## **FU** Mia Watts

When a screw-up by the Fullerton University Housing Office leaves Parker Galloway shacked up with four sexy men, Parker thinks four just might be her lucky number... as long as she can get Kei Yamamoto to join in the fun.

But will taking advantage of FU's mistake end up getting all five roomies kicked off campus, or will it be the closest thing to heaven Parker has ever experienced?

## **FU** Details

## From Reader Review FU for online ebook

### **Lidia says**

So, this is only one book, hot stuff , but sure I don't lost my mind and my time on the behavior of Kei . I have enjoyed read ,so enjoy too because certainly this story is very cute and hot.

---

### **Viridiana Ivashkov says**

Solo puedo decir que es otro libro porno el montón, bastante insulto con páginas y páginas de sexo, tonterías y absurdos ataques de celos.

Comencé a leerlo porque su inicio es divertido y te engancha pero conforme vas avanzando te das cuenta de cuan ridículas son las situaciones por las que terminan haciendo una orgía. Simplemente no es lógico, Parker esta loca y es una zorra en toda la extensión de la palabra ¬¬ ninguna mujer con algo de moralidad haría eso...

Creo que ya me he cansado de estas novelas eróticas, parece ser que las autoras no saben describir mas que escenas burdas, actos de bondage y dejan de lado a sus personajes, la trama o el espacio. No hay coherencia. Definitivamente tienen que trabajar más sus historias sin meterles tanta escena de sexo que realmente después te aburres y te encuentras saltándote esos rellenos.

---

### **Karla says**

**#11** Un libro con una palabra en el titulo

---

### **Mariana López says**

No sé cómo terminé leyendo esto ????????????

---

### **Chris says**

I generally don't read multiple partner books because it just doesn't make sense to me how it could ever work. In this steamy tale, Parker is mistakenly assigned to a male dorm at Fullerton University (FU f's up) and things get... complicated while Housing tries to sort it out. Ultimately, things do get simple in the end (whew!). So, I confirmed for myself that, while it was a fun read (Mia always puts together a fun'n' steamy read), I'm still a prude when it comes to multiple partner books, especially in regards to the power dynamics. O\_o

---

### **Yara says**

So...

This woman has no respect for herself. I do understand the fact that some people enjoy to have sex with more than one person at a time, but seriously? Everyday?

This wasn't the book I expected it to be.

If this is the way University girls behave, I don't know what to think. God. I know I'm young and that, but *dude*.

I haven't finished it yet (surprise), but I don't think I might.

---

Well, I did finish.

The ending wasn't cute or anything. I swear, *kill it with fire*.

**Edit: 02/24/17.** I'm going over my few """"reviews"""" and I came across this. I laughed out loud.

This is one of those books that really puzzle me. I can't believe I missed the 'erotica' tag on this book hah. Totally my fault, but to be fair, I read this when I was just starting to download books. I still regret this--the cover should have been a clear indicator of what I was in for (IT'S ONE OF THOSE SUPERMARKET, REALLY CHEAP ONES!), the author's past works, and so many other things that should have given it a red flag that make me cringe.

Bury this and the record that I read it somewhere dark.

---

### **Heather in FL says**

Well this was a hot little surprise. I'm never sure when I get books from third parties whether they'll be good or not. I try these days to pay attention to the ratings by others, which is how I selected this one. While I thought Parker made the best of Housings's screw up, I'm not sure that the best way to win the guy you're going after is to screw around with ALL of your suite mates. I'm not sure how realistic it is after a near-rape to be OK with messing around with your suite mates just after. But I suppose she's a free spirit. All in all, it was a very hot romp. At the end, I have to agree with Harper that Kai's poetic speak, while nice, was taking up too much time, lol. All of the characters were developed enough to get a good feel for them. Dan cracked me up with his acceptance of his bi-sexuality... Jaxon was so sweet, but hot too... Henry's innocence was adorable (...can you blow my job?...)... and Kai was just Kai. I wanted to hate him when he was cold, but he was so hot when he was hot. But I love an HEA, and I was glad they both worked out their feelings with each other. No permanent menage... just a girl and a guy in love (and no longer sharing).

---

## **Miranda says**

Smokin' hot flirting and sexuality with amazingly adorable scenes.

...

Surprised me with beautiful phrasing, whether crass or sweet

...

A quick hot, sweet read - I finished it within a day!

---

## **Stella says**

My Thoughts: I think it goes without saying that it was the very hot and titillating premise which made me pick up this book. I mean one girl sharing a college room with 4 hot men - who wouldn't be interested in seeing where this story goes? And FU was everything I expected and much more!

Mia Watts' writing is captivating and fluent, her characterization is great: all four boys are completely different and they have very distinct personalities despite the short length of the novel. Dan is the blond, sexy jock; Jackson is the thoughtful, tender African-American; Henry is the blushing, dorky but very cute geek, and Kei is the dark and brooding yet irresistible Asian with whom Parker has to share her college room. Each one of the boys is different and cute in their own ways, and somehow the reader understands how Parker can consider sleeping with all of them.

Verdict: FU is not simply a very hot erotica (ménage) story as I expected, what surprised me was the heart-touching sweet romance woven in and the philosophical poetry (imparted through one of the characters). Unfortunately I cannot disclose more because then it will be a spoiler regarding the plot and ending of the story. Let me just say, that FU is more layered than a simply hot erotica novel.

I won this novella and though previously I haven't read anything by Mia Watts, after FU I will definitely check her out. You should too, Mia Watts' story is great for warming you on a cold, rainy afternoon. ;-)

[ where her intended squeeze saw her getting raped and confused it for her cheating (hide spoiler)]

---

### **Ale Rivero says**

¿Quién hubiera dicho que después del ménage puede venir una hermosa historia de amor entre solo dos personas? Yo quisiera tener la suerte, o mala suerte, de Parker con semejantes compañeros de cuarto. Más allá de toda la carga erótica que lleva encima la historia, los momentos de románticos de Kei y los momentos graciosos entre los muchachos son inolvidables. Muy recomendable.

---

### **Pansy says**

This has been languishing on my round-to-it shelf FOR. EVER. Finally got to it. The premise drew me in. What would you do if housing screwed up and housed you with a bunch of hot guys? Although a bit convoluted, it was a hot bed-time read. It was worth the read and may even make the worth-a-second-read list.

---

### **Mrs. Missive says**

I am wavering on this one as a whole. Let me put out there that I am not a sweet words and poetry kinda gal. You wanna get with me? Grab my hair and tell me what you want. And while there was some dominance shown here, it was intermixed with the really super sweet stuff.

Anyway, Parker is a girl who's gender neutral name gets her placed accidentally in a male dorm. And she gets placed in a dorm room with 4 smexy guys. She then gets to knockin' boots with her guys in every way shape and gravity defying contortion.

I have never been a gang bang kinda gal, but I have to say these scenes were really well done, and I did find myself connecting with and enjoying the characters.

There is some M/M contact, but nothing heavy, so some of the M/M lovers will probably be yelling "TEASE!" at their e-readers.

This is a quick story and we go from HFN with a 5way to a HEA with a duo. Not sure I bought everything I was being sold but hot damn I enjoyed the ride that got us there.

Heads up, there is some fairly graphic almost rape in here. However, I passed through it okay when it is usually a trigger for me. But...that may also be why this book didn't hit off the charts for me. There was good and bad here for me, but overall I would recommend for those who love hot multiple partner sex, and sweet words whispered in their ears. 3 stars.

---

### **Laura's Book Addiction says**

The best m-m-m-m-f story I have read I loved the plot and the characters were all amazing.

---

**Andrea Moreno says**

cuando lei d q trataba m parecio curioso... y al empezara leerlo algo gracioso... creo q tenia potencial pero no fue explotado adecuadamente ... entre mas lei mas superficiales m parecian los personajes y absurdas las situaciones

---
