Again I have to say that while this is a bit confusing, when it isn't confusing it's fantastic. Basically it's a whole bunch of boys and their best friends, fighting together, loving each other... it isn't BL, but it's... emotion porn, maybe. (That sounds dirtier than I mean it to be, but it's just... intense.) Anyway, good stuff, and I'm holding out hope that it'll all make sense in the end.

[I am curious how they plan to get the Eye back. (hide spoiler)]

For some reason I found this one to be rather confusing and chaotic. It could have been the length of time between reading Vol.3 and 4, but regardless it was a little hard to follow.

Gabriela says

Gah! Stuff happened! I can't handle this! I am a bit unsure as to what is an illusion or reality.

Aleece says

[The Eye of Mikhail is stolen because Teito needed to be separated from the Eye of Mikhail because he was infected by a Wars. (hide spoiler)]

The beginning of the volume was a nice conclusion to Bastien's story (as was the gift to Frau in the middle of the volume) and contained both enough action and enough downtime to provide a good balance overall.

I followed along online to compare it to the scanlations and find the official one usually much better without changing the meaning. I also noticed another panel that was different from the scanlation but I didn't have a problem with it this time - I'm sure there's a reason for the substitution.

The chase scene with the Barsburg army gave us insight into the two kingdoms and the plot to come, the introduction of Bishop Lance was fun, and the exam showed his character and the worthy examinees well.

The volume also ended off nicely with a bit of introduction for all the seven ghosts and led the way to the next volume without encouraging too much of a rush with a cliffhanger but not too little excitement that I don't want to keep reading.

I found this manga really interesting, but i found that the anime which is based on the first 4 volumes has more detail than the manga.. I found this strange. Watching the anime caused me to want to read the manga again because the first time i had only read the first 5 volumes I think the others hadn't come out yet.

I won't go into details about the plot because i might confuse other readers, I believe it better for them to read it on their own. Believe me anyone who likes manga with comedy, drama, fighting, etc. should give this manga a read.

I had to reread volumes 1-3 because this was one of the victims of the publisher collapse a few years back. I didn't even realize someone else had picked it up. It had been a handful of years since I last read it. In recap, Teito runs from the imperial army, losing his best friend Mikage (now reborn as a little dragony thing), in the process. Teito hasn't many memories of the past and is the vessel for something known as the eye of Mikhal which could save or destroy the world. He wants revenge on Ayanami for killing Mikage and three bishops, Frau, Castor and Labrador are helping him (the three house three of the 7 ghosts, gods, while Ayanami seems to house the villain of the piece).

This one revolves around the church where Teito and his new partner Haruken (new friend, close friend, very quickly. He's also from the Oak family which is all in politics and the military, very important and he's more or less disowned because he wants to join the church to fight the kor, sort of demons that possess and destroy people). Teito and Haruken are up for their bishop exams (which would allow Teito free, unchallenge travel so he can track his nemesis)

In the middle of this, Ayanami's crew attack and things go sideways for Teito and he suffers an important loss. He still has to move forward in spite of it.

I do like this manga but it is very convoluted sometimes too much so. I've had to reread a few spots to figure out what is going on. On the whole, I like the art but sometimes Teito's hair is left uncolored and that adds to the confusion.

Nidah (SleepDreamWrite) says

I'm liking the fast pace for this. Makes it a fun interesting read at least.

Amanda says

Lots of action and Teito finally realises how important he is to others. Let the exams begin!
