**6 Captivating Stars - Hudson is NOT to be missed**

Let me start out by saying, Hudson Pierce. That's right ladies; one of the most fantabulously sexy, alphas men ever to grace our presence is back... Hold onto your panties...

SQUEEEEEEEEEEEEEEEEE, one of my all time favorite couples are back in this new novel by the glorious and fantabulous, Laurelin Paige. From the moment I began the journey into the Fixed series I have been captivated, stalking / fan girling over Laurelin Paige, so it goes without saying that when she told me, she was writing another book for the series, I was flailing and squealing like a 13 year old girl at a One Direction concert.

Beginning Hudson it became apparent pretty quickly that even though I have read and re-read the entire Fixed series many times, Alayna's and Hudson's story was not yet finished and I didn't actually know the whole story, in fact we had just scratched the surface. In writing Hudson, Laurelin Paige not only gives us more of what we have been begging her for, as crazy, overzealous fans, but also another full length novel told entirely from H's perspective. Perspective is key in Hudson, because it is truly and totally amazing what a difference it makes in an already unforgettable and beloved story. I was completely enthralled by how each person's point of view alters, how you see characters you have already fallen in love with, you now see them in an entirely new way. The way H sees Laynie, is beautiful, but it's his unwavering need to protect her is what made my heart both swell and ache. He has in truth, done some truly horrible things in his past, and he's been quite a DB in the past, but my love for H, is very much like Laynie's, it's unconditional. I adore them both, flawed, a little broken, and strong. So incredibly similar in many ways, they are both strong and stubborn, so much so that it's infuriating and perfection at the same time.

I loved reliving my favorite scenes from H's POV. I fell in love all over again. I'm still fanning myself and feeling warm from the super sexy scenes. The insight and back story that we are given into H's past, is fascinating and left me longing for more. Hudson's relationships and memories of his past involving Jack, Mirabelle, Sophia, and yes of course the Wicked Witch of the West, Celia are brought to light. Secrets and true motivations are revealed. I no longer need to agonize and analyse H's thoughts, intentions and motivations, because I was finally able to experience them, as I had experienced Laynie's in Fixed, Found and Forever, through his/her own eyes.

Laurelin did an incredible job with Hudson; she made it fresh and new. It's all kinds of sexy and steamy, perfectly paced, and flawlessly written, as always. How often do you see series being written from a different POV in effort to give the fans more, when they are begging for it? Lately, quite often actually, it's become a trend. Hudson is the best alternative perspective I've read, no question about it. With a perfect balance of emotion, romance, seduction, heartache, new insights, and more than enough drama to keep your interest peaked, it's fabulous. H is still the super sexy, alpha, with a magically delicious talent for dirty talking in and out of the bedroom. Charming and irresistible, he is a force to be reckoned with. Diehard fans of this series will undoubtedly beg, and plead for more, but if this should be the last installment in Laynie and H's love story, \*sniffle\* I can honestly say that, I was left with goose bumps, crying, overwhelmed and satisfied in the fact that Laynie and Hudson have finally been given their hard earned happily ever after...

#### **My Favorite Passage SWOOOOOOOOOOOOOON**

*“Alayna Withers changed everything for me. I can easily divide my life into two parts—before her and after. The person I was in that time long ago and the person I became when my eyes first found hers. Though that isn't entirely accurate. Before her I never really lived. So there is only after. I begin and end with her. It's as simple and as profound as that. Our worlds have entwined and wrapped around each other completely. They've shaped into something new and fixed and whole. There is no longer her story or mine, but now and always only ours.” – Hudson*

**Laurelin Paige you retain your Goddess status in my world and I more than adore your work. This is your next bestseller, no doubt in my mind, you are destined for stardom!  
Next goal, let's get Laynie and Hudson up on the big screen yeah?**

4.5 sweet closure stars

Hudson....Hudson...Hudson....! How can it be that such a damaged man can be so damn sexy! He is just so wrong and yet so perfectly right for Alayna! If you haven't read the Fixed Trilogy then please stop reading this review and go read them now! Hudson is the fourth book in the set and it simply will not make any sense if you haven't read the trilogy that preceded this book. Even I, who devoured the three books a little over a year ago, had to pull those books out just to begin to put all of the puzzle pieces together.

Hudson is a deeply damaged man. He is successful, attractive, business savvy, and can have anything he wants. The one thing he has never allowed himself to feel (or at least acknowledge that he is feeling) is love.

**"Love doesn't bear all. Love doesn't endure. Love ends. It always, always ends."-Hudson**

He has spent the greater part of his adult life "playing people"! He has an illness. Like a drug addict seeking his latest fix, Hudson would find "experiments" to play on people. He relished in watching humans overcome or more often he witnessed the damage his experiments caused when people were unable to overcome.

Hudson's partner in crime is his childhood friend Celia. Celia is cold, hard, and lethal. Although deep down she fosters a dysfunctional love for Hudson, she is willing to take him for what she can simply get. It is Celia that Hudson concocted one of the most hurtful experiments of all. This experiment resulted in Celia vowing a life long vendetta against Hudson. Hudson damaged Celia and the blowback will follow him years later.

Hudson is the back story of how he became the man that he is. We see flashbacks of his drunk mother, his loving sister Maribel, his aloof adulterer father, and we see the relationship of Hudson and Celia transform into something so ugly and cold. We also witness key points of his relationship with Laynie in his point of view. Oh how it warmed my heart to read how much he loved her for so long!

There were so many moments where I was clutching my side from laughter! Hudson is just so funny!

**"I wasn't happy to have been found. It surely meant there'd be talking. F\*\*k, how I hated that."- Hudson**

Other moments where I was moved to tears over the love Hudson was feeling. (Even if he didn't know what to do with those feelings).

**"I'll love her like this, without words, but with my life. I'll let her in as far as I can. I'll commit to her completely. Her world will be mine. And I'll do everything I can to protect her from being hurt."- Hudson**

I have to be completely honest and say the first part of this book was a little slow. Don't get me wrong. I wanted to understand Hudson but I really wanted more of him and Laynie. Once the book caught up to the key moments of their relationship, I snapped to attention and really reveled in the developments Hudson was making. Even though I knew everything was going to be alright, I still had so much anticipation for a HEA! However, the reason this book is such an amazing book for me is the ending. The trilogy ended with a wedding. As if it couldn't get any better, it does! I was crying tears of joy for Alayna and Hudson. If you are a fan of the Fixed Trilogy then you will love Hudson!

**"I love you, Hudson Pierce. Every part of you. Every flaw, every scar. Just like you love me."-Laynie**

**"I'm lost in her and found in her all at once. And as I am every time we touch, every time we speak, every time our eyes meet I'm made new."-Hudson**

## Sophia Triad says

Hudson' POV and it will not make much sense unless you have read the previous three books in the Fixed trilogy.

If you have read them, you already know that for the majority of the story Hudson was playing Alayna. And in the end he was very very very very very sorry about it.

*"I can easily divide my life into two parts—before her and after."*

Hudson had to go through major changes and regrets in order to stop being a manipulated, cruel player. You will understand him better in this book.

Moreover, you already know that Celia is a psycho bitch. And she used to be the perfect "team player" for Hudson and their "psychological experiments". You will learn more about her character in this book, too.

Thankfully Alayna was so much stronger than these two thought she was. And in the end she won for both her and Hudson.

*"I begin and end with her. It's as simple and as profound as that. Our worlds have entwined and wrapped around each other's completely. They've shaped into something new and fixed and whole. There is no longer her story or mine, but now and always, only ours."*

Highly recommended for all the series' fans. It does not add anything to the main story, but you will see how it unfolds from a different perspective.

\*ARC Given to Blog for Honest Review\*

### 4.5 *"When you love someone, their world interests you more than your own."* "fixed" Kisses

I was both excited and anxious when I heard about *Hudson*...because, let's be honest...being in his brain is both a fantastic and scary place to be. But I was ready for the challenge...and all that it might bring me. It was a challenge...in both the good and bad sense. First of all, if you have no idea who Hudson Pierce is...we have a major problem that must be remedied. *Hudson* is the fourth book in the Fixed Series...and this series **MUST** be read in order. *Fixed On You*, *Found In You* and *Forever With You* are three of my favorite books ever and it's all because of one man...and we get to learn all about him in *Hudson*...so as you see, it all comes full circle.

Hudson Alexander Pierce...what would my world be like without Hudson? It's a sad thought to consider. He is definitely one of my top book boyfriends ever...definitely top three and this book solidified it for me. He is totally unique in his own amazing ways...combining all of the things I love and crave with this delectable untouchable quality that is solely Hudson. His dominance is unyielding...his power is addictive...and his

mouth is filthy. He's charismatic and charming....educated and witty...cultured and sophisticated...he is the perfect package. Plus he's gorgeous, loaded, hung and can fuck for days – is there anything more that I can say to make this man more perfect? Well...just wait. Because getting in his head brings a whole different insight into his motives...his backstory and history give details as to why he is the way he is...and there are just certain things that are better learned from Hudson than from anyone else.

**'There was where my confusion lay – why did I give a shit? I'm not a completely emotionless man, but nearly. The feelings I do have are tame, controllable. Practical. This irrational desperation for someone I don't even know – it rattled me. It rattles me now, these days later when my desperation has increased. Never in my life have I felt this way about someone.'**

Alayna Reese Withers...I **always** had a deep love and appreciation for this girl, but seeing her through Hudson's eyes just took me to a whole other level. Seeing her actions and what her feelings brought out in him, there are no words. Experiencing her strength and beauty from his perspective...it made her even more gorgeous. Everything was magnified, I can't even do it justice but I truly cannot think more of this girl. For the change that she brought out in Hudson...for the goodness that she created in his life...for the life she showed him he was capable of having...it just blows me away. It's funny because even when Laynie was going through her crazy moments...the times when I was cringing and hoping that Hudson wouldn't bolt...seeing those scenes from Hudson's POV was possibly the most enlightening about his feelings about her. Because even at her craziest, when he could have/should have/would have logically been able to cut ties with Alayna and move on...he didn't. That is enough to show me that he loves her more than anyone ever could...and that's all that I could ever hope for.

**'Then I know.**

**I know that no one has ever looked at me this way. I know that this connection is not just one-sided, that she feels it too. I know that I scare her and fascinate her as much as she scares and fascinates me. I know that sooner or later I will fuck her, that she will enjoy it. That I will enjoy it. And somehow, with certainty that exceeds every other fact that I've come to accept in this space of seconds, I know that my life will never be the same again.'**

Celia Werner...this review would not be complete if I didn't mention Celia. I have never hidden my distaste for her...she's portrayed as a villain in *Fixed*, *Found* and *Forever* and she earns that title with ease...but it is nice to know where and why all this evilness is in her. We get to see so many different sides of Celia...sides that I never knew existed, some intriguing, some confirming but I do have a new found appreciation for her. I think it's very easy to judge bad people when they do mean things to the characters we love...so of course, with as much as I love Laynie and Hudson, anything keeping them from being together is the most horrible thing on the planet and therefore I must hate it. But...knowing what Celia has been through...seeing through Hudson's eyes what he did...it **did** change things. It was enlightening...I can't say that I like her, that's too generous a word – but I think I have the capability of liking her. I definitely get her more which is enough for me and maybe...one day, Laurelin Paige will help give me a little more concreteness to all that is Celia.

**“I don’t *want* to be like that with you.”**

**But it’s the only way I know how to be with her. With anyone.**

**“Then what do you want to be with me, Hudson?” She wipes her tears, and I have to hold myself back from kissing them from her face.**

**“Honestly? I’m not sure.” It’s the truest thing I’ve said. I lean back against the seat, and though I’m physically here in my limousine, I’m also completely lost. I’ve never been so without answers. Not just today with the mess that Celia has created, but since the very first day I saw Alayna.**

**Why her? Why now? Has therapy actually changed me? Is that why she makes me feel the way she does? Because as scared as I am to admit it, that’s exactly what’s going on with Alayna – I’m feeling. *She makes me feel.* What, I can’t say. I’m not familiar enough with these sensation to explain any of it.**

**It strikes me as funny. Why, after all my life of never feeling anything for anyone, this woman shows up and throws all my truths out the window.’**

This is **not** a retelling of the previous three books...yes, we do see scenes from the three books from Hudson’s perspective but it’s *so* not repetitive. There is much to be learned from those scenes from his POV and it makes it more than necessary IMO. The book jumps from *Before* and *After* Alayna...that is the only way to classify Hudson’s life. Because before her...Hudson was a completely different person and we get to see the transformation right before our very eyes. I have always known that I am an emotional reader and that’s one of the things that I have clung to with this series – I could **feel** Laynie’s emotions vividly...like they were my own, which is why I love Hudson as deeply as I do. That was the only thing that I struggled with in this book...before Alayna...Hudson didn’t have emotions. The *Before* parts of *Hudson* are...interesting, factual, they fill in a lot of the blanks for why Hudson is the way that he is, a lot of his past, a lot about Celia and their past, so much about Hudson’s family...it was all very fascinating and fulfilled my insatiably curious need to know more...so for that, I enjoyed it. But...it was, like Hudson, void of emotion. That part was hard for me...but, it was necessary. You cannot force emotion into a character who doesn’t feel it, so had it been fluffy and full of feelings...it would have been a lie. That. Isn’t. Hudson. Pierce. Or...should I say that *wasn’t* Hudson Pierce...before he found Alayna.

**“Mon amour. Mon précieux,” I say at her ear. “*Mon chérie. Mon bien-aimé.*” My love. My precious. My cherished. My beloved.**

**I tell her this over and over in between kisses as I roll in and out of her. I tell her that I’m with her. Always with her. With all that I can give her. With every part of me that matters – the places that she’s awakened, the dark corners that she’s lit with her love. I can’t give her all of me, but I can do this. I pray that it’s enough.’**

Now...**all** of the *After*...and I do mean **ALL** of the *After*...was my favorite. Seeing all the scenes that I remembered from *Fixed*, *Found* and *Forever*...experiencing them from his POV...**feeling** them from his emotions....there are no words. He left me speechless...breathless...and in my happy place. This man knows no bounds when it comes to sexuality and if I thought I loved it from Laynie’s POV, he just sent me to a whole other land of fabulosity. It was sinful...and luscious...and everything I dreamed it could be. And it was also exploding with all the feels! It was like all the pent up emotions that hadn’t been allowed to escape for the past 20-odd years was just pouring from this man’s brain, straight into mine and ladies, I was greedy. I enjoyed every one of them...even the ones that hurt. Hudson’s pain brought me pain...possibly more than

what he felt, even though I knew the outcome, it still upset me to know the anguish he was in. But it was all worth it.

**‘I’ve seen love deteriorate before. I’ve watched it unravel before my eyes. This is something I know. It’s the thing I’ve always been good at – destroying the fairytale of happily ever after.**

**Love doesn’t bear all. Love doesn’t endure. Love ends. It always, always ends.**

**For all that I’ve destroyed – in my past, with Celia, here today in Alayna – my curse is that my love alone goes on. My whole life I was empty. Now I’m full. Overflowing with love and anguish. Hers and mine. They are so completely entwined, so thoroughly mixed in each other that I don’t believe they’ll ever be separate. I love Alayna Withers. And each drop of that love is so laced with pain that it travels through my veins like acid, burning and scarring me from the inside out.’**

This book gave me a whole new insight into *why* it is called the Fixed Trilogy. There are so many different mentions of the word ‘fixed’...now that wouldn’t be a big deal, except that I am a redundancy freak and that stuff sticks out to me...**but**...it wasn’t redundant...it was the context that it was used in that kept catching my attention. This entire series has been about two broken, lost people who are so messed up mentally that when they find the person that truly completes them...is perfect for them in every way...loves them so completely everything else doesn’t matter...they’re just *fixed*. Wholly. Truly. Without any doubt or question in my mind, the healthiest thing that Laynie and Hudson have ever done in their adult lives is realize that they are meant to be and even through the good, the bad and the ugly, they’re still fixed, together. The second that realization hit me, it brought tears to my eyes...it gave me a totally new appreciation for these characters, their love and the struggle that it took to get them to this place. It was amazing.

**‘She leans down and kisses me softly then leans her forehead against mine. “I would never have given myself the chance to fall in love with you if you hadn’t forced me to. It doesn’t excuse you. But it’s the truth. And for that, I have to say that I guess things happened how they should have. If I had the chance to rewrite it all, I don’t think I would change a thing. This is the path that led me with you like this. It’s the reason I came back to you so easily. Because I realized I’d rather live through your betrayal and end up with you than never to have gotten you at all.”’**

I am at peace with Alayna and Hudson...I was at the end of *Forever* but the epilogue gave me much more closure than I could have ever hoped for. It is the epitome of the ‘big red bow’ that I search for for all of my couples, so I **love** Laurelin to bits for writing it. I’m glad she saved it for this book and Hudson’s POV...for whatever reason it means more to me and I cherish it more than I would from Laynie’s. I am over the moon excited about Gwen’s story...I really liked her and from the blurb about *Free Me*, I think she is going to offer a captivating ride. *Hudson* gave me a new found appreciation for the journey that he and Alayna went through...the struggles that he had to overcome...and for the love and solace that they found in each other. I will never forget these two beautiful souls.

Hudson's POV added a lot to the series. It didn't feel like I was reading the exact same story again, word for word, like many alternate-POV books often do. Yes, if you've read the previous books in the series, told from Alayna's POV, you'll know the outcome, but glimpsing into Hudson's psyche provided a vastly different perspective. I was surprised to see the extent to which Hudson was actually playing Alayna and how deep his deceit actually ran. His betrayal felt sooo much worse than it had in the other books.

This book also thoroughly explained the background story between him and Celia in detail, answering my questions about exactly how strong their bond was. Even though Celia was a manipulative psycho, I couldn't help but feel for her at times. Although it doesn't excuse her later actions, it did help me to understand why she became what she became. I felt sad for her, even though I despised the person she grew into.

The same can be said for Sophia. Whereas we only see the bitchy ice queen side of her in the earlier books, Hudson tells some of the back-story. How she didn't kill her man-whore husband years earlier is beyond me! He didn't come off quite so peachy this time around in my view. Growing up with them as parents, it's no wonder Hudson became the emotionless shell that he was for so long.

Just as I hadn't been fully aware of the depths of Hudson's depravity in the preceding books, I also didn't fully understand the depths of his love for Alayna. He truly did love her, and that redeemed him in my eyes. He wove quite a tangled web!

The love story between Hudson and Alayna was every bit as hot and endearing as it was in the earlier books. If you enjoyed the rest of the series, I strongly recommend reading Hudson's POV. I loved it!

Omg this man is just amazing!!!

I m actually kicking myself for forgetting I hadn't read this book. But I'm actually delighted I got to read more of these characters. I luvd this series so much and now getting into Hudson's head was even better. Finding out what Hudson had gone through with the bitch Celia was great she is like a bad smell she just doesn't go away even after what he had done to her. I did luv getting into his head and seeing how quick he fell for Alayna was great. Seeing this big guy who thought he couldn't luv and be in a relationship fall so hard for a girl who is just as complicated was brilliant. I couldn't get enough of this book and would highly recommend it. I liked the past and present chapters it helped getting to know what had gone on and how the games and experiment had started. The whole series is so good.

Really not much to say about this. I was a fan of the Fixed Trilogy and what better than the whole clusterf\*\*\* all from Hudson's POV?

**Alayna Withers changed everything for me. I can easily divide my life into two parts-before her and after her. The person I was in that time long ago and the person I became when my eyes first found hers**

I was skeptical going into this read as I had no idea how Laurelin Paige could wrap the drama of 3 books into just 350 pages. Well, Kudos to her creativity. What she did was alternate between the Hudson Pierce of old to the current state of affairs. Quite cleverly she related his beginnings...his emptiness...his "experimental game" play to the situations he found himself in with Alayna. From the first hello, the proposition, the moment he was "falling" and the exposure of lies it was so amazing to read the situations from inside his head!

I always felt H was a good guy...he loved Alayna the best he could, and he was never malevolent in his actions toward her. It was quite endearing to see how he struggled, how he changed, and how he was blindsided. Is this story new? NO! It is just a confirmation that Hudson is still the phenomenal man I read before, that Alayna is the perfect ray of light to keep him from temptation, and that Celia Werner is quite possibly the most evil bitch I have read.

**\*\*\*4 Stars\*\*\***

"She's inside me, wrapped around me like a tumor. There's no way to cut her away without cutting into me. Without killing me."

Oh, Hudson!!

This book explains so much! Every conflicting, tormenting, all-consuming emotion that Hudson had throughout three books. Every moment, every touch, every uttered word weighed so heavily on Hudson's heart.

It goes back and forth between the past and present, showing how Hudson became the man we met in the first book. His quest to understand human emotion. To see how it can be twisted and manipulated. To see how far people will go. How far they'll veer away from the words they say, the feelings they say they possess.

These moments are interspersed with key moments in his relationship with Alayna. What he truly felt. What he was constantly thinking. He was ravaged with guilt, and a heavy heart performed every action and delivered every word that was deeply felt, but tainted because it stemmed from a lie.

My heart broke for Hudson. His fear of losing Alayna crippled him. So many missed opportunities to clear the air. Tell her everything. But he couldn't do it. Couldn't bring himself to trust that he was worthy of love, that he was capable of being the man that Alayna deserves.

"I stop worrying if it's going to be Alayna that falls apart from this affair and start accepting that it's going to be me."

His relationship with Celia....WOW

That's all I'm going to say about that because you really need to experience it for yourself. But I will add that I feel bad for anyone who ever got caught in their little web of deceit.

However, even though I understand Hudson's relationship with Celia, my message to her still stands.

All in all this was a really great companion novel to the Fixed series. So many situations make a hell of a lot more sense now. And I love that we get an extended epilogue looking further into the future.

Finally, let me just touch on the undeniable and endearing bond Hudson has with his sister Mirabelle (I seriously LOVED her). Even though he can't fully name the emotion, thinking it's something less than it is, he has so much unconditional love for her. Their relationship was so much more than I expected.

## **Jacqueline says**

This is a companion to the Fixed Trilogy, alternating between Hudson's time pre and post Alayna, both in fp from Hudson's pov. It's not a standalone.

His perspective is enlightening and gut wrenching to read at times and it fills in lots of gaps in the story that I'd wondered about, but there are repeats I'm afraid.

The issue for me was that the story felt like it was lacking in suspense - we already know what happened during his time with Alayna and had a good idea what had happened with Celia so some sections felt a little slow. The new information was nice to know rather than 'omfg' heart-stopping revelations.

The sex scenes were hot and the epilogue was lovely, brought tears to my eyes, but the chemistry between them wasn't always there because parts of the story were summarized or skipped over. That said, I enjoyed parts of this very much but it just didn't really match the utter brilliance of the rest of the trilogy I'm sad to say.

### ***5-MY-HEART-CAN'T-TAKE-IT STARS***

*This book, ladies, is the real deal! You seriously wouldn't want to miss HUDSON after reading the first three books of Fixed series. I will try to make this review short because no, honestly you don't need to spend more time on reviews when you have a HUDSON waiting for you!*

*I adored Hudson so much I thought it wouldn't be possible for my heart to make another room for him since he has occupied every inch of it. But after delving into his mind, oh boy... oh boy...*

*I effortlessly fell in love with Hudson all over again. His mind was complex, his heart was unknowing of the taste and existence of love, his soul was lost... but behind all those things laid a broken man who was desperate for a saving grace, yearning for a light to illuminate his dark bitter life.*

*Alayna was his light, she was his lifeline and saving grace. Understanding the pivotal role of Alayna through Hudson's point of view was a beautiful and amazing experience.
