Love in Disguise Julia Kent , Steena Holmes , Opal Carew , Vivi Anna , Cathryn Fox , Kate Laurens , D.L. Snow

Maliciously Obedient by Julia Kent - One playboy CEO. One curvy, determined administrative assistant. One hidden camera. What could go wrong? Lydia Charles never expected that an actual romance would interfere with the business of romance as she prepares for a marketing presentation. When CEO Michael Bournham agreed to disguise himself as middle-manager Matt Jones, he didn't include falling in love in his bottom-line calculations. Keeping his hands off Lydia's luscious curves was becoming an exercise in restraint, but what was harder? Keeping his heart from her.

Revealed by Steena Holmes - One moment of passion at the hands of a sexy masked man is about to crumble Eve's dream of becoming a success as a pastry chef. Will she bury her desire for love or will she look beyond the mask to find the man who ignites a fire in her soul?

The Cinderella Obsession by Amber Carew writing as Opal Carew - Can Vanessa risk falling in love with a man obsessed with a fantasy woman — even though that woman is her?

Vanessa always wanted to be Cinderella. Taking the opportunity to attend a lavish masquerade ball - even if she wasn't invited - is just too delightful an opportunity to resist. When Nicholas Powers drags her into his arms for the most explosive kiss she ever experienced, she floats on cloud nine. It is a fantasy night she'll never forget, even though she knows she would never have a chance with him. Especially when she winds up working for him as a temp and sees him obsessing about finding his Cinderella... a fantasy she can never fulfill.

Nick had never felt such fiery passion as he did when he held the dazzling beauty in his arms. She aroused him as no other woman could, then she ran away with his heart, leaving behind only an antique glass slipper earring. If only the mask hadn't hidden her features. Knowing no other woman could ever make him feel the way she did, he swears to find her and make her his. Why, then, does his little spark of a secretary make his pulse quicken?

The Vampire Affair by Vivi Anna - Makayla Bradley risks everything including her first job as a journalist to get the goods on billionaire playboy businessman Jonathan Devane. A man who enthralled her from a single passionate kiss months prior in a Toronto nightclub. A man who makes her blood race and her insides throb. A man with dark secrets...

Torn Between Two Brothers by Cathryn Fox - A case of mistaken identity unveils seductive truths and exposes erotic desires.

Lauren Gray loves everything about Adam Wilson, from his zest for life to his roguish good looks and his wild, wicked ways in bed. She can't, however, deny that his absence during the week poses a problem for her, but as a commercial pilot, he spends his weekdays flying. Nor can she deny that while she loves their frantic lovemaking sessions, there are times when she'd like to shift things into slow gear.

When she discovers Adam home during the weekday, draped in darkness and asleep in his bed, she isn't

about to question her good fortune. She slips between the sheets with him and attributes his achingly gentle touch and soft, sensuous kisses to his mellow state. Except come morning she realizes that it wasn't Adam who was searing her body with his slow, sultry lovemaking, it was his brother Garret—a race car driver who, unlike Adam, is home during the week and uses a gentle hand in the bedroom.

Lauren can't help but think that separately the brothers are amazing, but a combination of the two makes the perfect package. And when this good girl realizes she's torn between two brothers it has her thinking about breaking all the rules...

Love Me If You Dare by Kate Laurens - It's been three years since Kaylee Sawyer has been home--home to the alcoholic mother she can't handle, home to the painful memories of her sister Ella... and home to the guilt she's carried for years. About to enter her final year of college, she is determined to come to terms with the mess of her past--and to ignore Dylan McKay, the guy whose single kiss has been tattooed into her mind forever.

Thief of Hearts by DL Snow - Happily ever after? Zaina doesn't believe in it. Now revenge on the other hand...All she has to do is: cut her hair, dress up as a boy, call herself Little John, join the traveling circus, guard her soul against the evil sorceress, battle dragons and avoid the lethal tip of the mysterious Lord Hood's blade. Yes, that Lord Hood. The one she's utterly and irresponsibly in love with.

An interesting compilation. I love Cathryn Fox's "Torn Between Two Brothers", it's hot and fun and something to aspire to LOL. The first story, Malicious Obedience by Julia Kent had me locked in but I was so bummed when it just ended. I'm not a fan of splitting a perfectly good story that could be a nice sized book into three mini-books...I just think it's a way of getting more money and it does nothing for the story. I'm not sure I want to put out for the other two to see if she gets her HEA. There was only one story in this anthology that I couldn't finish, overall this was a big book of hot hot stories!!!

Finest_line says

This is an amazing box set of book with an outstanding price!!! If you only buy it for one reason buy it for the book Maliciously Obedient.....

In Maliciously Obedient Lydia is between that rock and a hard place we all don't want to find ourselves.....she is lustng after her boss. We have all lusted after a forbidden person before. We all have had that total day dream of the boss taking our body for his pleasure right on top of his desk. For Lydia then enters another problem Matt Jones. A man she must hate for taking her job, but she can't get her "new" boss out of her mind. I was originally attracted to this book for the undercover boss plot. At first all I could think about was the TV show and how ridiculous Matt must look in his disguise. The book did take a number of unrealistic turns that made it LOL funny and made you wanting to see just what would happen next. This book was a refreshing read from what is out there and a great start to a new series.

I was gifted this book bundle in exchange for an honest review. I really didn't like the first two books, but the stories got progressively better as I went on. I reviewed each book in the bundle individually and I have put the links to each review in this review. Overall, the bundle was entertaining and enjoyable. The good stories far outweighed the awful ones, in my opinion!

Wow, 7 stories for under \$1. If you are looking for a new amazing author to follow then start reading here.

This collection starts with Julia Kent's sexy version of Undercover Boss. Personally, I like her take on this scenario far better than any of the televised episodes. One boss undercover, one beautiful assistant... how could falling in love ever be so complicated? Don't forget to read her follow-up story to see how this relationship all plays out. It is work purchasing this box set even if you only read this story.

Steena Holmes sets her characters up at a masked ball. Will those masks get in the way of true love? This is a very emotional story that leaves you wanting more. I sure home Ms. Holmes is planning a follow-up for this one.

Opal Carew gives us her version of the classic Cinderella tale. I especially enjoyed her twist on the glass slipper.

Vivi Anna provides a story of revenge turned into seduction. Sometimes one taste--a kiss or a bit--is just simply not enough. This story is certainly unconventional and throws in several complicated side stories that threaten the main characters love.

Cathryn Fox's Torn Between Two Brothers, while certainly enjoyable and worth reading could use a bit more of a back story to fill out this very short story. But if you are looking for a sexy story to read on your break, this is a great one to pick up.

Kate Laurens' Love Me If You Dare is the most emotionally written in this collection. The characters are well written and Ms. Laurens is able to draw the reader into their lives. Her story shows us that we must come to terms with who we are and our pasts' before we can ever really love another.

Thief of Hearts by DL Snow was the only story that I just couldn't get into. I believe this is just a personal preference and not due to the craft of the story. Even without finishing this last story I still rate this collection at 5 stars as the other 6 stories far surpass my expectations.

**Note: I received a free ARC in exchange for an honest review. Even though I received it free I still feel the box set is worth the full price of over \$28.00 and a steal at only \$0.99. Don't wait, get it now.

Anytime I see Julia Kent has a new book it is an auto buy for me! And to get 7 books for .99 you can't go wrong. I had read Opal Carew and Vivi Anna before and enjoyed there stories also. The other authors were new to me. A great deal!!

Cahm says

To be honest, I already own Maliciously Obedient by Julia Kent, it is the reason I bought this boxed set. I enjoyed that one book so much that I figured when paired with like authors and a similar theme I could not go wrong. I am so glad that I hit the "one click" button on these seven books .

All seven stories have merit, they all have those sexy-time elements; that is why we buy these books. The originality used by the authors in getting the characters there is what makes these stories great.

I am excited to have had the opportunity to get to know a few authors I had not read before (another reason to get this boxed set). I do not know if it was intentional but most of the authors are Canadian... does it matter to your purchase? I have no idea, but on my top twenty list of favorite authors quite a few are Canadian.

I recommend this purchase to anyone interested in erotic romance with themes that are original, make you laugh and send you to the kitchen for an ice cold beverage to cool off during the reading.

Stacey says

loved this book already posted this on amazon awhile back ago and loved each book and found now i need to read other books to see what happened in some of the stories that were in this book that had more than one book aside from the ones here like Revealed by Steena Holmes and others like Sfe Haven book 1 and 3 the 2nd book is in this set but you will find books you will want to read . if you love to read this is most definately the book for you ... as i love to read whenever i get the chance to do so ... i wrote more on this but to remember the long essay review i did i think ill keep it simple but know within each book there is an adventure anywhere between romance adventure mystical magical realms dragons sword fights princess's prince's and so much more read to find out you never know where the adventure will take you next . now buy then read then review and let the reading adventures take you where you want it to .. and read on til next read and review

Seriously?

Not only is this bundle an AMAZING deal, but it's done by fantastic authors (Julia Kent being one of my absolute faves!)! Absolutely a worthwhile buy. You won't be disappointed!

Jodie Williams says

Julia Kent's Maliciously Obedient alone is worth the purchase.....

Love Lydia and her confidence. She is sassy and sexy. She never misses a chance to best her absolutely all male all alpha boss who came out of no where and stole the promotion she has been working towards for two years. Of course he is sexy and cocky. Who doesn't love an alpha. Bonus, he just happens to be a billionair in disguise!!!

Continue the great story with the sequel Suspiciously Obedient.

I highly recommend!

Can't wait to dive into the other books!

Jammie Bebout says

\$.99 for 7 steamy romances? Where's the downside here? Throw in the fact that you're getting stories from such authors as Julia Kent, Steena Holmes, Kate Laurens, and DL Snow... and it's winner, winner, chicken dinner!

My personal favorite is Julia Kent. I would have bought the book for Maliciously Obedient alone. The sexual tension in that book will have you on the edge of your seat throughout. Julia Kent manages to make her characters very relatable, even almost billionaire and resident sex on a stick Michael Bournham, aka Matt Jones... and I don't think there's a woman in the world who can't identify with Lydia in one way or another. You just can't help but become invested in the lives of these characters.

If you would enjoy being immersed in a world that will take you from romance, seduction, and love triangles to masquerades, fairy tales, and fantasy and everything in between, this is the book for you. You simply can't go wrong in purchasing this book!

Wendy says

What a deal!

This collection starts with off with Julia Kent's hott version of Undercover Boss, so much better than the televised episodes. One boss undercover, one beautiful assistant... how could falling in love ever be so difficult and complicated? but as you know it's always complicated or it wouldn't be a Julia Kent story line!

Steena Holmes characters are at a masked ball. Can they drop their masks or will they let them get in the way of true love? A very emotional story, leaving you craving more.

Opal Carew gives us her take of the classic Cinderella tale.

Vivi Anna provides a story of revenge that ends up turning to a seduction.

Cathryn Fox's Torn Between Two Brothers, is an enjoyable short story. A great read if you only have a short time.

Kate Laurens' Love Me If You Dare is the most emotional in this collection. Well written characters and Ms. Laurens is able to draw readers into their lives. This story line shows how we must come to terms with who we are and our pasts' before we can ever really love another person.

Thief of Hearts by DL Snow rounds out this collection.

5 stars as the 7 stories far surpass my expectations. As a huge Julia Kent fan I love to read anything she is associated with. This did not disappoint!

**Note: I received a free ARC in exchange for an honest review. Even though I received it free I still feel the box set is worth the full price of over \$28.00 and a steal at only \$0.99. Don't wait, get it now.

Jenna Howard says

There's just something about sexy books. Oooh la-la. And the majority were set in Canada, written by Canadian authors so that was fantastic.

So my feels on this?

Maliciously Obedient by Julie Kent

I loved the chemistry between Matt/Mike and Lydia. And Jeremy is a fantastic character. His tuxedo alone has me grinning in memory. There???'s a great cast of characters in this though I wish more had been done with the Dave character, especially in his comeuppance.

This is a smexy story and I love that Lydia is a curvy, sexy being with brains.

I did feel like more could have been focused on the story and less on showing stats of romance and what-not, it pulled me from enjoying the story and I felt like I was sitting in a meeting when I wanted to be reading a

story.

I???m going to have to pick up the second book to find out what happens and I wish there had been a warning I was gonna be thrown off a cliffhanger but I did enjoy the story.

4 stars (I was going to give this 3.5 because the cliffhanger strangle on my Kindle but to hell with that???this book was smokin??? hot)

Revealed by Steena Holmes

As usual Steena Holmes has me craving chocolate as I read one of her books. This is an earlier book of hers so those who are fans of her Women???s Fiction be warned???this ain???t no women???s fiction. It???s sexy.

I admit to being a bit confused with this short novella with the relationship of Eve and Christian/Kris. Yes it was explained to me but I was still a bit baffled. A lot was packed into this mini ??clair (ha!) to the point where I wished it was a little longer (because who can eat just one mini ??clair?) There???s a great band of secondary characters, which is one of the author???s strong points.

4 stars

The Cinderella Obsession by Opal Carew

I???ve never read Opal Carew and this was a great way to meet her words. I know from working in a bookstore I was reading Opal-lite, but I enjoyed it.

The book was a cute sexy meet of Cinderella and the Fifty Shades fad of the billionaire boss. I did start to get a little irritated with Vanessa since her conflict felt a little flimsy. A story where her conflict centered around not knowing her boss (whether he???d fire her or not) grew a little tiresome if she had just gotten to know her boss, Nick. It got a little ho-hum but Nick was such a great character. For a short, fast read, there was a lot of growth with Nick. He was sexy, funny and deelish. He made this story for me and made me forgive my annoyances with Vanessa because I just wanted to watch him figure it out. Not so much his Cinderella mystery but figuring out himself. Like I said, there was a lot of development with his character in the short story.

4 stars

Vampire Affair by Vivi Anna

I knew I was going to have some issues. I have a tough time with reporter heroines. I find them a little too vindictive and I find myself scratching my head at the dumb things they'll do for a story. Mak is no different. She's a woman scorned, a gossip rag reporter so naturally she's going to dig up the dirt on the guy. And I was just a little "Well...this is nothing new."

Until the one lines started to zing through. Holy cow. I found myself chortling over so many of them.

Referring to his scent as "aerosol heroin"

Her: "Hm.mm, I think I would remember ordering a man with a flower."

Him (after a bj): "Good, God, woman. Where did you learn to do that?"

Her: "Porn."

And by far my favourite: "This was war. And I was Sun Tzu."

My issues with Mak paled with how much enjoyment I got out of reading this. Yes, it's a serial and I'm now drumming my fingers for Part Two because I'm sorry...Jonathan is just supremely yummy, the one liners make me giggle and I kinda want to see Mak get her comeuppance when the gig is up because I bet it will be delicious. And holy cow this cover is hooooooot.

4 stars

Torn Between Two Brothers ??? Cathryn Fox

Holy shamoly!!!! This was one hot, smexy read. Wish it was longer. Just became a fan.

There???s some about a guy who drives fast cars but is slow in bed.

Loved the chemistry between all the characters. Oh how I wish this was longer.

5 stars

Love Me If You Dare ??? Kate Laurens

Loved it.

LOOOOOOOVED it.

Oh man. The growth of the author between book one and book two blows my mind. Blows it. I can totally tell the author hit her stride with this book. Damn it...Where's my 1/2 star? Screw this...I'm upping it just for that growth.

I loved Kaylee in book one. You could see that she had problems and watching her come home was just all kinds of delicious dark and twisty. Kaylee's struggle with her identity of the good girl she used to be, the party persona she adopted and university and then the whole tangled mess it becomes when she comes home was brilliant. She's lost. And she knows it. Yes, we saw Serena & Maddy from book one but they didn't really factor into this. Where the magical relationships were in this book was the "kids" (yeah...my age is showing) she grew up with.

And then we have Dylan McKay (nooo....not 90210 Dylan McKay (yes...my age is showing again.)) the boy she could never quite forget and is why it never clicked with her university boyfriend. The bad boy...who isn't a bad boy anymore. He's the opposite of Kaylee. The same heartache that sent her careening is what gave him focus, it inspired him to change his life. Kaylee is lost and Dylan is found. And their chemistry is off the charts.

I can't wait for more of this series. I'm a fan. And I'm not so patiently waiting for the next one.

5 stars

Thief of Hearts by DL Snow

Okay - this right here is the dealio of this amazing box set because this is all three stories in the Thief of

Heart series. So yes you're getting 7 authors but 10 books. Who doesn't like bonus stuff!

Thief of Hearts is a Robin Hood tale and man he's my fave. I heart Robin Hood to the point that one summer my friend and I had a marathon of all the Robin Hood movies - Disney to Costner to Flynn to Mel Brooks. Good times. But I digress.

I loved watching Zaina plot and scheme her revenge. I like that she's such a pro-active heroine. No waiting around to be saved for this girl. I love the pairing up of Zaina/Little John and Hood. They balance each other so well. This world D.L. Snow has created is rather cool and I enjoyed watching the story unravel while enjoying her take on Hood and his Merry Men. And the world building was a lot of fun

Maliciously Obedient by Julia Kent

I loved it, Funny and sexy Lydia and Michael were great the reality tv show idea was good. he keeps forgetting about the cameras and remembers too late about them, it's great. I loved it so much that i had to read the next one as soon as it was released. You have to read them all, Julia Kent is a great author.

Eva Millien says

This is a set of seven books by seven authors that gives the reader different adventures to explore. A sensual and sexy journey of masquerade balls, vampires, fairy tales, fantasy and red hot sex scenes including menage.

Each contribution is a steamy, intriguing and unique romance that entertains the reader and gives them an exciting taste of genres. While I liked some more than others, I was not disappointed with the mixture. The readers have a satisfying reading experience with well written plots, heat radiating sex scenes, engaging story lines and the added spice of each author's different writing styles

I won't go into my thoughts on each individual stories here, but if you want to read them visit the page for the individual books.

Tonya Boutwell Hauser says

OMG I loved every story in this collection. These Authors are amazing. I couldn't put it down. There isn't anything bad that I can say about any of the stories. I loved the people so much. I laughed and cried.
