoyed book 2 of A. C. Taylor's, 'Everything' series. Imauni and Jordan's story had me on edge from beginning to end. Adonis totally surprised me, but not as much as Melaina. Wow ? if someone had told me before reading book two that I would see her in a different light, I would have laughed my behind off thinking they had lost their mind; the true talents of a gifted writer can do that though. Hopefully Darien and Melaina's story is next. I think I'm a Melaina advocate now, ?
