Wolf Scent Isabel Dare

Kirk Anderson likes living alone in his mountain cabin, or so he tells himself. He's a monster, after all. How would he ever find a man who can deal with his other self—the wolf?

When a reckless young hiker named Leo gets his leg caught in an old bear trap, Kirk rescues him, tracking him down by scent alone. While Kirk takes care of his injuries, Leo's bright, sunny presence slowly wears down all Kirk's defences.

But as the full moon rises, Kirk struggles between the urge to protect Leo and the demands of the wolf, who wants only one thing: to claim his mate...

Tami says

Felt like a bad try at a "winter wolf" rip-off with a lot of cliches. And it didn't really feel like a m/m story.

The young, pretty twink who likes to cook felt way too much like a girl. Not sure what exactly it was. He just didn't feel like a guy to me. Maybe it was the being rescued and carried home thing. If he would at least have been the top, but no...the obligatory "mating" happened with him firmly at the bottom...

The whole novel felt very insubstantial. There was simply nothing to it.

Two people. One is a werewolf. No world-building, just insta-attraction. Not very hot, not very entertaining. Just there.

Chappy says

3.5 stars

I got this book for free and had no idea what I was going to get.

I was actually pleasantly surprised that I enjoyed this short read. Kirk just seems so lonely to me.

When he finds Leo trapped and hurt in the woods, his instincts kick in and Kirk knows right away that Leo is very special. Leo is his mate...

Sure there's insta-love and a real abrupt ending but I still liked it.

Sunny says

I really liked Kirk and Leo, and the story kept my interest, but it lost a star because this not only ends on a cliffhanger, but things are brought up but not fully explained. It's too dependent on future books. The MCs win, though, and I'll be reading the next story so I get more of them.

Sheri says

Leo is lost and badly injured and....his hero appears out of thin air.

Packaged in a tall, burly, melt-your-panties gruff....he thinks he's hallucinating from the pain.

When he awakens in a strange cabin, he realized his walking wet-dream was indeed real.

During his recovery, he quickly falls for the reserved mountain man.

insta-love alert

When his poorly timed 'moon-time' coincides with an unwelcomed pack of strangers...Kirk vows he will protect his mate at all costs.

cliffy alert

Love the peek into the wolfs mind.
Love the scary wolf-man and his brave artist.
gotta dash...need book 2...**now!**

Bettina (a.k.a. Betty) says

2.75 Stars

Ashley♥Alexis says

that was enjoyable. I can't wait to pick up the next one.

Nadine Bookaholic says

Word Count: 30,000

Jacq says

Enchanted Forest Adventures with many scents & Bird sounds and the famous WOLF howl. TRULEY this was like reading a kids book...noted with smexy scenes beyond 50%
BEWARE a dang cliff hanger.

Elspeth says

This was pretty hot, but I have no love for serials with cliffhangers.

Katrina Passick Lumsden says

It was OK, but not interesting enough to pull me into the rest of the series.

Lasha says

2.75 stars

Two of my biggest pet peeves occurred in this novella. One, it ends on a cliffhanger, and two, the end seemingly is the means to sell the second book in this "series." The follow-up could have easily been folded into this book to make a very enjoyable novel, but it just cuts off and then the author's note about buying the next installment. I'll pass.

Alexis Woods says

Should have gotten a five star rating, but when I say cliffhanger, I mean cliffhanger. Grrr... sending up my own wolf howl of outrage.

Free read, so I can't be too upset. It will be worth it as a complete story. Easy and quick read. Deliciously X-rated.

Candice says

Cliffhanger.

Not sure I want to read on in this series :(It's possible though.

Andrea says

Ends in cliffhanger - that's a guarantee that I'll never buy anything else written by this author.

Avril says

Really? That ending. Really? Yeah, no.
