Dragon Sass

Selena Kitt

Dragon Sass Selena Kitt

Blue Creek needs a dragon. There's only one problem—they don't exist anymore. Or do they?

Kai is just trying to live the quiet life of a billionaire recluse. He might still like spicy food and spicy women, but he sacrificed his dragon's heart over a thousand years ago and hasn't been able to shift since.

But Kai's old nemesis, Nigel, has come back—from the dead—and the old Necromancer has his sights set on the wolf shifters. Nigel is wreaking havoc all over Blue Creek and, unfortunately, the only thing that can kill him is dragon fire.

It's feisty, orphaned horsewoman Jules, whose therapeutic ranch is in serious financial trouble, who holds the dragon's heart—and she doesn't even know it.

But renowned shifter-matchmaker Barb Wolfe knows—and this is the most important match she'll ever make. The whole town, and maybe the entire shifter race, depend on it.

Ana says

I absolutely loved this heartwrenching and heartwarming story!

Jules is heartbroken knowing that sooner, or later she will have to start selling stuff to keep her beloved therapeutic horse ranch afloat, even then she might lose it, but she will accept help from no one..Her friend wolf shifter Barb wants her to meet with her friend, a retired investment consultant, what she doesn't know is that Barb is really trying to set her up again. When Jules takes one look at what she thought would be a retired old fogie, her heart leaps to unheard of bounds.

Kai has spent milenia unable to shift to his dragon form, he sacrificed all, so that his mate his love could live all those years ago. Can it be possible to see an angel on earth, it's what he feels and hears when Jules gets up on the stage to sing. All that he thought dead comes to life again in a moment, who cares about his dragon! That angel has to be in his arms.

A love that trancends time, never saw that coming and I loved it.

This story had me crying and jumping for joy..What a rush!

Jane says

Great read.

Great story. Interesting characters. Good plot. My only problem, the entire thing felt rushed. There were chunks missing in the middle and end that would have really added to the story, but while there was a bit of explanation it was missing, and there story suffered for it.

Cherri-Anne says

Life isn't worth living without love 5 DRAGON HEARTS

The damsel might be in distress, but she obviously didn't need rescuing. Or she thought she could rescue herself. HOWLING DRAGON FIRE, BATMAN!! What a JULES of a story!! One to make my heart burn with magical flames of eternal love! Okay, that might be a bit much, but it sure does fit the story! It's SASSIFIED! It's... it's SELENA-FIED!!! I'll take an order of sweet & sassy with a fiery kick & a side of shifters, to go please! And a mug of dragon sass! In other words, I'd love another Selena Kitt paranormal book please! And just keep them coming! I've got all the time in the world. And besides, I need something to distract from the karaoke howls! LOL I was completely enchanted from start to finish! I love how enriched the story is with the history, magic & wonderment of it all! Having characters that you can immediately become, sinking into the story to see & feel through them, as well as the descriptive storytelling adds even more depth & enrichment as well! I ABSO- FLAMING-LUTELY love, Love, LOVE the magic and uniqueness of Selena's dragons!! And the surprise link to some other stories?!? LOVE IT!! In fact I can't find

words to express just how much I loved those parts & features!! But again, that is alllll Selena! It is truly MAGNIFISELENA!! This is a really good story, a really, REALLY great story that had me from the start and I only took my eyes away long enough to skip a bit ahead a handful of times. The reason being is that.. YES!! It is a helluva great story, but there's also the "DA-AHM! That's gross/sick parts! There's a necromancer...need I say more?? My imagination is active enough as it is! Transporting into the story, experiencing & living the story through both Kai and Jules, feeling for them, with them and even as them as they live through & remember the devastation & sadness that life has dealt them had me bawling, but the funny times, the teasing, the Bat Cave and Alfred had me giggling and grinning like a fool! And then there was the hot, Hot, H-O-T times too!! *fans self* Good thing I was alone when reading it! ;) I was captivated, held spellbound in the magic & power & love of the story and loving it so immensely, I was soooo disappointed when I reached the end! In fact, I was loving it so much I wouldn't EVER be ready to say good-bye! Well, all except for previously mentioned gross parts, but I am a tad sensitive, so I'm glad I didn't read it right before bed! Of course, the reason that I was so attached to the characters, so transfixed, so immersed in the story is solely because of Selena's dragon-sized talent and her genuine gift for storytelling! I mean, seriously! If it wasn't for Selena's magical writing, I doubt I would have read past "the hanging" part! (Sorry! I can't really tell you the part because it would be a big spoiler!!) What I am trying to say is that Selena's magic was flowing strongly, all around & through me so that I was truly living the story as the characters, so everything was experienced tenfold - the good, the great, the hot, as well as the sad and gross parts. I almost want to say that Selena is too talented, too great of an author, but I don't think that is possible, nor would I want her to change! So if you are looking for a unique dragon shifter story that is hot, funny, sad, loving, with twists & surprises and so DRAGONTACULAR you won't be able to put it down, then this is THE STORY FOR YOU!!!

Nikki Brooks says

Kai is a Dragon shifter who due to an evil spell cast a millennia ago is no longer able to shift into his Dragon. He didn't only lose his dragon but also the chance of claiming his mate. He brings a whole new meaning to the phrase eternally lonesome! Yes he's got money but no-one to share it with.

Jules owns a horse ranch and decides to sell some jewellery owned by her late mother to get some cash. But she may just get more for the heirloom than she expects!

Jules is endearing and Kai is alpha to the core! He is all dragon, even when he can't shift. He knows the value of the treasure he finds in Jules. Wonderful story and engaging, empathetic characters and snappy dialogue galore!!

I received an Advanced Reader Copy of this book for my honest review of the book.

Ti says

A quick read with minimal tie-in to the series, but nice in and of itself.

Sharon Richmond says

Dragon Sass by Selena Kitt 5 Hot Stars

OMG I freaking LOVED this book!! It stars winding you up with the first chapter then has you gasping towards the end.

Kai is the hot sexy Dragon man who never thought he would ever shift again. A magical spell that was cast years ago cost him not only his mate but his shifting powers.

Jules or Juliette is a simple ranch owner trying to make ends meet. They only thing she has left to sell is a necklace passed down from her mother. but is it worth anything? Not what you might think.

Fantastic Read! Loved, Loved , Loved it.

Recommend mature readers. PNR lovers are gonna want to read this one.

Vettech says

My very first read of this author. I do love a good dragon tale and this one was such a cute story of the eternal love between a dragon and his mate that spanned a thousand years. Loved having the Sassy Mates series of beloved Wolfe clan in this book too.

I look forward to reading more from this amazing author!

Yvonne Daniels says

Sassy Ever After: Dragon Sass

by Selena Kitt

???????????

I loved this book! The characters were so rich and beautiful! Jules is a spirited, head strong, no-nonsense horsewoman (she is really a horse whisper). In the small town of Cold Creek, needs a dragon who is protector A series of events happen and Jules finds herself in being setup to fall in love with a dragon unbeknown to her by her alpha's mate. Kai treats her kindly but is understandably aloof because of past events. The story is told from Kai and Jules POV so we get to know how Kai is feeling and we get a feel for his dragon. I definitely felt her despair at being isolated and lonely. I would love to read a follow up story for them! I just finished reading Dragon Sass and have fallen in love with this book. A uniquely awesome read, it's so well written and the characters appeared quite believable. The yearning of unrequited love, the pain of loving someone with all your heart and having that love returned in kind is so heart warming. Upon the conclusion, you discovered the reason behind the curse and again, your heart breaks for the pain on his side. I thoroughly enjoyed reading this, and I believe others will as well. If you love dragon shifters then you will certainly love this one, this is a must read for you. This is, in my opinion, a 5 Star piece of calorie-free brain candy—and that's good. That's what I want from my fiction. It is an interesting storytelling and an enjoyable

story. I actually love reading this and it's a fantastic read.

Blue Creek needs a dragon. There's only one problem—they don't exist anymore. Or do they? Kai is just trying to live the quiet life of a billionaire recluse. He might still like spicy food and spicy women, but he sacrificed his dragon's heart over a thousand years ago and hasn't been able to shift since. But Kai's old nemesis, Nigel, has come back—from the dead—and the old Necromancer has his sights set on the wolf shifters. Nigel is wreaking havoc all over Blue Creek and, unfortunately, the only thing that can kill him is dragon fire. It's feisty, orphaned horsewoman Jules, whose therapeutic ranch is in serious financial trouble, who holds the dragon's heart—and she doesn't even know it. But renowned shifter-matchmaker Barb Wolfe knows—and this is the most important match she'll ever make. The whole town, and maybe the entire shifter race, depend on it.

What a unexpected delightful romance with a dragon. A surprising twist and spellbinding the whole way through. Thoroughly enjoyable and fun to read

Compliments to the author. The book presented the characters well and included excellent history of the knowledge of magic. Thanks. Your characters are full, rounded and interesting, your plot rises and falls like perfection. You make the rest of the writers mourn our inadequacies just a touch. The only thing is that the main characters are well developed characters and it seemed to have that bit of fun in the book it stalled the story a bit in that section. Over all I have to say to you is Selena Kitt you are so fantastic! I am very impressed with this book; the writing is excellent and the storyline kept me guessing till the last chapter. An element of mystery is woven into the storyline that kept my (electronic) pages turning late into the night. I've read several books by this author, and so far, Dragon Sass is a favorite.

I felt so much tenderness and sense of falling in love when each couple first met his mate or mates. I feel that each one of these authors are true masters of storytelling.

Unbelievable entertainment. If this is not the kind of stuff you like to read, skip this book. However, if you're a fan of all things naughty, sexual tension, action and humor, this is perfect for you. Enjoy! If you love romance and in need of a pick up this is definitely a fabulous choice for your TBR list. I recommend this series to everyone who loves a good love story. #SassyEverAfterKW

If you believe in the world of love and romance then the possibilities are endless and fascinating.

Katherine says

Barb I love you can you please Set me up with an immortal dragon who. Has lots of money and makes my whole world spin. No. So nor happy guess I'm just going to have to read agian

I am going to have to Ho read a heap more of Selena's books as I loved this one so much. The characters are brilliant and the world us so full of richness. Bring on the rest

Linda says

Wonderful!

This book had it all. My beloved wolf pack and then added to that a hunky Dragon. A nasty necromancer wants to destroy Kai after having failed a thousand years ago. I'm telling you this book was awesome.

Reva Parks says

I am not usually into the paranormal and this book actually lived there, midst the wulvers, with opening scenes in the Wolf's Den! But with the heroine about to lose her horse ranch and the hero introduced as a dragon who has not been able to shift for a thousand years, I am so glad I stayed with it!

I received an ARC copy for an honest review: -five stars for a well written, suspenseful, creative romance!

RetiredHsMom says

Loved Kai

I enjoyed Kai from beginning to end. I'm hard pressed to recall a moment in the story where I didn't like him. Oh and he's a dragon so that makes him doubly hot! Who cares that he can't shift?!?! *lol*

I loved how spunky and independent Jules was. Luckily for her Barbara Wolfe and Kai are more stubborn and didn't give up.

This was a fun edition to the Sassy Ever After series.

April ♥"LOS" ♥ says

I absolutely loved this book! I should start by saying that I'm a sucker for dragon shifter novels and this one did not disappoint. I loved the connection that Kai and Jules form with each other and then discovering that she is his mate was just icing on the cake.

Kai has resigned himself to a life without shifting. After giving up his heart to save his mate, he has been trapped in his human body for a millennium. Little does he know that in the sleepy town of Blue Creek there is the woman who holds his heart and has the ability to release his dragon.

Gay says

Fantastic book! Loved it. This well written tale has wolves, passion, kidnapping, dragons and their riders. What more could you want? A story you could get your teeth into.

Judy says**Wonderful**

What a wonderful book it mixed old and new reincarnation and immortality what a great romance and shifter book definitely worth reading
