EMILY LOVES WORKING HARD AFTER HOURS AND COUNTING, AND SHE'S STILL AT HER DESK

Emily works in a law firm, surrounded by men and their egos. But among these men, she really liked sweet, handsome Adam. She finds Adam so cute, and so sweet he makes her want to do things to him, even if he is too shy and naive to initiate.

Then one late afternoon, after all their co-workers have left and they are alone working, an accident happens that gives way for someone to start something. Unfortunately, the lucky event is caught by a security camera. And the next day, the feedback, watched by one of the bosses, brings Emily trouble.

She gets a chance to get laid, sure.

Just by the wrong guy.

EXCERPT

“Hey Emily, when you get a chance could we talk about what happened yesterday somewhere private?” Adam's said from her cubicle entrance. “I just want you to know that I really respect you and I--”

Emily cut him off. “Just don't be weird, okay?” Emily said. “Everything is fine and I know you respect me. Just go to work and we'll talk later.”

“Well, all right,” Adam said as if deep in thought. “As long as you are sure that you know that I really do respect you and don't think you are some kind of slut or anything.”

“Adam,” Emily's voice was a hiss over her shoulder at him. “Get the fuck out of my cubicle and go to work. We'll talk later, I promise.”

Emily heard a shuffling noise that trailed steadily to the general vicinity of Adam's desk and couldn't help but let out a sigh of relief.

It was going to be hard enough dealing with Brad, a partner, not to mention smoothing things over with a co-worker who was too nice or naïve to know that she had wanted it just as much as he had so there was nothing

to talk about.

Emily glanced over her shoulder just to be sure Adam had really left and when she glanced back at her computer, she had another email.

The new email was from Brad again and this had a one word subject heading that said it all.

Not really my cup of tea. Thought the premise had promise but it was just not engaging enough to get me on board. Frankly, I got bored with the characters (or never got into them to begin with) and just didn't have much interest in the book as a result.

Michelle Randall says

This is labeled as EROTICA, please do not read if you are not comfortable with this type of story.

Emily works hard at the firm, and she does a good job, although sometimes she feels a little overlooked. Adam works across from Emily and although he is a little shy, she thinks he is cute.

One night, Emily and Adam are both in the office late when things occur that lead to a little office romance between the two. The only problem, the security camera is aimed right at Emily's desk!

The next morning when Emily comes into work she finds an email from one of the firm partners that she dislikes most, Brad. He has seen the tape and has an offer to keep quiet. Oh heavens.

This is slated to be the first in a continuing series, therefore the higher star rating because it gives it a more true like, or life like story. As a reviewer, I like the ones that tell a story, not just a single encounter.

The NOOK version of this story is available at barnesandnoble.com for FREE.

DNF at 50%

There are not many books that I can't finish, but this one falls into that dubious category. The premise initially interested me, but the MC was pretty awful. She had zero backbone, and zero morals. I'm all for a woman being in touch with her sexual identity, but this woman... ugh! There was nothing remotely likeable about her. I liked Adam, but he was not nearly enough for me to want to keep reading this tripe. I wish this author had gone in a different direction with this one.

Felicity Nichols says

This was a quick hot read about Emily who works hard and gets caught on camera blowing a co-worker. This leads to her manager blackmailing her into servicing him.

I enjoyed this quick read but felt like it was rushed a bit and not quite enough detail. It does have potential and I will read more from Green.

Sexy but do I see spelling errors?

it was an entertaining read. although I admit I was distracted by the choppy flow and unsure if "go with the floor" is supposed to be "go with the flow"

Mary Roy says

It was interesting story about a BDSM Mistress trying to go straight. But she gets found out when she and a co-worker fool around in the office.

This story is a sequel with several books to follow.

Jessica Bryan says

If I could give these no stars or negative stars I would. The MC was horrible, and I guess that was the point, but she also seemed to have no morals. At all. I am all for a girl being open with herself and doing the things that make her happy. But she was really okay with doing all of that at her job? Didn't even bat an eye at it? No way. It literally was like reading a porn script. And nobody want's to read a porn script, if I wanted something similar to a porn script I'd just WATCH a porn.

Katie says

I can't believe how demeaning this book seems... I like a strong female MC but I truly didn't buy into this story... it seemed more like blackmail rape with the boss than it was hot... I liked Adam but the rest was just not good...

Christy says

I barely finished this one, and it was short. The blurb for part 2, did nothing to ameliorate my criticisms. The characters were superficial, the background info provided disjointed, and the writing itself frequently confusing. I found myself re-reading passages thinking I had missed something to explain either some dialogue or segue. Consent was dubious and dealt with poorly. I just didn't get it.

Leticia says

I wish I could give this 0 stars. The book was free and I paid too much for it - I paid in time spent reading it, and that's a half hour I can't get a refund on. Characters were dry and lifeless. The whole thing seemed just...demeaning. (And I don't have a problem with erotica or adult reads, but I do expect them to have an iota of class.) The second portion seemed to be an outlet for the author to complain about the NSA and how they screw over Americans and take away their privacy. It was out of place and actually disgusted me more than the erotica, simply because I got the impression that the author used it as a sounding board to vent her opinion. If you're going to write an erotica, write an erotica - not an essay on the morality or lack thereof of the US Homeland Security policies.

This took a wrong turn

I am giving this book a 2.5 star rating. The reason for this high of a rating is because of the beginning storyline between Emily and Adam. Emily is an intelligent woman working at a law firm as efficiency specialist. There wasn't a name given to her job and I thought that sounded good. Adam is one of her co-workers. Emily can tell he likes her but he is such a gentleman that he doesn't know how to ask her out. He compliments her on coffee, remembers small things that she likes, and gets her gifts. Emily likes how naive he is (and how cute also).

One day something happens after hours at work between Emily and Adam to where it opens up a door for both of them to show how they feel. However, it was filmed on the security camera and later watched by one of the firm's partners. That partner blackmails her into being sexual with him.

I thought this would have been a good story of Emily defiling Adam. You later read in the story that Emily was a domme before she came to the firm. I thought she was going to open up a window to Adam's sexual side. But this plot took a whole other twist and Emily just ended up looking like a slut.

This was something I didn't expect towards the end. I also read the excerpt from the next installment and I would not recommend this story or the next. It could have been better, in my eyes, but I will let readers come to their own conclusion.
