A MYSTERY BRED IN BUCKHEAD - A Southern Mystery Southern Hospitality and Cold-Blooded Murder In genteel Atlanta society there are worse crimes than murder-such as missing Rippen Delacourt's annual Christmas party, a fifty-year tradition. As amateur sleuth Sheila Travis joins her family and cherished friends at Rip's gala, she never suspects that before the end of the evening, a long-missing, priceless manuscript will turn up in the hands of a disgruntled servant . . . and release enough closeted skeletons to fill Rip's guest list. Someone doesn't want the unpublished novel to come to light-and is willing to make sure it doesn't. As Sheila stubbornly pursues the manuscript, she makes a deadly discovery: the someone who has already killed to keep the papers out of her hands is probably a relative or a lifelong friend . . . who now is drawing a bead on Sheila. Sixth in the series. Reprint edition.

### **Charlotte says**

One of my favorites in this series. (Other favorites are: "Murder in the Charleston Manner" and "Deadly Secrets on the St. Johns") The author is pretty skilled at characterizations (although I occasionally forget who is who and how they fit into the plot, this happens to me in real life too, LOL, and I think it's just me) and her characters are so interesting, so real that you feel like you know them, even the ones who aren't so likeable! There's a couple characters in this book that made my skin crawl! This book is made all that more interesting as the characters involved in the mystery are all lifelong friends of the heroine Sheila Travis's Aunt Mary. And Aunt Mary, usually so eager for her niece to get involved in solving the crime, in this book seems to be doing everything possible to keep Sheila in the dark, to prevent her from getting to the bottom of the mystery. To make this mystery even more interesting the author has interwoven the modern day mystery to one going back to a time when Aunt Mary and her compatriots are young and just starting out. And as usual, the author interweaves history and a "travelogue" of the area into the plot.

---

### **Kathy says**

Another southern mystery for Sheila Travis. This one involves a manuscript that appears and then disappears. It's supposedly the work of Margaret Mitchell and is based on happenings of elderly friends of Sheila's Aunt Mary.

It keeps you rapidly turning the pages

### **Dharia Scarab says**

Since I don't normally write reviews unless I have something specific to say, here's the break down of how I rate my books...

1 star... This book was bad, so bad I may have given up and skipped to the end. I will avoid this author like the plague in the future.

2 stars... This book was not very good, and I won't be reading any more from the author.

3 stars... This book was ok, but I won't go out of my way to read more. But if I find another book by the author for under a dollar I'd pick it up.

4 stars... I really enjoyed this book and will definitely be on the look out to pick up more from the series/author.

5 stars... I loved this book! It had earned a permanent home in my collection and I'll be picking up the rest of the series and other books from the author ASAP.

---

**Jan says**

This was a pretty good read...like the local flavor.

---

**Teri says**

I rescued this book from my local library's throw-away pile.

This was another quick, easy read. I liked it better than the previous book in the series, but I guessed the culprit(s) before the end of the book.

A pet peeve smacked me in the face on page 205. Writers,  
DO NOT address your readers in the middle of a story; it jerks us out of the imaginary world we're trying to  
get in to! Ugh.

I might read more from this series in the future.
