Interesting, quick and funny reading.

**" My mum still thinks LOL means Lots of Love."**

After a big disappointment with "Married with the Prince of Darkness", this was really good.

In story we have a Chloe and Reece. You wouldn't even think they can to be together. She is like angel for relationship and always helping someone. He is always destroying something and never was good with girls (don't let me talk about relationship). But, somehow Cupid got this two together. And they are unforgettable pair.

**" I'm just Chloe Armmol, Cupid's Assistant as they like to call me... I just help do what chubby, half naked baby with a dangerous weapon forgets to do: Shoot you both."**

**"Honestly Recce, van your ego get any bigger?"**  
**I don't have a big ego, I'm way to cool for that."**

Yes, yes, this is another wattpad book, but it was great. I had a lot of fun reading it and maybe even reread it again. For now, I'm alraedy starting my next wattpad book.

**Contains Spoilers and Coarse Language.**

If you **must** know one thing right now, is that I have *no* idea where to start with thing one. I just don't.

Everybody is like:

When I'm like:

You must be pulling my leg.

First of all, there is an instant big attraction, love even. When she thought she was in serious danger, (5 guys at night with masks) even though she was scared, (this girl told them her name by the way) and the hero caught her, she admired his eyes through his *mask* and she felt 'sparks' when he touched her (should have been a werewolf story... or maybe not).

I would cry, or laugh at it. And *this*, my dear friends was the first chapter. So I had a looong way ahead of me to cry... Believe me.

Then, she was giving advice to girls, that wanted to date specific boys. What to do to attract them and keep them. Now, let me tell you, she didn't give *any* advise that a good friend won't give to their friend. However, I was glad to see that she wasn't trying to change the girls for any guy. For that, I'm grateful. I agree with Chloe on that, and that's rich coming from me. Lets just say, Chloe and I won't agree on other matters...

So, we established when and *how* Chloe met for the first the hero, Reece. The other day, she asks her friends who these 5 guys, that attend her school, are. And when someone suggested that Reece is hot, and shouldn't be single she felt... jealousy.

Really?

The truth is I didn't find this funny at all, when I was reading it. I was actually rolling my eyes. Because she doesn't know him, why be jealous? Because he is attractive?

That's *shallow*.

Do you know, how many good, nice guys are just a 'friend', because girls like to look at the well built rude but "cool" asshole that looks like a wet dream? Far more than it should. And only because he has the reputation of being 'bad'. Let me translate 'bad' for you. Bad= Lack of good manners, difficult, arrogant and conceited. No, no and no! No, Goddamn it! And it's not like I'm hating on the hero, right now. This has to do nothing with the hero. This has to do a great deal of the 'attraction' that Chloe felt towards him. She knew *nothing* more, at this point, than that he is trouble. And she liked it. Not him, she didn't know him. She liked his image.

The heroine, liked the hero's reputation and image. That's what I got at least, considering that she knew him (and his existence) less than 24 hours. Less.

The next annoying thing, is when her very good friend, Allie, was in love with her best friend, Charlie. And she didn't like it because if they didn't work, she would have to choose between them.

I don't know if she is that dumb, insensitive, or childish but she must be something of the three. You don't 'choose' between people you love and respect and certainly people that love *you*, don't make you choose. Yes, it would be awkward, but they're like 16 or 17 years old, not 5. They would have been in a relationship, not you.

Why stop talking to one of them?

That's highly inconsiderate. It bothered me a great deal. What kind of friend is she?

Of course, when nothing happened between them, she felt relieved.

Next stop would be at how attractive *she* is. Every single person in the book liked her. (At least!) Almost all the guys, in this book, were in love with her or had a thing for her. Why this novel had to be like that? Not every guy will find you likable or lovely. Or even better, what the *author* was thinking? What kind of characters are these? Certainly, not realistic ones. And the girl, was supposed to be a *nerd*. I don't know, maybe I'm stereotyping here, but the author felt as if she was completely... in another universe writing this.

I feel disappointed, if you ask me. I just sit here, sipping from my glass of water thinking my brain is melting and if I'm reeeeally honest, I laugh on my own, looking at the above gif. It's 6:44 pm and I have sooo many other things to do, but I have to point out some other things as well, not all of them, I haven't got so much time.

Next, we have the 'I love you' situation. Yeah, they love each other after being childish for 2 weeks knowing each other, 3 weeks at best. I feel like I shouldn't even point it out. It's ridiculous. I don't want to analyse it, it seems obvious to me. It's fucking *wrong*.

Also, she doesn't like to swear. I respect that. I can't tell you what to do and how to speak, it's none of my business. But Chloe, feels as if it's her duty to stress it's not *nice* to curse. So, she reminds her friends each time "Language!"

The last and *FAVOURITE* thing that I'll point out, is... She wanted him to prove to her that he loves her, by loosing the Championships for her. At first he said, in a few words, to fuck herself (not exactly, more like she wouldn't say that if she loved him and I was like, YES!) but then he realized she is more important. That brat, is more important than his career? I don't care if she changed her mind, or didn't mean it. I care that she was selfish enough to even think about it. But MORE than that, I care that this is not her fucking call. She can't even whisper shit like that. Got it?

I choose my career over a stupid child. Screw him, for even thinking otherwise. He pissed me off at that point. Do you even know what love is? They weren't even a couple, together, to prove *anything*!

Crazy, crazy, all this shit is crazy!

As for Reece and his father. It didn't make any sense. He said he doesn't want to meet him because he is dead to him, and when he does see him after years, he talks to him normally. He calls him dad. No anger at all. And they talked about Chloe. (How good she is and shit like that. As if all the book wasn't about how *good* and *selfless* she was... Please!)

You know what? That's it. I can't talk about it anymore. That's the review. The only thing that I'm going to say is that I liked that the characters weren't only American. We had Spain-Mexican character (Reece) and French characters. I liked that. The humour didn't work for me most of the times, but I can see why it did to some.

## **Kelvin says**

Regardless of the fact that it's a wattpad book, The Bad Boy, Cupid, and Me was incredibly cute and fun to read and surprisingly well written. I don't mean this in an offensive way towards online published books, just that sometimes without an editor reading over the work, large mistakes can go unnoticed. At first I was bothered by the fact that each chapter ended in some sort of cliffhanger to keep readers that were reading the book as it was uploaded interested in the next chapter, typical of wattpad/fanfiction stories, but later on that stopped and I found myself getting into the book.

Actually, the book just kind of improved chapter by chapter: plot holes disappeared, nonrealistic events stopped occurring, stuff like that. What's more impressive is that the author was 16 when she wrote it! No way I could write that well... And writing as a 16 year old, the voice of all the characters sounded like real teenagers which really helped the tone of the book because, well, they are teenagers.

On the other hand though, a lot of the events fell way too conveniently into place for the characters, like Chloe's parents being away for over a month (view spoiler). I also felt like the characters all got too much autonomy from their parents. Even though Chloe and Allie had curfews, the way that everyone basically has full run of the world without any supervision or questioning from parents made them seem more like college students or adults than high schoolers.

Besides those slight things though, the best parts of this book were all of the funny lines of dialogue or thoughts. There are too many to list out here (we'd be here forever) but here are my absolute favorite.

*"I guess it's just you and me until mom and dad get home." About two minutes later, Oscar (Chloe's dog) went through the doggie door. "Okay; I guess it's just me then.*

*"Can you please put a shirt on?" "Why is my six pack bothering you?" "No" "Is it distracting you?" silence. He sighed, "it's tough being such a sex symbol"*

*"Don't look so disappointed ... I mean I'm sure you're a nice kid once we get over how much you belong in a mental institution... but really, I'm not interested in you like that"*

*You're looking at me like a fat kid looks at cake*

*"Bella's having puppies!" I cried excitedly jumping in joy. Reece, however, didn't seem to share a mutual feeling. "Really? wow I was expecting her to pop our baby crocodiles"*

*I whipped my head back so fast I almost cracked it. I wonder how Willow Smith was capable of doing that so many times in her music video without having to resort to some sort of neck surgery*

See funny right? Really just a refreshing read and if you're looking into reading it as well, it'll go by in a snap!

Typical for a Wattpad Story plotwise, but surprisingly decent and engaging.

Yes, there were many cliches and it really annoyed me how Chloe was portrayed as a weak female lead ("You're so cute when you're angry"-- I lost count of how many times this statement occurred). But the characters were lovable and the story flowed nicely considering chapters were released in separate installments.

An enjoyable, light read. And honestly way better than many of the other things I've read on Wattpad.

Oh My God Hasti Williams I am in *AWE* of you!

Ladies And Gentlemen let's give a round of applause!

I will shamefully admit that this was my first wattpad read (I am so sorry! I plan on making up for it!)

Ok, yes, the plot is not exactly original  
(and I don't consider this to be a spoiler, 'cause I assume that you have read the blurb)  
Bad Boy And Good Girl Fall In Love, but seriously, Hasti was, like what, 16 when she wrote this?

R U kidding me?

???????

AND she did this seen before plot **WAY** better than 90% of experienced authors!

I mean there were some twists and surprises that made the book different (view spoiler).

There were hardly any grammatical or spelling errors, and they weren't so major that I would remember them.

I found a couple of the plot twists to be kind of soap-operish (view spoiler) but I didn't mind terribly.

(view spoiler)

And I loved that she put herself in the book! (view spoiler)

And though some people might call the dialogue juvenile, I wouldn't! The characters are teenagers - teens are not exactly the picture of maturity people!

Seriously, I was so happy after reading this book! I laughed at least a hundred times while reading it! And not a lot of books can make me do that!

Here's a sample of some of my favourite quotes (not all of them are funny):

*I don't have a big ego, Reece replied calmly, I'm way too cool for that*

*Sure, it's easy for me - but that's not why I love Math. I love it because although Math can't teach us how to add Love or minus Hate, it proves to us that every problem has a solution.*

*Always classy, never trashy...just a little bit nasty*

*Do you think this is funny? she (Aurora- Reece's mother says this to Reece) flared while pointing her finger towards Chloe. She (Chloe) was currently holding a potato, and congratulating it for getting a part in Toy Story.*

*Last time I had hash brownies I hugged a hobo with a white beard and screamed "Dumbledore you're back!"*

*I whipped my head so fast I almost cranked it. I wonder how Willow Smith was capable of doing that so many times in her music video without having to resort to some form of neck surgery.*

heart, smiley-face, ex oh ex oh  
Hahaha(you will get it if you've read the book)

In “Bad Boy, Cupid & Me” there's this girl named Chloe Armel. Chloe is known around school as the cupid's assistant. Everyone goes to her when they have a love problem or when they're having issues with a boy/girl. Chloe is a very smart girl. Chloe meets this boy named Reece. Her and Reece have to live next door to each other and they start falling for eachother.

What I like about “Bad Boy, Cupid & Me” is how it doesn't just talk about Reece and Chloe. It talks about their friends and what they do and the drama that goes on with them. I also like how the author tells you whose point of view you're reading. The characters in the story have their own drama and the author goes into a little of each person without getting off the main characters. I like the way the story just flows. What I didn't like about this book was the fact that at the end it kind of skipped a little. I think the author could have maybe expanded on what happened in between those two chapters. Other then this the author did really good on the whole story.

I knew I was going to like this book because I like to read about thing like this. I would recommend this book to someone who likes drama and some what likes romance. This book has a lot of drama and a little of romance in it so if you like that type of stuff “Bad Bad, Cupid & Me” is for you so go check it out on the Wattpad app.

Ah .. how I love dis bad boy - good girl thing .... where bad boy is actually quite nice ... and the good girl is naughty ... Well it has all the elements of perfect romance book , without going over the edge,I loved how the story evolves with the friendship thing and the characters are not jumping at each other ....

**Meet Reece Carter : the official bad boy of the Preston Highschool , He rides bike , he is the most notorious guy in the campus , he has a whole rebel group , he is never seen with a girl , and.... He is freaking genius in Math**

**Now lets meet the gal, : Chloe Armel , she is teacher's pet , the best friend who always makes everyone laugh , every parent's idol kid , helps everyone with relationship problem, and .... never skips school**

So what happens , when the badboy meets the good gal ... obviously Sparks Fly ...

So how many times have you read that HE was her first kiss , he was her first true love ... but this story has a twist ...

My eyes widened in disbelief," ?Wow,I never took you as a one night stand, player type of guy, Reece.?"

"?No, idiot."? Reece snapped. "?I mean, I?ve never even been with a girl. Ever.?"

And with that, I died and went to happy land, with rainbow unicorns and—

Wait. Hold up.

"?But that means that your first kiss..."

? I trailed, not being able to believe this.

?

"Was with you."? Reece finished, looking away, shy all of a sudden

And with all other awesomness ... Reece Carter enters into my bookish boyfriend's list ...

Seriously he fulfilled all the criterias..

1> he is Rebel

2> HE is funny

3> He is decent

4> he rides bike & fights like hell ...

5> He is not a player

...

and the list mi8 go on and on and on ...

Also to add he is best group of guys ... all are damn funny & at the same time such decent pals..Can i join there group ..

So in short this is a book , where you get to see two people falling for each other after being friends ... and how sometimes the most opposites are actually perfect for each other ... I recommend it to all those who love Chick lit .

\*\*SPOILERS PRESENT\*\*

Well, damn. There's a lot I have to say about this book, and most of it isn't good. So I suggest that if you're a huge fan of this book, you stop reading my review now. Because I can assure you that you'll probably get offended. That being said, let's move on to the review.

When I first started into the book, it seemed okay. It looked like a general teen fiction book and I assumed it would be cliche. As I kept reading into it, that's when I sort of regretted it. I couldn't even laugh. It was that cringeworthy. In the first chapter, you already see Chloe—the main character—sort of "falling in love" with the main hero, Reece.

She said that she felt "sparks" even though she didn't know him before that night. The next day, when her friends introduced him and his friends as being the typical "bad boys" and mentioned that Reece didn't date, Chloe felt JEALOUS.

You heard me. This little brat felt JEALOUS OF A GUY SHE KNEW LESS THAN TWENTY FOUR HOURS. And then right after that, she said the typical cliche line of: what was that? Like honey that was you drooling over a guy you saw down the hallway and didn't know before twelve hours ago. That's not excuse. I see lots of people down the hallway. I see that creepy boy from class standing in my school hallway. I see that hobo standing in the hallway inside my local Safeway. Well, I guess that's an aisle, but you get my point.

The overall plot line seemed to be copied from a multitude of books, from Reece fighting for money to stealing her diary. And of course, she lives RIGHT NEXT DOOR TO HIM. WOW I'M SO SURPRISED. And obviously, their bedroom windows choose to be pretty much SMASHED into each other. At one point, Chloe tries to steal her diary back during the night when Reece is sleeping. This reminded me A LOT of the scene from The Bad Boy Stole My Bra when Riley tries to do the exact same thing with her bra from Alec's room.

Literally, I thought this book should be named The Bad Boy Stole My Diary.

But I'll get back to the plot line later. Let's check up on the characters now. Ahh, the things that made this book so unbearable. Really, the plot line wasn't too bad. It had a few surprises. But then the characters jumped in, and ruined everything.

Let's start off with the main character. Chloe Armel. She seemed alright at first, but then came to reveal herself as a whiny little brat. One thing that really pissed me off was that Chloe didn't like swearing, but she uses the word retarded? Excuse me? Out of all the words she could have picked, she uses THAT one? That is highly offensive, and what made me madder was that Chloe was a pretentious little goody goody who didn't swear yet doesn't have the brains to know that that word is so undignified and hurts a lot of people?

Her character turned out to be quite boring. She's a typical Nerd and good girl, yet she never studies. Throughout the whole book, I rarely see her studying yet she somehow manages to get straight A's. Umm, excuse me, but do you actually know how freaking DIFFICULT that is? I know it's a book and all, but when that happens, it pisses me off. So. Much.

There's also the fact that she gives love advice, which I really didn't have a problem with. Her advice was mediocre, but it wasn't bad. However my problem is, when it comes to her, it's like all that advice jumped out the window and left her brainless. Seriously, she made me so mad when she demanded that Reece lose the finals to prove his love to her. Like honey, NO.

#### HOW SELFISH CAN YOU BE?

Because that was a dick move. Even if she revealed that she was only bluffing. Why the hell would you bluff about that? I was quite proud when Reece straight up told her no, then my mood was ruined when she runs off crying. Honey, it's your fault. You can't blame anyone for that. However, my respect for Reece soon died when I saw that he was actually losing in the finals for her and proving his so called love.

And did I mention that this all takes place over a period of 2-3 weeks?

Like no. These kids don't know what love really is. Call me a skeptical if you wish, but falling in love isn't possible in a time period of three weeks. It simply isn't. My friend had a crush that came and WENT during that time period.

I think I should wrap up this review, so let me just do a whole long story short. Good girl falls for bad boy. There didn't seem to be any twists in this story. All the characters were too boring and too perfect. It was like flat cardboard cutouts. Good girl Nerd. Bad boy fighter. Boy best friend and girl best friend. Bad boy's sidekick. How boring.

This book wasn't my cup of tea. The use of the word retard and the main character's personality really dampened the story. Overall, I wouldn't go back to reading it again.

I  fucking  love this book! I cannot understand anyone who doesn't love this book, or hasn't given it a shot!!! It's amazing! The characters are amazing! The friendship, relationship, EVERYTHING is  **amazing** ! Yes, I just used the word  *amazing*  3, well for if you count the last one... Anyways, I  **cannot**  to re-read this one yet another time in the future! Oh and I want my own Reece! And and I want  more  !

*The girl's here at Prescott Private School had my trust. I'm the girl they all turn to for relationship advice and help - not that I was some kind of relationship guru or anything -*

*I'm just Chloe Armel, Cupid's Assistant as they like to call me... I just help do what the chubby, half naked baby with a dangerous weapon forgets to do: Shoot you both.*

Omg, this is one of the best books I've read in 2014!!! I seriously needed the laughs Hasti Williams gave me!! My stomach's really aching after all that laughing.. Man, the book was just perfect! The writing, the story, the humor, the friendships and the love.. AMAZING!

*My eyes widened in disbelief," Wow,I never took you as a one night stand, player type of guy, Reece."*

*"No, idiot."Reece snapped. "I mean, I've never even been with a girl. Ever."*  
*And with that, I died and went to happy land, with rainbow unicorns and—*

*Wait. Hold up.*

*"But that means that your first kiss..."*

*I trailed, not being able to believe this.*

*"Was with you." Reece finished, looking away, shy all of a sudden."*

The characters were just great! I can't get over how epic Reece's and Chloe's relationship was.. Them having the hots for each other, but really hating it.. Damn, tension and sparks flying everywhere and sassy, snarky comments here and there made this book one hell of a fantastic ride!

*Always classy, never trashy...just a little bit nasty.*

**Chloe Armel**, 17 years old girl, smart, funny and seriously a girl's best friend. I **love** her! She every parents dream daughter. She loves math, and she never skips school. Even the teachers love her. Another thing I love about her is that she never takes shit from anyone. Chloe has the most hilarious comments EVER and I know I would have been best friends with her if she was real! When ever she gets embarrassed she just brushes it off and says something sassy.

*"Last time I had hash brownies I hugged a hobo with a white beard and screamed,  
"Dumbledore, you're back!""*

Her sense of humor nearly killed me. Chloe's a girl who had her heart broken a long time ago, though haven't it been for the boy that broke her, she wouldn't be a fantastic guidance for the girls. She had studied the guy's player moves and learned how to pick up boys like it was nothing. Chloe is though, a really good girl. She never does anything wrong and she always wants the best for everyone, even those who tried to harm her. She's simply great.

*My eyes trailed down to see him still half naked...in my bed. I couldn't even remember when I had fallen asleep beside him last night!*

*I looked at the clock hanging off my wall- it read five-thirty in the morning. My parents would be back soon.*

**Oh crap.**

**Panicking, I did the only thing reasonable at the time.**

**I pushed Reece off the bed.**

Enter bad boy **Reece Carter**. Cocky, sexy, arrogant, badass, incredible, hot, intelligent, oh and did I mention **cocky**? Rides a motorbike and has the best best friends anyone could ever ask for. Reece's a rebel, fighter, strong, respected and the most important thing about him is...wait for it.. he's *terrified* of spiders.

*"You should have seen your face when a spider was on you. Priceless." I retorted, feeling a sense of triumph. He edged even closer to me (if that was even possible), and I felt his cool breath on my face,*

*"We agreed to never bring that up again."*

*A smile couldn't help but slip on my face as I remembered the funny moment, "I think it's cute. The bad boy's afraid of an incy wincy spider."*

Reece is just the *sweetest* boy ever (hush, don't tell him I said that) and I adore and **love** him. He was perfect and he's definitely my new **book boyfriend**. He does have a temper and can be fiercely protective. I love when others speak of him, telling Chloe how amazing he is. My **favorite moment** was when Valentino told Chloe how Reece and he met. Reece is just so incredible that you cannot help but to *fall in love with him*.

*"Oh, Chloe." He began, his voice low and steady, making my breath hitch in my throat, "I thought I told you not to mees with me." He said against my neck, his lips barely brushing against my skin, "After all, I think I know how to make you scream, too." He finished, placing a soft, lingering kiss where he's spoken, making me let out a soft sigh of pleasure.*

Now let's start talking about **Chloe AND Reece** together, or just in the same room. I just ship them so hard!! Those who do not ship them, needs a smack in the face. Hard. What they two have together, I want that. The connection and love between them.. I'm jealous. They have a friendship that no one can compare to, and they are so comfortable around each other, even without knowing it, and that just makes it more perfect. I'm pretty sure their journey will never be boring, not with their comments to each other and Chloe are Reece's rock and vice versa. They really are a down to earth friendship/relationship.

*"Do you think this is funny?" She flared while pointing her finger towards Chloe. She was currently holding a potato, and congratulating it for getting a part in Toy Story.*

Man, I really hope Hasti Williams will write more about Chloe and Reece because these two people are **one of the favorite people** I have ever read about. I could read about them all the time, they were that amazing. I seriously **recommend** this book to everyone, and if you do not like it? Read it again! If you're having a bad

day, this book is perfect for you because it *makes you laugh so hard* that you end up having breathing problems. The only thing I didn't like was that it was **too short**. I seriously want more. I can't get enough! The book was too damn hilarious!! It was just small little things in this book that annoyed me and that was that sometimes Chloe could act like a child and that the book was too damn short!! I want more!! And...I really need to stop talking about this book... :) This is probably the longest review I've ever written :P One more thing, I will definitely re-read this book! Probably **MANY** times.

**Rate: 5+++++ Stars.**

Definitely a very adorable quick read :) It's available on Wattpad, so if you have Wattpad account you should read it guys, it's so entertaining and one of the best! Seriously, this story made me laugh few times and made me grin ear to ear! This is definitely good and worth-reading!:) And there is the best news! The main character is not a manwhore nor a player so i think there's a bonus since i believe there are girls out there who tired of those kind of manwhore main characters. Anyway, the reason why i dont give it 5 stars was...i dont know, i debated with myself actually, but maybe because the characters were perfect. I mean, it's like every cool boys have their eyes on our main female character-Chloe. She is interesting and all. I know why guys wanted to marry her and have babies with her. But it's like she is too perfect she doesn't have any minus on herself, which made me questioning myself weather she was a human being or an angel. But its just me. Lots of people don't see it as a big deal. Sooo what's your waiting for? This is definity worth your time, guys!)))
