Thinking Quantitatively: Communicating with Numbers MML Access Code Card Eric Gaze

Thinking Quantitatively: Communicating with Numbers, by Eric Gaze, is more than a simple math course; it develops well-rounded students who can think critically, while showcasing how we use numbers to communicate in everyday life. Today's students need to be numerically literate to thrive in our increasingly technological society, and this program teaches students the math needed to develop the critical thinking skills required to make good decisions and become informed citizens. *Thinking Quantitatively* is intended for use in a credit-bearing quantitative reasoning or liberal arts math course for non-STEM students. **Built in MyMathLab**, this program offers an **interactive eText, videos, just-in-time tutorials, assessment, and Guided Worksheets**. The Guided Worksheets are a printed resource students will use for note-taking and working out problems, and can be used as an in-class resource or to facilitate learning at home in tandem with their MyMathLab course. Authentic, real-world problem-solving using **spreadsheet software** gives students the opportunity to develop sophisticated reasoning about everyday topics. *Thinking Quantitatively* enriches the learning experience by providing students with the tools to process the quantitative data that is pervasive in their everyday lives.

NOTE: Before purchasing, check with your instructor to ensure you **select the correct ISBN**. Several versions of Pearson's MyLab & Mastering products exist for each title, and registrations are not transferable. To register for and use Pearson's MyLab & Mastering products, you may also need a **Course ID**, which your instructor will provide. **Used books, rentals, and purchases made outside of Pearson** If purchasing or renting from companies other than Pearson, the access codes for Pearson's MyLab & Mastering products may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase. *This ISBN is for the MyMathLab access kit and contains none of the print supplements referenced above. If you would like to purchase the MyMathLab access kit with Guided Worksheets, search for:*
