The Girl, the Doctor, and the Texas Ranger

Sue Lyndon

The Girl, the Doctor, and the Texas Ranger Sue Lyndon

After witnessing a car crash outside his ranch house, Dr. Daniel Anderson rushes to help the girl behind the wheel. He carries her inside and tends to her wounds, all the while wondering what brought her out this far in the middle of the night. The young woman soon breaks down and confesses that her name is Emily and she's on the run from the police after fighting back against a vindictive cop who tried to take advantage of her.

Daniel and his brother Trevor, a Texas Ranger, feel protective of Emily and offer to keep her safe and help clear her name. They agree to let her stay on the ranch, and in return she promises to help out with chores and obey their rules. The prospect of real consequences if she misbehaves is exciting to Emily, and when she shyly approaches Daniel with this confession, he decides to give her a taste of his discipline. He takes her over his knee and spanks her bare bottom, and the love she feels as he cradles her in his arms afterwards is unlike anything she's ever experienced. She quickly discovers that Trevor is almost as strict as his older brother, and just as loving.

Though she is twenty-years old, Emily becomes their sweet little girl. Daniel and Trevor delight in buying her cute frilly dresses, taking care of all her needs, and disciplining her when she's been naughty. She thrives under their attentions and falls hopelessly in love with both brothers. It isn't long before they claim her, first each on his own and then both at once. Trevor is confident he'll have her name cleared in no time, but once he does, will Emily have to leave the men who've changed her life and stolen her heart, or can she stay their little girl forever?

Publisher's Note: The Girl, the Doctor, and the Texas Ranger is an erotic romance novel that includes spankings, anal play, exhibitionism, sexual scenes including threesomes, age play, medical play, and more. If such material offends you, please don't buy this book.

Lindsey says

Possibly some spoilers, but really, you know what is going to happen once you read the synopsis, so nothing really revealed.

Okay...I approached this book knowing that there would be some elements I didn't like, judging by what else this author has written...In the beginning, you have a heroine who is naive, makes stupid choices, and recognizes that about herself, and knows she needs to grow and make better choices in the future. So far, I liked it. Characters can be stupid at parts, that is fine by me; it makes characters likable, sometimes. She runs, and I can see why she would, and then meets the heroes. All is fine. I liked that Daniel was angry at first, thinking she was a drunk driver, and I appreciated how that transpired. When the spanking thing gets introduced, I was a little unsure about it, but the author had hinted at it, and Danny and Trevor seem to give her time to acclimate to the idea, and once she shows interest, they proceed. Out of my comfort zone, but ultimately, not bad, though I skipped over the spanking scenes after a while. But while their love is certainly explained, and I can see why Emily falls in love, for crying out loud, can it be explained more often that she feels neglected by her mother? I don't think so! Talk about being hit in the head repeatedly with a fact until it is gushing out your nose!

Then...something happened. Where earlier their treatment of Emily as their child seemed mild, really just broaching on being overprotective, and maybe just a kinky part of their affair, it gets to the point where she is literally acting like a child. I am talking dressing like a child, playing with toy ponies, and drawing with crayons. And then...the diaper. Yes. The heroine wears a diaper.

And where the author introduced interesting conflict in the beginning? Nothing really comes of it. We don't see a confrontation, it just gets dealt with. No, just...no. I am going to pretend the book ended with the car accident. She dies. The end. Ugh, I have the creeps after reading this story.

Lyndac says

3.5 - 4 stars. This book had a little of everything in it. Mostly DD, but some BDSM, age-play, medical play and a plot thrown in for good measure. I enjoyed this book even though there were a couple of skeevy spots for me. I think it would have been better if the author had focused in on a couple of lifestyles rather than throw in everything. I will watch & read this author again.

axola says

The publisher mentions age play among other codes when describing this book. Age play is not my thing, but I can accept a scene when we are talking about someone fulfilling a fantasy.

However, the relationship in this book was solely based in age play and spankings. Two thirty something men find a 20 year old girl with abandonment problems and create a relationship where she is treated as a kid (not even a teenager, a young kid who is dressed-undressed, bathed, read stories like Cinderella...by her "daddy" and "uncle"). Of course, that doesn't stop them for having sex (anal, threesome...) with the same girl who they treat like a kid.

The whole thing just sounded wrong and disturbing. Left a bad taste in my mouth.

Jennifer Finn says

3 1/2 STARS

This book was short but I kinda struggled to get through it because it was pretty boring. I'm sure that sounds crazy with a stranded woman on the run, a hot ass doctor and his Texas Ranger brother but it just didn't do it for me. I would've really liked it if they weren't brothers but instead "friends with benefits" and she stumbled onto their land, that would've been AMAZING.

Katherine Deane says

Loved this story!

It was my first AP, so I was a little nervous about mixing sex and the "little" dynamic. But actually, it was very well done, and I liked it. A lot!

With this being my first AP, it also helped that Emily did not ever call Daniel, "Daddy". That helped me enjoy the sex scenes more without me having to worry about and incestuous feeling.

The sex scenes ranged from sweet / romantic to scorching hot! They also included a few menage's, between Emily, Daniel and Trevor, which were well done and sexy.

I really liked how these guys took such good care of her.

Great story!

Loved the HEA!

carol says

I have mixed feelings over this story.

Young woman, Emily pulled over by an ex school peer, now police officer, who then abuses his position to pull her over for speeding and commit a serious sexual assault, and I have no doubt he would have raped Emily if she hadn't stopped him as did. It shows how for most of us our deference to police authority opens a door to rotten cops pursuing an agenda of their own and who, like Emily versus the police would be believed unless fortunate.

Much I liked, the interaction between Emily, Dr Daniel and Ranger Trevor was lovely...some domestic discipline, med kink, spanking, age play etc...but Emily was fleeing sex assault, has a car accident... but within a day or so she is straight into sex play and kinky sexual relationships, first with Dr Daniel, then Trevor, then as a ménage.

I think this is where it goes wrong for me. Would a girl fleeing such an assault, who has no one to love or care for her, or believe her, feel happy when her apparent saviours start their domestic discipline regime, with panties off, or naked, for punishments so soon, or would she feel used and abused by them. Would she be so happy to participate in such sexual play when she has had no support or therapy over prior said assault that traumatised her so.

So this makes me cautious and drop a star. Any other premise that brings her to the men and the situation she finds herself, such as wrongful accusation of illegal deed would be more acceptable than the sexually assaulted and straight into sexual relationship with two brothers situation we have here.
Three stars from me.

Carrie says

It started out fine the premise was good. Just a young girl getting rescued by two older men then all of the sudden they were giving her curfew and she was wearing a diaper. I was out after that.

ILSE CIPRICH says

Not my kind of story.

Who wants to be treated like a little girl? And wants to be spanked so hard?? I did not care for this story. I taught the way these men treated this girl was so stupid!!

Stacy says

Well..I have read some really KINKY & OFF THE WALL BOOKS... When you see the authors warning that there is "age Play" you don't expect to see a 20 year old playing with my little ponies, drawing pics for the fridge, having a bedtime of 9:00 & getting put to bed in a diaper and hello kitty pj's. This was just pushing it a bit .. Quite a bit... LOL

kerrianne says

Not really my thing

I just couldn't get into it. The 'spanking' was just cover for two older men who enjoyed an got off on beating a younger girl. The writer tries to cover this off as "showing love and trust" but it goes horribly wrong as Emily is viewed more as a little girl/their daughter who is dressed, bathed and even taken to the toilet about cleaned up by these men who then have sex with their daughter.
wasn't how the intro into the book read as I said not my thing

Cheryl (Gwyneiira's Book Blog) says

I am quite amazed I finished this...I am very very picky about my kink reads and I am quite fond of the whole caregiver/little thing but this story isn't one bit safe, sane or consensual.

It felt like they pretty much took advantage of a lost, confused little girl who is also desperately looking for love. No safe word, no explanations. Just them pushing her limits. Treating her like a baby and giving loads of spanking. Not one guideline of bdsm followed. So I shall assume the author wasn't planning on writing one but a fetish story.

So if You're looking for a fun kink read, then Maybe this might do for you. But if you are looking for a proper bdsm read, you might not like this as much. The characters felt unreal at certain points and I couldn't connect or relate to them at all. Development was fairly lacking and the romance felt stiff on a whole. Still amazed that I finished the book...

Jenn says

Loved it

I read some other reviews and was shocked at all the 1? reviews because people don't like age play books. It's clearly stated in the description that this is age play, so if you don't like that genre do not read it!

That being said, I enjoyed this book. Emily really needed someone to be on her side and stand up for her. Daniel and Trevor were amazing and so loving. They made a sweet little family as neither Daniel or Trevor had the time individually to devote to a relationship but the two together were perfect for Emily. I loved the HEA and recommend this book to anyone into age play.

F. says

A good read, really 3.5 stars but not 4 so to keep GR happy it comes at 3.

Amy Nankervis says

Just ok

At the heart I think this is a good storyline but executed somewhat poorly. I think some of Emily's reactions were just flat unbelievable and made her seem weak. Good scenes, with a bit of taboo which were written well.

LABookFan says

As others have mentioned, this book was just weird and frankly, disturbing. Ostensibly, this is a BDSM book, although the word/term BDSM was never uttered in the story. There were no safe words, explanations about the lifestyle, etc. which leads me to believe the author wasn't writing BDSM book at all, just a strange baby fetish book. I mean, it's one thing to act out a "scene" or play kinky games on occasion. There were no scenes here. Just 24/7 spanking, 9pm curfews, coloring with crayons etc, etc. It was gross. The author justified it in the story by explaining that Emily never really had a childhood b/c she was poor and

abandoned by her mom, so she never received proper love and caring. OK, but that doesn't mean you LITERALLY treat a 20yr old like a baby, asking if she has to use the "potty" and having her draw pictures with crayons for goodness sakes.

The main offender was Daniel, the older brother and Doctor. I don't think the author realized how skeevy and pedophilish it came off to have a doctor of all people treat Emily as if she were a 5 yr old. Not that Daniel was a pediatrician or anything but.... ugh, scary. Trevor, the Ranger seemed more normal, although he's the one who took her to the "potty". Aside from that incident though he seemed to go with the flow. he Emily was actually a feisty character and she was pretty interesting until she went along with the weird baby stuff.

I have never read this author before. I don't know if this is her usual style or subject matter. I'm all for hot and even kinky reads, but this was was neither. It was just weird.
