The Second Horror R.L. Stine

The second volume in an all-new Fear Street trilogy. Brandt thinks moving to Shadyside is great, but he hasn't heard the terrifying stories about his new home--99 Fear Street. He doesn't know about the headless bodies or bleeding walls. And he doesn't know that Cally Frasier still haunts the house and plans gruesome deaths for him and everyone close to him.

Okay, the ending of this one is batshit insane. But I love it! The entire plot is essentially the same as the first one. More evil house shenanigans, combining Murder House and The Shining.

Brandt, the new arrival to 99 Fear Street, has three girls instantly chasing him. Abbie, Jinny, and Meg. Jinny and Meg are actually close friends, but they (refreshingly) do not fight one another for Brandt. This could be because they are too busy being attacked by his house. First, Jinny has a glass explode on her in midair. She gets cuts all over her arms. Then a suit of armor falls on Meg. Brandt and his parents came to Shadyside from the island of Mapolo, and his dad is into artifacts and tribal magic and stuff like that. It's really just a convenient plot device to give Cally something to hurt everyone with.

Brandt shows Jinny and Meg his father's blow dart gun, but when he goes outside to help his father and then comes back in, he finds the girls sitting in open-mouthed horror on the couch with darts in their necks. The doctor at the hospital says they will both survive, but we leave the book uncertain of their fates.

Brandt has been Reading Cally's diary as she updates it the whole time. She warns him that Abbie will be the next to die. So when Abbie unexpectedly shows up in his house, he quickly warns her about the evil of the house, telling her that she was right. But - and I totally called it! - Abbie is already aware of the evil of the house... because Abbie is actually Cally. So Cally uses one of Brandt's dad's hatchets and cracks open his skull... only to find that nothing happens. Brandt is already dead!

Yep, Brandt died from a local tribe's poison back on the island. However, he was kept "alive" by a sorcerer giving Brandt his life force. The sorcerer died and Brandt came back to life. But a grey ghostly figure has been following Brandt at school. And it turns out that that figure is the sorcerer, back to reclaim his life! As soon as Cally attempts to kill Brandt, the sorcerer sucks his life back and Brandt immediately "dies." Cally expects his ghost will haunt the house with her, but she gets a terrible surprise when she sees that Brandt's parents are carrying him away in a coffin.

Also, James and the dog are found inside the wall! He has turned to a pile of bones. Strangely, though, he doesn't haunt the house with Cally.

R.L Stine never disappoints, unexpected ending.

Brandt McCloy and his family have moved back to the US from the island of Mapolo where they spent many years living while Mr. McCloy, an anthropologist, studied the island's ritual magic. The family brought many of spiritual items...and a big secret to their new home. Their new haunted home with a vengeful ghost named Cally.

While the ghost of Cally tries real hard to spook everyone, especially Brandt, she's the one who becomes frightened in the end.

Those McCloys and their dirty secrets...

A spine chilling read that I remember well as a kid. Just as good as it was back when I read it as a kid!

The second Installment of 99 Fear street.

In this book we meet Brandt and his family the house 99 fear street still stands and its ready to unlock its morbid horror.

I read these as a saga to my Retro horrors with books Have to say i enjoyed this.

The ending was ridiculous and so over the top. I loved it!

Fuzaila says

Nope, this was bad. Thank God it got over quickly. The prequel had been much better.

In The Second Horror of The House of Evil trilogy, a family of three moves to the house at 99 Fear Street. It's been about a year since the Frasers moved out. Feeling abandoned by her family, Cally Frasier's ghost has been waiting to take revenge on anyone who comes to live at the house next. The McCloys are in for trouble.

Mr. McCloy is an anthropologist who collects rare antiques. His son Brandt has enrolled in Shadyside High and is all set to have a fun year at school. And girls seems to magnate toward him. But Cally wants Brandt all for herself. What would happen to Brandt? What is the strange condition which makes him weak? Would

Cally finally have a friend?

The plot itself was ridiculous. Cally Frasier's character was just cruel. And all the fuss about Brandt's condition was getting to me when finally it was revealed and I was like WHAT??!! THAT IS JUST STUPID DUH ? (view spoiler)

R.L. Stine's characters have never appealed to me, but he has a way of making the readers curious enough. I guess I'll just read the third book and complete the trilogy, whatever happens.

Tanner Ashley says

Damn, Brandit is zombie player. Nice plot twist.

Usaid Khalid Khan says

Better than the first horror.

Cally's ghost still haunts 99 Fear Street. And when a new family moves in, they are in for a surprise. Or are they?

Tamira Vledder says

Liked the first book of this trilogy bedt

Ivy says

Very creepy. Wouldn't want to live at 99 Fear Street. Poor Ezra. :-(. It was interesting to know what Brandt's condition was.

Would recommend for anyone who is a fan of horror novels and R.L. Stine.

Lexie says

This sub-set of "Fear Street" was actually one of the few arcs that surprised and/or freaked me out (really only the "Historicals"/Fear family Sagas chilled me...for some reason Stine could think of a thousand and one ways to kill a person in olden times in terrifying ways) and despite having not read the first (or third) one in years I still had a decent enough working knowledge to muddle through this one unconfused.

There's a few things to remember when you're reading a Fear Street novel so you can actually enjoy them:
The Idiot Quota is pretty high in Shadyside: Doesn't matter how many times the residents (new and old) are told NOT to do something, they'll do it. Because all those stories about Fear Street and the Fears could

NEVER happen to them surely.

Death or Injury by Fear is a legitimate insurance claim: Otherwise I can't see how the rest of the world hasn't come down like a ton of bricks on the "small town" of Shadyside for the ridiculous number of highly suspicious or improbable deaths of teens.

Love is deadly so don't look for anything more than angst: Its very likely at least one of the participants is dead, cursed, the villain or has a previous/current significant other/stalker who won't let go and will kill to keep them.

People don't trust the "Fears"...until they see the attractive ones: Mostly an ongoing problem in the "historicals" since the Fears bred an insane amount of highly attractive people despite folk in their family dying by the dozens each week. But the blinders seem to be on everyone's eyes if the bad guy is attractive in some manner.

This book has a twist at the end that I completely forgot, which is good because once you know it you'll see all the obvious clues of it and that ruins some of the suspense in the book.

Andrew Marcec says

Oh man I totally remember this book from when I was a kid. I was obsessed with the Fear Street series, it was as close to adult horror novels as I got until I was like 14!

If I'm right, this one involves a lot of voodoo practices. R.L. Stein was always able to pull of creative ideas in a short space. Definitely a nostalgia read for sure!

[Brandt detailed how he'd died and how his parents had hired a shaman/sorcerer to steal some drifter guy's life force (hide spoiler)]
