Kit & Kitty is a picture book for adults that contains some mature, yet positive sexual content.

Looking for something really special for the love of your life? Tell your sweetheart you are completely and madly in love, just like Kit and Kitty. ## From Reader Review Kit and Kitty in Love for online ebook

### Amy Huynh says

*I won a free copy of this book from a Goodreads giveaway.*

#### **Rating: 3.5 stars!**

Kit & Kitty In Love is a very cute and fun book! On the outside, this book may pass for a children's picture book, however the content is definitely for adults. The illustrations in this story are bright and colourful, and communicate love in a playful way. If the content wasn't as mature, I could definitely see this as a book for kids. Overall, Kit & Kitty In Love is a fun adult picture book that provides light and quick entertainment.

#### **Kit and Kitty in Love** by W.C. Fielstra

Kit and Kitty are an anthropomorphic fox and vixen couple playing out the steps from *love at first site* to *living happily ever after*. Of course in the interim, they can't keep their paws off each other! The story does show tender moments, as well as intimate encounters, that lead to a mutual heartfelt connection.

Hide this darling little *lovefest* from the kiddies, Mom and Dad, because this book is in NO WAY appropriate for children!

*Kit and Kitty in Love* by W.C. Fielstra might make a sweet and sensual surprise for the love of your life, afterall it will relay to your sweetheart that your madly madly in love with them, but it might also relay that you're into some kinky bedroom games as well! *Furries* play!

The *Furries* are a subculture interested in anthropomorphic animal characters with human personalities and characteristics. This includes having *sex* while in animal costumes and pretending to be animals. People who are associated with *Furries* culture refer to themselves as part of the *Furry Fandom Community*. These *Furries* are known to gather on the Internet and at conventions.

I personally don't mind *Furries*. They don't bother me and I don't bother them. They have a HUGE Convention here in Pittsburgh every year. I don't like, however; *fetish books* being made to look like children's books with bright colors, Disney drawn characters, and catchy titles that grab kid's attention. It's not appropriate.

Understand that ***I Hate Giving Books Bad Reviews***! Especially when the author, **W.C. Fielstra**, has been gracious enough to send me a copy of their book for free. *Full disclosure*, when I applied for the book I thought it was for kids and intended it for my grandson, Gauge. Good thing I screen everything before it goes to the kids! I do have to thank both GoodReads and **W.C. Fielstra** for sending me a copy of ***Kit and Kitty in Love*** at no cost after winning it on *First Reads*, but I will say I NEVER would have bought this book on my

own.

Putting this one in the donation... no wait... giveaway... no wait... well, it'll make good kindling in an apocalypse if I can't figure it out. I'm NOT recommending this book unless you're a *Furry* or you need to level a table!

To be honest, I'm not sure if I would have read this book if I hadn't won it (but I'm glad I did!) I'm not a big fan of cartoons, but this is not your average children's book. It's not for kids at all. This story is very sweet and reminds me of my first (and very much current) love.

Oh what a delightful book! This book would make a wonderful gift to an intimate friend...or lover! The illustrations are so colorful, full of life, and truly share the optimism of a couple in love! Reminiscent of early cartoons, this could be a picture book for a child, but the subtext is without question adult! I think all of us can relate to these characters and their experiences on these pages...well done W.C. Fielstra! I can't wait to share this with my "Kit"....!

I enjoyed the book and the fox and drawing were really great. I won the book through Goodreads. It is a nice gift to give to someone for Valentine's Day.

In compliance with FTC guidelines; I received the book for free through Goodreads First Reads.

This book is an adorable ode to blooming love.

The pictures were drawn in an old fashioned cartoon style hearkening to the days of childhood. Most of the

pictures are of a romantic nature. A few of the pictures are of an adult nature and I felt were too risky for a child even though it looks like a children's book.

This is a book I would suggest for sharing with a lover for a romantic occasion.

This is a gorgeously illustrated and romantically written ode to love. My children saw it on my nook and asked me to read it to them; my 6-year old daughter loved the drawings. I think it is a grown up picture book and I absolutely adored it. I received this copy for free from a link provided by the author. It would be perfect to take along on a romantic picnic with some wine and cheese.
