**London Growl An Ian Dex Supernatural Thriller Book 4** John P. Logsdon , Christopher P. Young  
*London Bridges Falling Down...and werewolves, too!*

Power, struggle, and misery fill the Netherworld factions living in London. Their history is vast and their connections are made of steel. In particular, the werewolves have built up a stronghold that has stood the test of time.

Unfortunately, there is a new uberwolf who has taken over the werewolves of London and he's bent on proving that he is the most powerful creature in all of the supernatural community.

In an effort to prove himself, he has kidnapped Ian Dex's ex-partner, Rachel Cress, using her as bait to lure Ian across the pond.

Life sure has its moments.

In order to track down Rachel, Ian must team up with her current London PPD partner. The guy seriously idolizes James Bond. Worse, the cop Ian brought along from Vegas is Harvey, a werebear who fancies himself as being like Sherlock Holmes.

Again...life.

But it turns out there's more to this than simply liberating Rachel. Ian must win the battle against the biggest werewolf he's ever seen. If he fails, the meager expanse between life and death may just open up and swallow them all.

If you like Jim Butcher, Domino Finn, Michael Anderle, M. D. Massey, Rick Gualtieri, Orlando A. Sanchez, K.F. Breene, Shayne Silvers, Ilona Andrews, Brad Magnarella, Patricia Briggs, or Kim Harrison...you'll have a blast with the fourth book in the Las Vegas Paranormal Police Department.

**John says**

**Awesome possum**

I can't say enough about how good the three books are. I asked the crossover of Simon and Monty, brilliant, I read their side first and that made me want to find this book. I hope that there will be another crossover story with these characters. Thank you!

---

**Natalie Fallon says**

London gets the Dex Treatment?!

This fantastically funny urban fantasy series about Ian Dex and his team in the Las Vegas Paranormal Police Department started with The Merging, was even better in Grave Creatures, yet better again in Blood Bane Tower and has now gone across the Pond for this adventure in London (will he ever be allowed back?!). The humour is there from the start and the team are all the better for being fun, sarcastic and neither perfect nor pc. There is a great mixture of laugh out loud humour, action and storyline in this addictive series which kept me wanting to read more even though I knew I had to get up early for work in the morning?! I am enjoying seeing this great series developing and absolutely cannot wait to read more!

---

**PJ Lea says**

?????

Supernatural shenanigans in London for Ian and his werebear partner.  
I've got to say that Harvey adds a special blend of humour to this story. Nice one.

---

**Christopher Ogden says**

**Slight improvement.**

A slight improvement over the previous books. Not quite as immature as the others in the series. Might read the next one to see if this trend holds.

---

**Beth says**

Not as good as books 1 & 2 in the series. More akin to book 3 at 3-3.5 stars. Still in the mood for the series

so onto the next book.

---

## **Curtis says**

### **Pun Slinging Fun**

This story is a little goofier than previous book, and offers up mayhem and double-speak in equal measures. Cross-over character scenes also appear, and are done with a skill that doesn't detract from any of the characters or the plot. The larger plot moves a few glacial inches, but the immediate plot resolution is nice. All in all a fun ride. Recommended.

---

## **Noah K. says**

### **Where's the Wolf? Next to the Werebear**

Everyone has had a trip with their annoying, but loyal, friend before, but I bet yours didn't involve quite as much burning fur.

Ok, maybe I'm wrong. I don't know you. Anyway... That happens to Ian and it's funny, entertaining, and realistically romantic. A very good series that people who don't kick puppies read.

---

## **Bonnie Dale Keck says**

kindle unlimited, I give up at least for while, figuring out new ways to ponder the state of the writers' psychosis, just read the books and you'll see why, but hey 2 writers so twice the psychosis for the price of 1, plus your sanity.

A kidnapped former partner. A trip to London. An uber werewolf who has something to prove. Millionaire playboy and Las Vegas paranormal police chief Ian Dex hit a bit of an emotional snag when his long-time partner, Rachel Cress, made the decision to join the London Paranormal Police Department (PPD). When word comes in that Rachel has been kidnapped, Ian rushes off across the pond in order to save her. But in order to track her down, he must team up with Rachel's current partner, a man who clearly idolizes James Bond. It's even worse because Ian's current partner, Harvey the werebear, decides he wants to play the part of Sherlock Holmes...

To save Rachel and stop the unleashing of werewolf hell on London, Ian has to go toe to toe with the biggest wolf he's ever seen. If he fails, the meager expanse between life and death may just open up and swallow them all...

## **Dick SantaCruz says**

### **Doggone good book**

Excellent urban fantasy. The main character a refreshingly fun to follow. Great action. I have read all the books and each one is great.

---

## **Mark Brown says**

This is another great adventure from the Ian Dex series. This time around it's in London and Ian and his werebear partner have fun with some werewolves. It's packed with action and laughs and can't wait for the next one.

---

## **Larry Tushman says**

A hilarious romp through London. Ian tries to track down Rachel while dealing with cosplay Bond, cosplay Holmes, and his feelings. A little more is revealed about the supernatural past as he gets a visit from the Ghost of Amalgamation Past. Fun series.

---

### **Karsyn says**

LOVE this series. It's so comical and fun. Ian is a great character, as is EQK, my other favorite. He's soooooo freaking funny.

These books are great for a quick read and a good laugh. Will be sorry when the series ends, or if it's still being written, then when I have to wait for more.

---

### **Rosalind Bath says**

#### **London Growl**

Another great instalment of Ian Dex's adventures. Read it in one day, as couldn't put it down. Love the way the writing just flows. Great humour as always too!.

---

### **K Portig says**

This author team delivers again. This time it's set in London and sees Ian Dex set out on a mission that's very close to his heart. It's fresh, funny and entertaining.

---

### **Denise King says**

Watch out London, Ian aims to find Rachel. Loved this addition to the Ian Dex series. Rachel has transferred to the London PPD, and Ian has been dealing with it by trying to break in a new partner - until Rachel is kidnapped! Ian throws caution to the wind and takes off to London where both new partners, and the new Uber bad guy werewolf step on every last nerve he has. Loved the M&S series cameo too! If you like paranormal action adventure with a touch of mystery, read this book.
