## From Reader Review **Pinkalicious: Tickled Pink** for online ebook

### **Mikayla Baker says**

Pinkalicious went to the library to pick out a book. She got a book on jokes and began telling her friends different jokes. They all thought they were funny. Then another girl at the school thought that she was not funny. She challenged her to a laugh-off the next day. Pinkalicious got worried because she was not sure if she could come up with an original joke. She talked with her family about it at dinner that night, but still did not come up with anything. Finally, in the middle of the night she got an idea. She was just hoping that it would work. Read to find out how the laugh-off went the next day.

I liked this book. I thought all the pink puns were really cute. The illustrations were also very cute.

This book is good to be read to non-readers, but is also great for children reading on their own because it has some bigger words. It will give them a challenge. Pinkalicious is a good role model for kids because she is a kind, nice girl.

Pinkalicious is challenged to a joke telling contest by one of the girls at school, but the catch is that she has to make up her own joke.

Deanna 5-years-old: I don't like how Tiffany acted to Pinkalicious because she was mean to her. But when Pinkalicious had an idea to tickle her, she felt happy. I think the book is pretty. I like pink.

My children enjoyed this book. They are really into telling jokes! The book gave us a starting point to talk about how sometimes doing your own thing may not be as good/funny/creative as completing a replica, but it is unique and something you did on your own.

### **Holly Letson says**

I wasn't really impressed with this one, since it was about a laugh-off, where neither joke was even funny.

Pinkalicious checks out a joke book filled with funny jokes, and people laugh when she reads them. A classmate, Tiffany, gets jealous of her, because of this. So, Tiffany challenges her to create an original joke

for a laugh-off. Whomever--her or Pinki--gets the most laughs will win.

The next day, each girl tells a stupid joke. Then, Pinki tickles people to make them laugh. I feel like Pinki won by cheating. That's not a good example to give children.

I checked this audiobook out from the Decatur Public Library, via CamelliaNet. All opinions expressed here are my own.

I bought this book at a book fair for my 3yr. old daughter. I read it to her a lot, this book has become my daughter's favorite story! It's about a lil girl who goes to her school library to look for a good book. She ends up finding a pink book with gold letters on it. She reads a little of it...and finds it really funny, so she chk's it out. During recess she reads the book to her circle of friends...and they also find the book really funny. But another student over hears pinkalicious reading the funny book, and making everyone laugh...and says to her it's easy to be funny while reading from a book, and says to her I bet you can't make your own jokes up? So pinkalicious takes the bet, and has to make up her own joke at recess the next day. Who ever is the funniest wins.

What can I say about Pinkalicious?! My girls LOVE her books and look for new ones coming out. My 6,4,2, and 1 yr old sat in absolute silence while I read this to them, and begged me to read it again and again. Definately buy this book for the little girls in your life!

Pinkalicious: Tickled Pink by Victoria Kann was a fortuitous find. Ian had taken the kids book shopping while I was doing a presentation for school. Sean chose a joke book and Harriet chose Pinkalicious: Tickled Pink, a story about Pinkalicious learning to tell jokes.

Pinkalicious ends up in a joke telling contest with one of the Goth girls from Purplicious. She goes home, much like Anne Shirley does in many of the Green Gables chapters, to panic over the contest and struggle to come up with the perfect joke. The book shows how one can be creative and true to one's self while still being entertaining. It's also nice to see the adversarial relationship between Pinkalicious and the Goth girls evolve into something more positive.

My children are Pinkalicious fans. We own the original three picture books and have read them more times than I can count. Now that my daughter is learning to read, the shorter early reader paperbacks are perfect for her and her brother to share. She can read most of the book with him helping on the words she doesn't know. It's great way for them to spend time together on a car trip.

My Bridget has been dying of laughter because of the "pinky, stinky underwear" knock knock joke in this book. So cute! Jeremy said that the first time they read it she was laughing so hard that it was silent.

Pinkalicious checks out a funny book from the library. She takes it to recess where everyone laughs but Tiffany. Tiffany challenges Pinkalicious to a laugh off. So Pinkalicious takes her on and she wins.

You could use this book to talk about how it feels to be nervous.

What I Can Tell You:

Pinkalicious is still funny! Even my 7 year old son liked the book and has been seen reading it three times in the past 4 days.

Pinkalicious is reading jokes out of a joke book and her friends are hysterical laughing. When Tiffany challenges Pinkalicious to a Laugh-off without the help of a joke book, nerves set in.

When the term "pink" saves the day, everyone is happy, even Tiffany.

Even the "mean girls" in Pinkalicious are never that mean and I am always happy when Pinkalicious' brother Peter is in the book. He cracks us up.

The illustrations are sweet and very detailed for a small children's book.

Fun to read to young non readers 4-6 but also a great book for young self readers between 7-10. One of the reasons I love this book for self readers, is that some of the words are bigger and made up like pinkatastic and pinkerrifically as in something being pinkerrifically funny.

Pinkalicious is expressive and full of personality, also she is a good girl and a great role model.

2.5 stars

This is our first adventure into the *Pinkalicious* world, and frankly, I don't get the appeal.

**But.** My 6 year old daughter didn't hate it. She didn't ask me to read it again...but she didn't hate it.

Maybe we started with the wrong book?

### **Lynda says**

We've read so many Pinkalicious books. This one just didn't have the same goofy story or heart. It was still a cute story and my preschooler enjoys telling and making up jokes so she enjoyed that part of the book.

### **Eva Leger says**

This isn't my favorite Pinkalicious book but it's definitely a good one. Another reviewer mentioned loving the little brother character and I think I've mentioned the same thing before. (If I haven't I meant to.) I really like these books for Julia, I like how the kids are displayed - with different kinds of people, people acting different ways, looking different, etc. I like that the "lesson" isn't shouted out at the end of the story. I guess 'subtle' wouldn't be the best word but it does come to mind when I think of that part of it. The parents don't play a big part in this one which I'm happy about because those two characters and they're lack of parenting are the one bad point when it comes to these books. Luckily there are a ton of great things to compensate.

### **Modboy says**

I was surprised when my son brought this home from the library. He usually goes by age-old motto that girls and pink are bad, something he picked up early in school but luckily at that same place the teacher's introduced him to Pinkalicious. Admittedly far girl stereotyping in pinkness and sweetness it provides a story that boys and girls both should find funny and engaging. Challenged by a bully to a laugh-off Pinkalicious must come up with a joke and she does so in her own unique style. My son especially couldn't stop laughing when the brother shared his joke.
