## Until You Hurri Cosmo

Watch the NEW book video [https://youtu.be/i81FaHT\\_rdo](https://youtu.be/i81FaHT_rdo)

Asher has a few issues. His older brother amassed a huge gambling debt that landed him in the hospital, his supervisor at the club where he works is out to get him fired, and the owner of the club, wealthy Max Tyler, is after his ass. Literally. Asher is also extremely attracted to Tyler, but the same people who put his brother in the hospital also want Tyler dead. Not only that but they're blackmailing Asher into helping with their heinous plot. Do as they say or his brother will die.

Tyler is not so easily defeated, by thugs or a reluctant Asher. Lust at first sight, Tyler always gets what he wants and he wants Asher. Even if it kills him.

## From Reader Review Until You for online ebook

### **Casey says**

Boy I sure do not agree with the first review that appeared here. This was a wonderful story! Action packed and I loved the characters. To each her own I guess but this made all kinds of sense to me. I think it was very well thought out. A great crime story and an even better love story!

---

### **Stacey Jo says**

I received a copy of this book from the author via IndiGo Marketing & Design in exchange for an honest review.

Asher is a sweet guy with a big problem. His brother keeps getting into trouble with the wrong people. The latest bit of trouble is that he owes someone a very large sum of money. So Asher manages to get a job at a club that is owned by a local mobster named Max Tyler. He's never seen Max so on his first night when the very hot guy in the well-tailored suit is staring at him, he doesn't realize it's Max. Work is tough with a boss who hates him and causes him a lot of trouble. Asher also has trouble with the guy who is coming after him for his brother's gambling debt. Max has set his sights on Asher though and will do whatever it takes to protect him and make Asher his.

The story is full of kidnapping, suspense, mobsters, crooked politicians, political intrigue, assassination attempts, alpha males, and hot sex. Asher and Max are in lust with each other as soon as they lay eyes on each other. The sex between them is smoking hot. I found it to be believable though. There wasn't any love with it at first. Max does start falling for Asher and realizes that for the first time in his life he wants someone. That's where the alpha male comes in. Asher tries to fight Max's advances but to no avail. Actually, his fighting is an act because he likes being manhandled. In the end, Max gets rid of the people who are trying to hurt "his" Asher and he sets Ryker, Asher's brother, up in a home of his own, and Asher moves in with Max.

The one thing I felt was missing from the story was Ryker. He was briefly in the story at the beginning but disappeared after that. I kept waiting for him to make some sort of appearance. He started everything and created so much trouble for Asher but we never hear from him. I felt like it was a plot hole. I did enjoy the book. Although the action and drama were a bit over the top at times, I really liked Max and his people as well as Asher. Despite Max and his people being mobsters who would and did kill people, Max would do anything to keep Asher safe. I thought this was a fun book to read and I enjoyed the story. I'm looking forward to reading the second book in the series.

---

### **Ari says**

Yeah, there's lack here and there (the switching from first name to last name was a big mistake!) but I'm enjoying this cinderfella story..fu..fu..fu...

Max Tyler was truly an alpha male, as for Asher, I wanna give you this!!!

Also, I think the story was a bit similar with Okane Ga Nai manga.

---

### **Serena Yates says**

Some people just seem to attract danger and problems, and Asher of ‘Until You’ is definitely one of them. He means well, feels responsible for his older brother, and all he wants is a peaceful life, but it isn’t meant to be. Pair him with a real bad\*ss mobster-type-almost-villain like Max, and the sparks are bound to fly. This is a fast-paced, action-packed story with lots of subterfuge, intrigue, blackmail, and political maneuvering, and if that isn’t enough for you, there is always the intense attraction between Asher and Tyler that leads to electrifying, almost violent encounters.

Asher has a lot of issues, but the fact he wants to protect his older brother, who is just asking for trouble over and over again, is probably Asher’s biggest issue. Well, that and the fact he is attracted to a man way out of his league and not someone you’d want to introduce to your parents. Ever! Once he agrees to deal with his brother’s latest gambling debt and begins working at Max’s club it’s all downhill for him from there. The moment he thinks’ he’s solved one issue, two more pop up and he is quickly about to drown. Worse than that, his physical attraction to Max gets him in trouble as well, and even though he fights it and says no, Max isn’t the kind of man to give up. I have to admit, even after finishing the book I wasn’t sure whether Asher really wanted him as well or if he just gave in to the force of nature that is Max.

Max is not a hero. He isn’t nice, he is ruthless, and kills people without a second thought if he believes “they deserve it”. Max is the perfect example of an anti-hero: not morally deserving, but with a morality all his own, and so hot it isn’t funny. He is possessive, and his treatment of Asher is borderline abusive – his only redeeming characteristic is that he does listen to what Asher wants, and since he seems to enjoy the harsh treatment, Max continues to give it to him. He also “magnanimously” decides to handle all of Asher’s issues, but since he doesn’t communicate his intent, there are multiple misunderstandings which make things worse. His heavy-handed treatment isn’t for everyone (if I were Asher I’d tell him where to stuff his ideas!), but it seems to work for Asher, so who am I to judge?

If you like fast-paced action stories with main characters who do not always walk the straight and narrow, if you want to read about two men who are definitely in lust but have an unconventional way of showing it, and if you’re looking for a read with a story line as morally corrupt as it is entertaining and hot, then you will probably enjoy this novel.

### **Nikyta \*Miss Forgetful\* says**

I had high hopes for this book when I read the blurb. I mean, I liked the story but I grew frustrated multiple times with it.

Asher is put into deep trouble when his brother acquires severe gambling debt and is injured for his inability to pay. Taking up his brother's slack, Asher is forced to do certain things to repay the debt. Starting a new

job, though, he's pushed into a world where he attracts a lot of attention and not all of it is wanted. When he unknowingly starts a semi-relationship with the owner of the club, Tyler, he works at, he gets harassed by his beau's ex-lover.

I liked a lot of things about this book. The whole brother owes gambling debt was a nice touch because it put Asher in the situation he was in. I liked that Asher is straight but has an uncontrollable attraction to Tyler. Asher is also such a pretty boy that a lot of guys wanted to have sex with him. I liked that Tyler is forceful but gentle with Asher. I didn't feel like their love was genuine because they honestly didn't know each other but I liked how things developed and the situations they were put into. And I really loved how it ended because I thought it was sweet which left me with a smile on my face.

What I really hated about the book, though, was Asher's inability to say enough was enough. To be honest, if I had a brother that constantly put me in dangerous situations where my life was constantly threatened, I'd say "Sayonara, sucker!" It's one thing to help out someone you care about but to do it over and over again without that person giving a shit whether they put your life in danger is just ridiculous. I wouldn't put myself through that. But that's just me. I also felt like there was too much sex. When something happened and Asher and Tyler needed to talk, they'd have sex instead which is why I don't feel like their love was genuine.

All in all, not a bad story. I'd read more from this author and I did like that this book dealt with the more criminal side of things. It had a few suspenseful moments, some sweet moments as well and I liked that about it. I wouldn't mind getting more stories in this world, though, as long as they were more fleshed out with less sex.

### **Simsala says**

*1,5 stars*

From all the frogs I kissed in the last weeks this was the bullfrog.

What a jumbled mess!

Cheap effects like bombs and torture chambers don't make a good crime story, unappealing characters don't make a good romance. Confusing head hopping and switching between first- and last name, over-the-top villains, an incredibly naive chick with dick as hero - falling for an asshole who doesn't take no for an answer. ("But it feels so nice - force me and I'm yours!".....Oh please, spare me!)

The half star is for the dizzying pace - a quick read, thanks for that.

### **Maya says**

Until You by Hurri Cosmo

3.5 Stars

Reviewed for [www.heartsonfirereviews.com](http://www.heartsonfirereviews.com)

Asher is constantly bailing out his older brother from one scrape or another but this latest one is the worst ever. His brother is almost beaten to death and he finds out that it's because of a large gambling debt that Asher is now expected to pay. If he cleans out their nest egg, he has about half of it but he still needs to get

the rest of the money or his brother's life is on the line. Asher is starting a new job waiting tables at an exclusive hot spot in the city and this is something that Ryker, the loan shark, finds interesting as he now may have a way to get information on Max Tyler, the elusive owner of the club. Ryker's main interest isn't the money or Max Tyler, he wants Asher.

Asher's first night at the club doesn't go so well, he is so gorgeous that most people want him and that includes Max Tyler. Tyler's ex lover is Asher's immediate supervisor and the man is bat shit crazy jealous and Asher now has a very dangerous enemy. Asher is a beautiful, naïve virgin but he knows that the intense blue eyed man that stares at him in the club makes him feel things he has never felt before. It isn't long before the men have sex and Tyler takes his virginity without even an exchange of names. Asher has no idea of Tyler's identity but Tyler makes sure to find out every detail of Asher's life, the beautiful blonde man is his and no one else is going to have him. Asher makes him feel alive for the first time in years and Tyler is not going to give that up. Tyler is all Alpha male who gets what he wants and Asher is the sweet submissive who can't help but want to please Tyler.

This story has several things going for it, it is well written, it has an interesting plot and there is a lot of action that keeps the story flowing but, with that being said, I didn't really like the main characters. Asher vacillates between being strong and taking care of his brother's messes to being spineless and annoying. He has several TSTL (too stupid to live) moments that put him in physical danger and there are a couple attempted rapes that occur but Asher is always saved in time. Tyler felt like a cardboard cut out to me. I never felt invested in him. There isn't a lot of relationship development, more sex than talking. It sounds like I didn't like the story but I actually did. It is entertaining, fast paced and the sex is pretty hot. I would recommend it to someone looking for a diversion who can suspend their disbelief and just enjoy the ride.

### **Britt says**

This is an awesome story and the writing backs it up! I am very glad I had a chance to read this book. I want more from this author! WRITE MORE BOOKS PLEASE!

---

### **Eden says**

This was so good! I loved it! Asher was so adorable and real. Tyler was so cool! Loved the ending! So perfect! Would love to read more about this couple! Will definitely read this again!

---

### **Sula says**

I enjoyed this sweet romance and fast paced adventure. It has a slightly yaoi feel, with an uber alpha who falls deeply for his latest quarry, plenty of sinister evil characters, a naive but honorable 20 year old hero (Asher) who is trying to do his best in life, wants to be a photographer, but who has to keep rescuing his older brother from gambling debts and escalating hospital bills.

After visiting his beaten up brother in hospital Asher is threatened by a loan shark seeking retribution for his brothers debts, if not by monetary means then by paying with his body. Then when he finds where Asher is working work he offers him another way out, but you can sense that once he complies then he will never be

free. But what choice does he have, he has not got the money needed to get his brother out of trouble and he feels that there is nothing he can do but comply. This is also complicated by the growing attraction he has for his boss, Max Tyler, who in turn feels compelled to protect and dominate, as well possibly even love Asher as well, which I am sure he never expected to ever happen to him.

Not only does Asher have to survive the low life lone shark but he also has to deal with the jealous antics of an ex-lover of Tyler and the lecherous and dangerous patrons of the club he works for. Throughout this Asher still retains an innocence and goodness about him and unbeknown to him he gains some powerful allies.

The story is full of twists and turns, as well as some hot sexy encounters, but the length of the story gave time for the relationship to develop. Some may say at times it was over the top, but it was fun and a good few hours of escapism plus rooting for the good guys (as well as enjoying a few romantic scenes). I am looking forward to reading the sequel, as I am hoping it might give a bit more detail into Tyler's business dealings.

My rating is 4.5, rounded up to a 5.

### **Liz Borino says**

I got this book from the author in exchange for my honest opinion.

Until You is the Hurri Cosmo's debut book, and man, what a wild ride! Fast paced with lovable characters. I connected with most strongly with Asher because I saw in him a good heart, he'd rather risk his own life than his brother's or lover's. Max's mystery added to his desirability. This book is highly recommended!

---

### **Macky says**

Hmmm! How do I put this....this is a bit of a weird one to review. The basic idea is quite good but its as if the author took off running and then lost control of the brakes! Handled differently this could have been a good m/m crime romance but because of the characterization of her main characters it all becomes a bit farcical and ( I'm pretty certain ) unintentionally camp. Asher is blissfully unaware of his attractiveness but is constantly being manhandled by all and sundry because he's so beautiful and alluring, Max Tyler is so gorgeous and "dangerously mysterious" that he can get away with constantly manhandling Asher when he feels like it - and he feels like it a lot - and all the baddies are way over the top ( on a more serious note, there is a scene of attempted rape so of course I do not include that in my comments about manhandling and would never make fun of such an upsetting subject, mostly the rest of the manhandlings between Asher and Tyler are domineering but consensual ). One of the bad guys comes across more like a jealous girlfriend, and his ways of getting Asher into trouble swing from being utterly childish one minute to terribly fiendish the next - confusing! The situations Asher gets into are all caused because he is just too naive to be true and this results in the story unravelling into silliness. I didn't hate it and at times found it entertaining but not for the reasons I should have.

Not badly written at all, tightened up this could have been very good, as it stands its passable.

## **Pixie Mmgoodbookreviews says**

3 Hearts

First published at MM Good Book Reviews

<http://mmgoodbookreviews.wordpress.co...>

Things begin to fall apart for Asher when his brother is put in the hospital...again. Finding out how much his brother's gambling debts are nearly knock him off his feet. His immediate boss, at his new job, is out to get him and he has a heavy case of lust at first sight for the gorgeous blue-eyed stranger, who he later discovers is Max Tyler, owner of the club he works. Asher is dragged into a plot to get rid of Tyler, but what will Asher do when his brother's life is in danger and so is that of Tyler? Just who is the most important person to Asher and how can he get out of the mess he has fallen into?

This is a well written story that has a lot of action and danger to keep you on your toes. Asher gets dragged into something he has no clue about when his brother runs up gambling debts that he just can't pay. When Asher meets Tyler, he is swept off his feet, but later finds out that Tyler is the target and that his brother's life is in danger. Asher has no clue where to turn and to make it worse; Neil (his immediate boss) is making his life miserable and has very evil intentions. Tyler spotted the sexy Asher on Asher's first night at work and he wants him, and what Tyler wants he gets. But, a lot of things seem to be leading to Asher, Tyler needs to learn the truth, but that doesn't mean he can stay away from the sexy Asher.

You know, I enjoyed this storyline and the various characters made it interesting. Although, I am still not sure about Asher, half the time he seemed like he had a backbone and a spine of steel, but then he'd get around Tyler and act like he didn't have a brain anymore and would turn to mush. Tyler was a real alpha male. People would fall over themselves to give him what he wants and his enemies want him dead. Tyler is a very powerful character and he works really well in this book. He and Asher are great together, but I still have a hard time understanding Asher's reaction to him, it just seemed overboard.

The action is quite fast paced and Asher does manage to attract danger, there is a near rape scene and also a dubious consent scene (which was really hot) and Asher really needs to get his mind and body in sync. Neil is the perfect ex who has gone off his rocker and carries it out brilliantly. He really was nuts. I really wanted Asher to confront his brother over the trouble he landed them in, but it didn't happen.

I will recommend this to those who love strong alpha males, a submissive who tries to fight what he really wants, danger, action, hot sex, and a happy ending for these two men.

---

## **Kinny says**

NOT for everyone! I am the queen of sap and HEA but those who want REALISTIC and MC's with self preservation instincts might get an aneurism with this one.

The blurb hinted at a traumatic type story line that I stay away from. I am glad I took the risk with this one. It

has a similar feel to a BA Stretke book Signed and Sealed which is a favorite of mine BUT a lot of people make fun of. The MC Asher has SEVERAL TSTL (too stupid to live) moments but he is always rescued just at the nick of time. This could have been an angst ridden sob fest of a story but the timing and writing style turned it into a feel good for me. I love this story...

If you love Cinderella type stories where helpless victimized lead ends up with powerful and rich alpha male (Max Tyler) who treasures and protects him... This book is for you.

---

### **Ije the Devourer of Books says**

I enjoyed the way in which the main character eventually found love from a 'mobster' and also the slight touch of humor. This is the first time I have read a book from this author and I am looking forward to reading more.

---
