Bella Forrest

Puerta de noche Bella Forrest

Derek y Sofía por fin disfrutan de un merecido descanso. Alojados en un complejo de vacaciones con buena comida, sol y mar, Sofía está encantada de presenciar la reintroducción de Derek en el mundo de los humanos.

Casi podría confundírseles con una joven pareja normal, si no fuera por el monstruo de ojos rojos que acecha en las sombras y vigila cada uno de sus movimientos, esperando la señal para atacar...

Nota: La historia de Derek y Sofía se completa en el Libro 7 de la serie, Amanecer, y los personajes se embarcan en aventuras totalmente nuevas en el Libro 8.

Fucking sick and tired of the goddamn cliffs and the useless crap in this series. It's goddamn annoying and if you're wondering why I don't simply stop reading it, well, I can't. I can't not finish a series that sucks so bad because I hold hope that it'll redeem itself. The way I see it, it's not happening here. I regret the day I started this thing.

I am so glad I am only one book away from finishing this infuriating series. I am angry that I have allowed myself to become so enthralled with this very ridiculous story. That's the nature of guilty pleasures, I guess.

After this though, it's back to my usual smutty pleasures, though. This YA stuff is so tame and boring.

I hadn't read this series in a really long time, so I was a bit confused at the beginning of this. Completely forgot Derek was a human now... Like how do I forget that?! Ugh. I also liked some of the things we learned about vampires going human, they were interesting and I bet make for a good plot twist in the next book. Sofia went through so much when she was held captive, and that really broke my heart because shes already been through so much, she didn't deserve for this to happen. And poor Derek not being able to protect her... Overall, this was a good installment to the series, and I might continue on with the little plot addition that was added.

This book certainly hasn't gripped me as much as the other 5 books. From about half way thorough I found myself just wishing that the author would end this book with a nice ending or even a bad ending, but either way, just end it. As per usual, this book ends on a cliffhanger, but I am not going to be jumping up and down when the next book is released. The impossible (if you believe vampires ARE possible) is starting to happen. Things we've been told throughout the entire series that can't happen, are suddenly starting to happen. (Don't want to give spoilers, you'll know what I mean when you read it). I liked the writing style still but the contents has left me a bit annoyed this time, hope book 7 is the last of the series, if if is, I'll read it, if not I may be saying goodbye to a shade of vampire. Feel free to let me know how u got on with it

Every single book ends with a cliffhanger!!!
Come on damn it!

This was another good book in the series. It is a pretty good book that again completely changed the series.

The main characters are Sofia and Derek still. Except from in this book they've been separated again. They both get kidnapped on their honeymoon by Kiev and taken to the blood keep. Derek gets out quickly after receiving a thorough beating but Sofia gets stuck there while she goes through her pregnancy alone.

There are some secondary characters but they are getting more and more interesting as the series goes on and I want to reserve my judgement until later on in the series.

The storyline is getting very interesting and I love how each book brings in a new aspect of the mythology of vampirism. The pacing is great and each book leaves us readers wanting more, I'm just going to wait a while before I buy and read the next book in the series.

Oh how I love this series.

The last couple of books were not as great as the first two... let me tell you this book was just as great as the first two books. I never in my mind thought I would find a series I am loving as much as I do this one Kindle Unlimited.

This book is non stop. I started listening to it today & I am officially done, I just could not stop listening to it while I worked.

I love Sophia & Derek. I love their love... I love how they are when they are together and man it is gut retching when they are apart.

I am ready to start the next book and will be starting the book asap. Sadly I have to go to the dentist here shortly, but at least I have this awesome series to listen to while the dentist destroys me :)

This book certainly deserves a spot on my 2016 favs :)

I am extremely disappointed that I invested in this series. Bella Forrest is obviously an amateur writer and expects her readers to just accept whatever she throws at them. Just when you think you know the rules of what is going on, she changes the entire game. Book 6 had me more frustrated than any of the other books because it seemed to draw out for so long. I liked the way she gave each character's point of view in the first books. It allowed you to see the story from all angles. My problem with Book 6 is it felt like a soap opera...just when you got invested in one story line, it switched. The cliffhanger she leaves at the end was extremely disappointing to me because she completely changed the rules she herself set as a writer. If you are going to make a key part of the story revolve around one certain thing...you can't change that rule just for shock factor. I was very irritated and frustrated with the book. I will read book 7 only because I am already invested in the story line...but if the 7th book doesn't resolve the story...I am done with Bella Forrest as an author.

“We were strongest together and we were weakest apart.”

A Gate Of Night is book six in the series A Shade Of Vampire by Bella Forrest. I do believe this latest installment in this series is the most stressful of all the books so far. During most of the book, our characters are all in three different places, and things are not going well in any of them.

Derek and Sofia finally have a beautiful future together within their grasp. They are on their honeymoon and Derek is a human. Sofia is so enjoying introducing Derek to all the wonders of being a human. But their happiness is short lived.

There are so many different agendas at play. The Elders want Sofia. The Ageless who is kind of the Queen of the witches, wants Derek. The hunters want the vampires. The Elders also want to take over The Shade.

Its heartbreaking because all of the characters we have gotten to know throughout these books seem to have love and happiness within their grasps only to have it ripped away. The Elders are truly evil and it horrified me to see what was to become of the beautiful island, The Shade.

This is how I imagine The Shade looked in its best days!

If you haven't started this series yet, you need to read them in order. I believe the next book is the final book so perhaps that is why Bella Forrest left us hanging with a huge cliff hanger and with everyone's lives in such upheaval. I can only hope that the next book will be out soon. You can't just leave me freaking out like

this, Bella!!! I need the conclusion, now!!!

Favorite Lines “**Sofia is my calm.**”

“Because if he wasn’t able to escape, then he’s most likely dead, and that’s a reality I won’t be able to live with. He’s alive. That means he is somewhere.”

“You are who you choose to be. No matter how much light is shed upon you, if you still choose to remain in darkness, that’s your doing, not anyone else’s.”

“Don’t tell me that you can’t. You want to know how Derek turned to light? He stopped playing the part of a victim and began taking responsibility for his own actions! That’s how. He owned up to his choices instead of cowering away from them.”

“If there’s anything I’ve learned watching you and Sofia blossom into the couple that you have become, it’s that we hold our fate in our hands. We always have a choice. Don’t settle for less than the future that you dream of with her.”

“It’s because we’re family that I need to agree to this.”

Whenever I start a new book in the series, I always wonder can Bella Forrest do it again? OF COURSE SHE CAN!!!

Derek and Sophie are one of my favorite couples! They are true soul mates! It's heartbreaking to watch what they have to go through. So heartbreaking but through it all the one thing that never diminishes is there love for each other!

Sophia is stuck in The Blood Keep and Derek is stuck in another realm. It's madness! There are Elders and Guardians playing games with people's lives and it makes me livid. I want to tell you the OMG moments because they are EPIC! This author just keeps getting better and better! She loves to keep us guessing! It's worth the wait though because every book is amazing!

I was given this book by author in exchange for an honest review

FIVE CRAZY FAIRIES

Pearl Angeli says

What. Was. That?! Holy crap. Why end such a book like that?

Anyway, this book is basically ugh, I don't know what to think about. All the while, the book kind of annoyed me because I didn't see any progress at all. The events were cruel and the characters were put into misery that I guess, is way too much for them to handle. The upper hand was obviously on their enemies-- no

question about that. I understand that it's part of Bella's scheme in order to continue the story but I guess it's a worse thing to do. You can't possibly torture your characters like that, especially at the ending. No just no!

I hate how the story went. It's too disappointing. :(However, I am looking forward to read the 7th (the final book) of this series and hoping that the ending is worth it all.

Lisa Guzman says

Definitely a great series so far

This is one of those series I am very happy it is on kindle unlimited because otherwise I would not be able to read all the books in this series. The story just keeps getting better and better. It is filled with action and drama and more action. If you love vampire stories then this is perfect. Just keep in mind that there is no steamy sex scenes or vulgar language. This is truly a G rated series but still filled with passion.

When I first met Sofia and Derek more than a year ago, I couldn't help not to fall in love with them and their story. And since then, I really enjoyed reading the series and it's always on my top reading priority. But after 6 books I'm not sure anymore.

It's because I don't know what the main focus in this series anymore. And there are always new bad guys in each book. First there were Lucas and Gregor Novak, and then Borys and Ingrid Maslen. Next was Emilia, a daughter of The Elder. Now there are another Elder's children, Kiev and Clara and later (view spoiler). As the antagonists change, the focus of the story is also changes. The problem is the protagonists don't know what and who they have to face. Thus, I don't know either. It's like they (and I do too, as a reader) keep in the dark. I actually don't mind being don't know what will I read in order to get surprise along the story, but in this book it's just dragging and in some part I'm bored. I also have problem with the way some of the characters tell their POV. They talk the same thing over and over.

However, I liked the twist at the end of the book. I think it is good enough for me to keep reading this series, though I've changed my priority now. It isn't on my top reading list anymore. Not after this dragging and kind of boring story.

Deborah says

Agonisingly Brilliant.

Ok...I've loved all these books and eagerly await the next one and like all lovers of romance I want the two main characters to find their happy ever after, in the case of Derek and Sofia I always assumed that he would remain a vampire, after all I love vampires so that would be good, and I somehow hoped that something would happen to make Sofia immortal giving the book a perfect ending. The end of the last book threw my thinking for a loop, the cure had been found and Derek was human, why was I not happier, well even though

I wanted them to be happy I somehow felt saddened that Derek was no longer a vampire, he'd have to be turned back surely but then would he be as strong or would he be a 'normal' new vampire, if he didn't turn back who'd keep Sofia safe, I had all these questions flying around and wondered just where on earth Bella was going to go from here, I must admit I felt a bit apprehensive on starting book and that apprehension was right.

It starts with Derek and Sofia enjoying their honeymoon Derek even has a tan, life is looking good, dare they even hope this continues. Meanwhile life in the Shade is not going as well Vivienne and Aiden are running things but it's not easy having the humans and vampires of the shade living in close quarters with the hunters that hate them so much surely it's only a matter of time before it blows up in their faces.

While the honeymoon's going well, the Shade's struggling, but coping and things aren't looking too bad but then true evil in the form of the Elder raises it's ugly head, he's after revenge on Derek and Sofia and any one who sided with them. Life will never be the same and as their worlds are turned upside down we're left wondering who'll survive and will they be the same.

As with all the previous Shade books this proved to be compulsive reading, I literally couldn't put it down, I was hooked but by the end I wasn't happy, not happy at all, I wanted it to be longer, or shorter or just different, to say I didn't like the ending is an understatement did I mention that I'm not happy, but despite me not liking it I can admit it's completely brilliant and I'll be over my little sulk and ready to download the next one as soon as it comes out so as always, please write quickly Bella, but this time I really mean it write quickly.
