Today's students are found in high schools, colleges, the office, adult-learning centers, universities, trade schools, and weekend seminars. With time limits and fierce competition, students need to tap into their hidden potential and maximize performance. *Study Smarter, Not Harder* provides readers with key information they need to study successfully in any situation. This new edition, released ten years after the first edition was published, includes: - New strategies for time management - New tools for goal setting - Discussion of common myths such as speed reading - The #1 study skill essential for top grades in any course - Online resources and support - Plus it includes all the original text that has made this book a bestseller: - How important is preparation in studying? - How do I improve my memory and concentration? - How should I study for exams? This book was written for students of all ages, especially for high-school, college and university students. But there are also thousands of adults returning to school or taking evening classes across the country. This includes career and businesspeople who must keep up-to-date with new research.
