Dr. Bill Bright founder of Campus Crusade said, "If we can win the university today, we will win the world tomorrow." The Fuel and The Flame offers church and parachurch college students, ministry staff and volunteers ten keys to impact students' lives for Christ. Five keys to personal preparation (the fuel) and five keys to ministry implementation (the flame) are defined and expanded on in order to develop students into the future Christian leaders of our world. Through the application of the principles found in this book, students will become reproducing disciples for Jesus Christ, able to impact campuses as well as the world with the Good News.

Incredible book for someone desiring to make an impact for Christ. Gives ideas and tools that can set a people group on a campus or anywhere on fire for the Lord. Wish I would've read this three years earlier! I have had the privilege of meeting Steve and am involved in one of the ministries he began, and I can confirm Christ has used him in unreal ways!

I've been involved with collegiate ministry for 11 years now and I wish I had read this book long before. A great resource for anyone who has a heart for college students.

## **Dean says**

This moved my heart towards the truth and impact that God had for me while I was at University. It is an easy to follow guide to mobilize your friends and others around towards God and his eternal purposes.

I would actually give it 3.5 stars....it has really good content, but because everything is written in step by step processes, you almost feel like you need to make an outline of it to put all the points together. He's very systematic and formulaic. Again, all of his content is really good, I just think we have to understand while reading it that there are very good principles in it, but the Lord is the One to be trusted with the results.

This was a great book to put some things into perspective. Definitely showcases the importance of evangelism really well. The only issue I had with the book is that at times it seemed to downplay the emotional and feeling aspect of religion. That to me is a very big part of my religion, so it bugged me a bit.

One of the first books I read on the subject. Engaged me as a college student with the concept of discipling! Love it.

### **Kimberly says**

Great book for anyone involved in college ministry, whether you are just a student in a Christian group or you are a minister on a college campus this book is a must read.

### **Hannah says**

Is this a good book to read? Yes.

Could this book have been 25% shorter? Yes.

Basically, the good points of this book get overshadowed by lengthy tangents and stories about frat guys or having the point reiterated numerous times. I've heard that Brown Like Coffee is basically a shorter version of this book, but I haven't read it so I cannot confirm. ?

### **Kyle&Jenn Beckrich says**

If you desire to make disciples who make disciples who makes disciples please read this book sooner than later.

### **Chris says**

This is an awesome book on how to build and grow a Christian campus ministry, written by a man with great experience and insight in that area. Having been involved in campus ministry for 6 years as a graduate and 4 years as a student, I thought that this book would be, at best, review for me. Instead I found myself challenged throughout. Now I have to read it over again, taking thorough notes on how I want to reshape what I do on campus. I highly recommend it.
